Women, Ritual, and Power Elizabeth Ursic, 2014-09-30 Reveals the triumphs and struggles of contemporary Christian congregations to express female imagery of God in worship Many Christians do not know the Bible contains female images of God because they have never heard nor seen them in church In *Women Ritual and Power* Elizabeth Ursic gives the reader insight into four Christian communities that worship God with female imagery both as a worship focus and a community identity These Methodist Presbyterian Lutheran and Catholic congregations operate within their established church denominations and are led by either ordained Protestant ministers or vowed Catholic sisters Because expressing God as She can expose strident claims for maintaining God as He this book shows not only how patriarchy continues to operate in churches today but also how it is being successfully challenged through liturgy *Women Ritual and Power* is an important contribution to the theological world Elizabeth Ursic sheds light on what has enabled churches to include female images for the divine and provides multiple narratives of the negative reactions to such images As she displays how gender is understood in Christian worship with evidence that some churches do include feminist imagery the continuing presence of patriarchy is also revealed The book is basically about the constructive function of the inclusion of feminine images for all One of the main reasons we need this book is that Ursic perceives there is a much wider larger group of Christians who would love to have more feminist images than is recognized in churches and church practices Mary McClintock Fulkerson author of *Changing the Subject Women's Discourses and Feminist Theology* *Why are Women more Religious than Men?* Marta Trzebiatowska, Steve Bruce, 2012-09-20 Women are more religious than men Despite being excluded from leadership positions in almost every culture and religious tradition women are more likely than men to pray to worship and to claim that their faith is important to them Women also dominate the world of New Age spirituality and are far more superstitious than men This book reviews the now sizeable body of social research to consider if the gender gap in religion is indeed universal Marta Trzebiatowska and Steve Bruce extensively critique competing explanations of the differences found They conclude that the gender gap is not the result of biology but is rather the consequence of important social differences overlapping and reinforcing each other Responsibility for managing birth child rearing and death for example and attitudes to the body illness and health each play a part In the West the gender gap is exaggerated because the social changes that undermined the plausibility of religion bore most heavily on men first Where the lives of men and women become more similar and where religious indifference grows the gender gap gradually disappears Written in an accessible style whilst drawing some robust conclusions the book's main purpose is to serve as a state of the art review for those interested in one of the largest differences between male and female behaviour **The Spiritual Practice of Remembering** Margaret

Bendroth,2013-11-11 We often dismiss history as dull or irrelevant but our modern disengagement from the past puts us fundamentally out of step with the long witness of the Christian tradition Yet says Margaret Bendroth the past tense is essential to our language of faith and without it our conversation is limited and thin This accessible beautifully written book presents a new argument for honoring the past The Christian tradition gives us the powerful image of a vast communion of saints all of God s people both living and dead in vital conversation with each other This kind of connection with our ancestors in the faith Bendroth maintains will not happen by wishing or by accident She argues that remembering must become a regular spiritual practice part of the rhythm of our daily lives as we recognize our world to be in many ways a gift from others who have gone before

Global Antisemitism: A Crisis of Modernity Charles Asher Small,2013-11-28 This volume contains a selection of essays based on papers presented at a conference organized at Yale University and hosted by the Yale Initiative for the Interdisciplinary Study of Antisemitism YIISA and the International Association for the Study of Antisemitism IASA entitled Global Antisemitism A Crisis of Modernity The essays are written by scholars from a wide array of disciplines intellectual backgrounds and perspectives and address

the conference's two inter-related areas of focus: global antisemitism and the crisis of modernity currently affecting the core elements of Western society and civilization. Rather than treating antisemitism merely as an historical phenomenon, the authors place it squarely in the contemporary context. As a result, this volume also provides important insights into the ideologies, processes, and developments that give rise to prejudice in the contemporary global context. This thought-provoking collection will be of interest to students and scholars of antisemitism and discrimination as well as to scholars and readers from other fields.

What Animals Teach Us about Families Beth A. Berkowitz, 2026-01-06 Reading the Bible and rabbinic literature to reimagine the bonds between animals. Moving beyond debates about the ethics of animal consumption to focus on animals' intimate lives, Beth A. Berkowitz examines the contribution of religious traditions and sacred texts to contemporary conversations about animals. Reading the four animal family laws of the Bible alongside their rabbinic interpretations from ancient times to today, she examines the bonds that animals form with each other and reimagines family to include new forms of life and alternative modes of kinship. Humanitarian politics and biblical law tend to take for granted that human interests supersede animal interests and that our moral obligation extends only to avoiding unnecessary suffering, but necessity is determined by humans. *What Animals Teach Us About Families* looks at animal emotions, animal agency, family diversity, and human response to reconsider the obligations and opportunities the animal family presents.

Religion and Democracy in the United States Alan Wolfe, Ira Katznelson, 2010-08-30 The United States remains a deeply religious country, and religion plays an inextricably critical role in American politics. Controversy over issues such as abortion is fueled by opposition in the Catholic Church and among conservative Protestants; candidates for the presidency are questioned about their religious beliefs, and the separation of church and state remains hotly contested. While the examination of religion's influence in politics has long been neglected, in the last decade the subject has finally garnered the attention it deserves. In *Religion and Democracy in the United States*, prominent scholars consider the ways Americans understand the relationship between their religious beliefs and the political arena. This collection, a work of the Task Force on Religion and American Democracy of the American Political Science Association, thoughtfully explores the effects of religion on democracy and contemporary partisan politics. Topics include how religious diversity affects American democracy, how religion is implicated in America's partisan battles, and how religion affects ideas about race, ethnicity, and gender. Surveying what we currently know about religion and American politics, the essays introduce and delve into the range of current issues for both specialists and nonspecialists. In addition to the editors, the contributors are Allison Calhoun Brown, Rosa DeLauro, Bette Novit Evans, James Gibson, John Green, Frederick Harris, Amaney Jamal, Geoffrey Layman, David Leal, David Leeger, Nancy Rosenblum, Kenneth Wald, and Clyde Wilcox.

The Deepening Darkness Carol Gilligan, David A. J. Richards, 2008-11-10 Why is America again unjustly at war? Why is its politics distorted by wedge issues like abortion and gay marriage? Why is anti-Semitism still so powerfully resurgent? Such contradictions within democracies arise from a patriarchal psychology still alive

in our personal and political lives in tension with the equal voice that is the basis of democracy This book joins a psychological approach with a political theoretical one that traces both this psychology based on loss in intimate life and resistance to it based on the love of equals to the Roman Republic and Empire and to three Latin masterpieces Virgil's Aeneid Apuleius's The Golden Ass and Augustine's Confessions In addition this book explains many other aspects of our present situation including why movements of ethical resistance are often accompanied by a freeing of sexuality and why we are witnessing an aggressive fundamentalism at home and abroad
