Ways of Being Bound: Perspectives from post-Kantian Philosophy and Relational Sociology Patricio A. Fernández,Alejandro Néstor García Martínez,José M. Torralba,2022-11-01 This book addresses the topic of being bound from a philosophical and a sociological perspective It examines several ways in which we are bound We are bound to acknowledge the truth and to follow laws we are bound to others and to the world Who we are is partly defined by those bonds regardless of whether we live up to them or even of whether we acknowledge them Puzzling questions arise from the fact that we are bound such as How are those bonds binding Wherein lies their normative character A venerable philosophical tradition particularly since Kant has provided an account of normativity that crucially appeals to such notions as self legislation But can our normative bonds be properly understood in these essentially first personal terms Many argue that our social condition resists any account of those bonds that fails to acknowledge the perspectives of the second and the third person The first part of the

book explores these themes from a historical perspective in the tradition of transcendental philosophy Kant Fichte Hegel Husserl and Heidegger it examines the phenomenon of being bound i e why and how we are bound The second part of the book offers a sociological analysis of social bonds that is both historical and systematic Based on sociological approaches to solidarity and reflexivity it explores the way in which the phenomenon of being bound manifests through the concept of a social relation
