

Pre-Calculus

Equations & Answers

FUNCTIONS & THEIR GRAPHS

Definitions

- A function is a relation in which each element of the domain is paired with only one element of the range.
- In most cases, x is the independent variable and y or $f(x)$ is the dependent variable.

Linear Functions

- A function whose graph is a non-vertical line or part of a non-vertical line. There are 3 forms of linear equations: slope-intercept, point-slope, and standard form.
- Slope-intercept form:** $y = mx + b$, where m is the slope and b is the y -intercept of the line.
 EX: If a line has a slope of 3 and y -intercept of 5, the equation is $y = 3x + 5$.
- Point-slope form:** $y - y_1 = m(x - x_1)$, where m is the slope and (x_1, y_1) is a point on the line.
 EX: If a line has a slope of -2 and contains the point $(0, -4)$, the equation is $y - (-4) = -2(x - 0)$ or $y + 4 = -2(x - 0)$.
- Standard form:** $Ax + By = C$, where A , B , and C are integers and A is positive. The slope is $-\frac{A}{B}$ and the y -intercept is $-\frac{C}{B}$. This form of a line is most often used to find intercepts by plugging 0 in for x and y separately and solving.
 EX: Given the line $3x + 2y = 4$, the slope is $-\frac{3}{2}$ and the y -intercept is 2. The intercepts can also be found by substitution:
 x -intercept (plug in 0 for y):
 $3x + 2(0) = 4$ $3x = 4$ $x = \frac{4}{3}$
 y -intercept (plug in 0 for x):
 $3(0) + 2y = 4$ $2y = 4$ $y = 2$

Polynomial Functions

- A function is a polynomial function if it can be written in the form $f(x) = ax^n + bx^{n-1} + cx^{n-2} + \dots + dx + e$.
- The greatest power of a polynomial with one variable is called its degree.
 - When the degree of the function is odd, there is at least one real zero; when the degree is even, there may be no real zeros.
 - Both types can have imaginary roots of the form $a + bi$.
- EX: $f(x) = 2x^3 + 3x^2 - x + 4$ has a degree of 3, one real zero at $x = -2.1608$, and two non-real roots.

Quadratic Functions

- Written in the form $f(x) = ax^2 + bx + c$, where $a \neq 0$.
- The axis of symmetry is the vertical line with equation $x = -\frac{b}{2a}$.
- The y -intercept is c .
- Quadratic functions can be written in vertex form, $f(x) = a(x - h)^2 + k$, where (h, k) is the vertex of a parabola that opens up when $a > 0$ and opens down when $a < 0$.
- Quadratic functions can have none, one, or two real-number solutions.
- The graph is a parabola if the parabola opens left or right—it is not a function.
- The vertex is the critical point where the graph changes from increasing to decreasing or decreasing to increasing.

Methods for Finding Roots

Equation	Method	Justification	Solution
$x^2 - 9 = 0$	Square Roots	There is no x -term.	$x^2 - 9 = 0$ $x^2 = 9$ $x = 3$ or -3
$x^2 + 2x - 8 = 0$	Factoring	It has only a few factors to check.	$x^2 + 2x - 8 = 0$ $(x + 4)(x - 2) = 0$ $x = -4$ or 2
$2x^2 + 5x - 9 = 0$	Quadratic Formula	The equation cannot be factored.	$x = \frac{-5 \pm \sqrt{5^2 - 4(2)(-9)}}{2(2)}$ $x = \frac{-5 \pm \sqrt{97}}{4}$
$x^2 - 8x + 3 = 0$	Completing the Square or Quadratic Formula	The coefficient of the x^2 -term is 1 but the equation cannot be factored.	$x^2 - 8x + 3 = 0$ $x^2 - 8x = -3$ $x^2 - 8x + 16 = -3 + 16$ $(x - 4)^2 = 13$ $x - 4 = \pm\sqrt{13}$ $x = 4 \pm\sqrt{13}$

The **discriminant** is the expression under the radical in the Quadratic Formula and can be used to determine the number of real solutions.

- A function can be identified using the vertical line test. If a vertical line passes through the graph of the function in more than one point, the graph is not a function.
- A function can be represented by an equation in terms of x and y or with function notation: $y = 7x - 11$ or $f(x) = 7x - 11$.

Discriminant: $b^2 - 4ac > 0$

EX: $2x^2 - 7x + 3 = 0$

The discriminant is $(-7)^2 - 4(2)(3) = 25$, which is positive.

There are two real number solutions.

Discriminant: $b^2 - 4ac = 0$

EX: $x^2 - 8x + 16 = 0$

The discriminant is $(-8)^2 - 4(1)(16) = 0$.

There is one real number solution.

Discriminant: $b^2 - 4ac < 0$

EX: $2x^2 - 7x + 8 = 0$

The discriminant is $(-7)^2 - 4(2)(8) = -15$, which is negative.

There are no real number solutions.

Rational Functions

A rational function is an equation of the form $f(x) = \frac{p(x)}{q(x)}$, where $p(x)$ and $q(x)$ are polynomial functions and $q(x) \neq 0$.

- Rational functions may have breaks in continuity that appear in the graph as vertical asymptotes or point discontinuities that appear as holes.
- Vertical asymptotes occur where a rational function is undefined.
- Point discontinuities occur where there is a common factor in the numerator and denominator.

