MARKING GUIDELINES

ACCOUNTING

(PAPER 1)

12 pages

MARKING PRINCIPLES:

1. Unless otherwise stated in the marking guidelines, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
2. Penalties for placement or poor presentation (e.g. details) are applied only if the candidate is earning marks on the figures for that item.
3. Unless otherwise stated, give full marks for correct answer. If answer is incorrect, mark workings.
4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark for the working for that figure (not the method mark for the answer). Note: if figures are stipulated in memo for components of workings, these do not carry the method mark for final answer as well.
5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or – sign or bracket is provided, assume that the figure is positive.
6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
7. If candidates provide more than the required number of responses, inspect all responses to give benefit to the candidate. Penalties may be applied for foreign entries if candidates earn full marks on a question (max. -2 per Q).
8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
9. Where method marks are awarded for operation, marker must inspect reasonableness of the answer.
10. Operation means 'check operation'. 'One part correct' means operation and one part correct. Note: check operation must be +, -, x, ÷, or per memo.
11. In calculations, do not award marks for workings if numerator & denominator are swapped – this also applies to ratios.
12. In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part. Indicate with a □.
13. Be aware of candidates who provide valid alternatives beyond the marking guideline. Note that one comment could contain different aspects.
14. Codes: f = foreign item; p = placement/presentation.

Geougraphy Examination June 2014 Kzn Grade1

Ruth Massey,Ashley Gunter

Geography Examination June 2014 Kzn Grade1:

Urban Geography in South Africa Ruth Massey, Ashley Gunter, 2019-08-17 This book embraces South Africa and its place in the Global South providing a succinct theoretical and empirical analysis and discussion of urban issues in the country. There have been sporadic calls from the Urban Geography community for the development of an overarching and comprehensive text that explores contemporary processes and practices taking place in urban South Africa and more widely the Global South. This is an edited collection of chapters by leading urban theorists and practitioners working on various themes within urban South Africa and serves as a base for scholars and students interested in urban perspectives from countries in the Global South.

Disrupted Urbanism Nancy Odendaal, 2023-01-16 The smart city is often promoted as a technology driven solution to complex urban issues. While commentators are increasingly critical of techno-optimistic narratives, the political imagination is dominated by claims that technical solutions can be uniformly applied to intractable problems. This book provides a much needed alternative view exploring how home-grown digital disruption driven and initiated by local actors upends the mainstream corporate narrative. Drawing on original research conducted in a range of urban African settings, Odendaal shows how these initiatives can lead to meaningful change. This is a valuable resource for scholars working in the intersection of science and technology studies, urban and economic geography and sociology.

Waste Works Brenda Chalfin, 2023-03-06 In *Waste Works*, Brenda Chalfin examines Ghana's planned city of Tema, theorizing about the formative role of waste infrastructure in urban politics and public life. Chalfin argues that at Tema's mid-century founding, a prime objective of governing authorities was to cultivate self-contained citizens by means of tightly orchestrated domestic infrastructure and centralized control of bodily excrement to both develop and depoliticize the new nation. Comparing infrastructural innovations across the city, Chalfin excavates how Tema residents pursue novel approaches to urban waste and sanitation built on the ruins of the inherited order, profoundly altering the urban public sphere. Once decreed a private matter to be guaranteed by state authorities, excrement becomes a public issue collectively managed by private persons. Pushing self-care into public space and extending domestic responsibility for public well-being and bodily outputs, popularly devised waste infrastructures are a decisive arena to make claims, build coalitions and cultivate status. Confounding high-modernist ideals, excremental infrastructures unlock bodily waste's diverse political potentials.
