At Risk for Neuropsychiatric Disorders: An Affective Neuroscience Approach to Understanding the Spectrum Raymond C. K. Chan, Morten L. Kringelbach, 2016-11-17 Neuropsychiatric disorders such as schizophrenia bipolar disorder depression anxiety disorders and other mental disorders constitute about 13% of the global burden of disease surpassing both cardiovascular disease and cancer The total cost worldwide of these diseases is estimated to exceed 100 million disability adjusted life years In order to begin to address this important problem the present Research Topic brings together a group of leading affective neuroscience researchers to present their state of

the art findings using an affective neuroscience approach to investigate the spectrum of neuropsychiatric disorders from patients to those at risk They focus on different aspects of the emotional and social cognitive disturbances which are core features of neuropsychiatric disorders While progress has been slow over last couple of decades we are finally beginning to glimpse some of the underlying neural mechanisms of the emotional and social cognitive disturbances in patients and those at risk With the technological advances in affective neuroscience and neuroimaging presented in this volume we hope that progress will be much swifter in the coming years such that we can provide better care for patients and those at risk

Female Life Careers: A Pattern Approach Sigrid B. Gustafson, David Magnusson, 2022-08-24 Originally published in 1991 this volume represents the first systematic attempt to apply a pattern approach to a comprehensive longitudinal investigation It focuses on individual differences in female career development from early adolescence through young adulthood Rather than constructing a general model of career development the authors use the interplay between theory and observation to build networks of patterns demonstrating the long term consequences for adult women s career involvement their educational levels their family commitments and their social networks Throughout their investigation the authors interpret individuals patterns as characterizing processes that underlie women s differential development They illustrate that a research strategy oriented toward pattern analysis and related methodology reveals information that is generally obscured in more traditional variable oriented designs They also argue that a pattern approach is particularly suited to the tenets of modern interactionism which provides the theoretical foundation of the study *Gender and Development : Concept, Approaches and Strategies* Mr. Rohit Manglik, 2024-04-05 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels **Multidisciplinary Approach in Research Area (Volume-5)** Chief Editor- Biplab Auddya, Editor- Rajni Baghel, Dr. Laxmi Dagar, Dr.M.Dhanalakshmi, Ms. P.
