Many of today's horror story fans, who appreciate horror through movies, television, video games, graphic novels, and other forms, probably don't realize that horror literature is not only one of the most popular types of literature but one of the oldest. People have always been mesmerized by stories that speak to their deepest fears. *Horror Literature through History* shows 21st-century horror fans the literary sources of their favorite entertainment and the rich intrinsic value of horror literature in its own right. Through profiles of major authors, critical analyses of important works, and overview essays focused on horror during particular periods, as well as on related issues such as religion, apocalypticism, social criticism, and gender, readers will discover the fascinating early roots and evolution of horror writings, as well as the reciprocal influence of horror literature and horror cinema. This unique two-volume reference set provides wide coverage that is current and compelling to modern readers who are, of course, also eager consumers of entertainment. In the first section, overview essays on horror during different historical periods situate works of horror literature within the social, cultural, historical, and intellectual currents of their respective eras, creating a seamless narrative of the genre's evolution from ancient times to the present. The second section demonstrates how otherwise unrelated works of horror have influenced each other, how horror subgenres have evolved, and how a broad range of topics within horror, such as ghosts, vampires, religion, and gender roles, have been handled across time. The set also provides alphabetically arranged reference entries on authors, works, and specialized topics that enable readers to zero in on information and concepts presented in the other sections. **The Etched City** KJ Bishop, K. Fairy Tales of London Hadas Elber-Aviram, 2021-01-28. Finalist for the 2022 Mythopoeic Scholarship Award for Myth and Fantasy Studies. From the time of Charles Dickens, the imaginative power of the city of London has frequently inspired writers to their most creative flights of fantasy. Charting a new history of London fantasy writing from the Victorian era to the 21st century, *Fairy Tales of London* explores a powerful tradition of urban fantasy distinct from the rural tales of writers such as J. R. R. Tolkien. Hadas Elber-Aviram traces this urban tradition from Dickens through the scientific romances of H. G. Wells, the anti-fantasies of George Orwell and Mervyn Peake, to contemporary science fiction and fantasy writers such as Michael Moorcock, Neil Gaiman, and China Miéville. **Booklife - Digital**

Strategies and Survival Tips for the 21st Century Writer Jeff VanderMeer, 2010-07-29. A wealth of practical advice to help writers enhance their career and engage with readers in the digital age. **The Portrait of Mrs. Charbuque** Jeffrey Ford, 2004. In New York, 1893, society portrait painter Piero Piambo is feeling jaded, endlessly subordinating his art to capture the likenesses of the nouveaux riches. Then comes a commission he cannot refuse: He is offered a fortune to depict the mysterious Mrs. Charbuque, but is not allowed to see her. *Narrative Space and Time* Elana Gomel, 2014-02-18. Space is a central topic in cultural and narrative theory today, although in most cases, theory assumes Newtonian absolute space. However, the idea of a universal homogeneous space is now obsolete. Black holes, multiple dimensions, quantum entanglement, and spatio-temporal distortions of relativity have passed into culture at large. This book examines whether narrative can be used to represent these impossible spaces. Impossible topologies abound in ancient mythologies, from the Australian Aborigines' dream time to the multiple-layer universe of the Sumerians. More recently, from Alice's adventures in Wonderland to contemporary science fiction's obsession with black holes and quantum paradoxes, counter-intuitive spaces are a prominent feature of modern and postmodern narrative. With the rise and popularization of science fiction, the inventiveness and variety of impossible narrative spaces explodes. The author analyses the narrative techniques used to represent such spaces alongside their cultural significance. Each chapter connects narrative deformation of space with historical problematic of time and demonstrates the cognitive and perceptual primacy of narrative in representing, imagining, and apprehending new forms of space and time. This book offers a comprehensive analysis of the connection between narratology, cultural theory, science fiction, and studies of place. *The Third Bear* Jeff VanderMeer, 2010-07-15.