To multiply: First multiply the numerators, then the denominators.

$$\frac{3x^2 - 8}{3x + 10} \cdot \frac{4x + 6}{2x - 2} = \frac{(3x^2 - 8)(4x + 6)}{(3x + 10)(2x - 2)}$$

To divide: Multiply by the multiplicative inverse (reciprocal) of the divisor.

$$\frac{x^2 + 3x + 10}{x^2 + 3x + 2} \cdot \frac{x - 2}{x - 2} = \frac{(x^2 + 3x + 10)(x - 2)}{(x^2 + 3x + 2)(x - 2)}$$

Order is important for division.

To add and subtract: There must be a common denominator. To find it for rational expressions with polynomials in the denominator, factor first to determine common factors.

$$\frac{3}{x^2 - x - 20} + \frac{7}{2x - 10} = \frac{3}{(x + 4)(x - 5)} + \frac{7}{2(x - 5)}$$

Using one of each factor, the LCM is $2(x + 4)(x - 5)$. Multiply each fraction's numerator and denominator by the factors missing from the LCM.

$$\frac{3}{(x + 4)(x - 5)} \cdot \frac{2}{2} + \frac{7}{2(x - 5)} \cdot \frac{(x + 4)}{(x + 4)} = \frac{6}{2(x + 4)(x - 5)} + \frac{7(x + 4)}{2(x - 5)(x + 4)}$$

$$\text{Subtracting: } \frac{3x - 4}{x^2 + 3x - 10} - \frac{3x + 2}{x^2 + 3x - 10} = \frac{3x - 4 - (3x + 2)}{(x + 5)(x - 2)} = \frac{-6}{(x + 5)(x - 2)}$$

Using one of each factor, the LCM is $(x - 2)(x + 5)(x - 4)$. Multiply each fraction's numerator and denominator by the factors missing from the LCM.

Hint: The common denominator is the LCM (least common multiple) of the denominators.

Warning: The subtraction sign must be distributed to each part of the numerator of the second fraction.

$$\frac{3x - 4}{(x + 5)(x - 2)} - \frac{3x + 2}{(x + 5)(x - 2)} = \frac{3x - 4 - (3x + 2)}{(x + 5)(x - 2)} = \frac{-6}{(x + 5)(x - 2)}$$

This book delves into Glencoe Precalculus Chapter 3. Glencoe Precalculus Chapter 3 is an essential topic that must be grasped by everyone, ranging from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into Glencoe Precalculus Chapter 3, encompassing both the fundamentals and more intricate discussions.

1. The book is structured into several chapters, namely:

- Chapter 1: Introduction to Glencoe Precalculus Chapter 3
- Chapter 2: Essential Elements of Glencoe Precalculus Chapter 3
- Chapter 3: Glencoe Precalculus Chapter 3 in Everyday Life
- Chapter 4: Glencoe Precalculus Chapter 3 in Specific Contexts
- Chapter 5: Conclusion

2. In chapter 1, this book will provide an overview of Glencoe Precalculus Chapter 3. The first chapter will explore what Glencoe Precalculus Chapter 3 is, why Glencoe Precalculus Chapter 3 is vital, and how to effectively learn about Glencoe Precalculus Chapter 3.

3. In chapter 2, this book will delve into the foundational concepts of Glencoe Precalculus Chapter 3. The second chapter will elucidate the essential principles that must be understood to grasp Glencoe Precalculus Chapter 3 in its entirety.

4. In chapter 3, the author will examine the practical applications of Glencoe Precalculus Chapter 3 in daily life. This chapter will showcase real-world examples of how Glencoe Precalculus Chapter 3 can be effectively utilized in everyday scenarios.

5. In chapter 4, this book will scrutinize the relevance of Glencoe Precalculus Chapter 3 in specific contexts. This chapter will explore how Glencoe Precalculus Chapter 3 is applied in specialized fields, such as education, business, and technology.

6. In chapter 5, the author will draw a conclusion about Glencoe Precalculus Chapter 3. This chapter will summarize the key points that have been discussed throughout the book.

This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. This book is highly recommended for anyone seeking to gain a comprehensive understanding of Glencoe Precalculus Chapter 3.

Glencoe Precalculus Chapter 3 Introduction

In today's digital age, the availability of Glencoe Precalculus Chapter 3 books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Glencoe Precalculus Chapter 3 books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Glencoe Precalculus Chapter 3 books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to

purchase several of them for educational or professional purposes. By accessing Glencoe Precalculus Chapter 3 versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Glencoe Precalculus Chapter 3 books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Glencoe Precalculus Chapter 3 books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Glencoe Precalculus Chapter 3 books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Glencoe Precalculus Chapter 3 books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Glencoe Precalculus Chapter 3 books and manuals for download and embark on your journey of knowledge?

FAQs About Glencoe Precalculus Chapter 3 Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Glencoe Precalculus Chapter 3 is one of the best book in our library for free trial. We provide copy of Glencoe Precalculus Chapter 3 in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Glencoe Precalculus Chapter 3. Where to download Glencoe Precalculus Chapter 3 online for free? Are you looking for Glencoe Precalculus Chapter 3 PDF? This is definitely going to save you time and cash in something you should think about.
