

AQA: 3D Design guide

2

How many different ways can you think of to make a gift, for the year 1000?

- **Design**
- **Construction**
- **Finishing**
- **Display**

Design - The process of creating a new product or service. It involves thinking about the purpose, function, and appearance of the product.

Construction - The process of making the product. It involves choosing materials, tools, and techniques to create the product.

Finishing - The process of making the product look good. It involves painting, staining, or polishing the product.

Display - The process of showing the product. It involves creating a presentation or display for the product.

Examples of products:

- A wooden box
- A wooden chair
- A wooden table
- A wooden bench
- A wooden cabinet
- A wooden bed
- A wooden desk
- A wooden shelf
- A wooden stool
- A wooden chair
- A wooden table

Key skills checklist

1. **Design** - The process of creating a new product or service. It involves thinking about the purpose, function, and appearance of the product.

2. **Construction** - The process of making the product. It involves choosing materials, tools, and techniques to create the product.

3. **Finishing** - The process of making the product look good. It involves painting, staining, or polishing the product.

4. **Display** - The process of showing the product. It involves creating a presentation or display for the product.

5. **Evaluation** - The process of assessing the product. It involves comparing the product to the design and construction requirements.

6. **Reflection** - The process of thinking about the product. It involves considering the strengths and weaknesses of the product.

7. **Improvement** - The process of making the product better. It involves identifying areas for improvement and making changes.

8. **Communication** - The process of sharing the product. It involves presenting the product to others and explaining the design and construction process.

9. **Collaboration** - The process of working with others. It involves sharing ideas and resources with others to create a product.

10. **Problem Solving** - The process of finding solutions to problems. It involves identifying the problem and finding a way to solve it.

11. **Decision Making** - The process of choosing between options. It involves weighing the pros and cons of each option and making a choice.

12. **Time Management** - The process of using time effectively. It involves planning and scheduling tasks to complete the product on time.

13. **Resource Management** - The process of using resources wisely. It involves identifying the resources needed and using them efficiently.

14. **Quality Control** - The process of ensuring the product is of high quality. It involves checking the product against the design and construction requirements.

15. **Health and Safety** - The process of keeping yourself and others safe. It involves following safety rules and using tools and equipment correctly.

4

Sources - make it mean something to you!

Research is a key part of the design process. It involves finding out what other people have done and what they think. It helps you to understand the context of your product and to make sure it is useful and interesting.

Examples of sources:

- Books
- Magazines
- Websites
- TV and Radio
- Museums
- Galleries
- Libraries
- Archives
- Interviews
- Surveys
- Focus Groups
- Questionnaires

Education under

Siege Mortimore, Peter, 2013-09-23 At a time when education is considered crucial to a country s economic success recent UK governments have insisted their reforms are the only way to make England s system world class Yet pupils are tested rather than educated teachers bullied rather than trusted and parents cast as winners or losers in a gamble for school places Education under siege considers the English education system as it is and as it might be In a highly accessible style Peter Mortimore an author with wide experience of the education sector both in the UK and abroad identifies the current system s strengths and weaknesses He concludes that England has some of the best teachers in the world but one of the most muddled systems Challenging the government s view that there is no alternative he proposes radical changes to help all schools become good schools They include a system of schools receiving a fair balance of pupils who learn easily and those who do not ensuring a more even spread of effective teachers as well as banning league tables outlawing selection opening up faith schools and integrating private schools into the state system In the final chapter he asks readers who share his concerns to demand that the politicians alter course The book will appeal to parents education students and teachers as well as everyone interested in the future education of our children
