Guide to marking the NEA component – Written Analysis and Evaluation

Component: Fitness

These examples will help you give your students the marks they deserve. Analysis examples are shown first, evaluation examples are second.

Analysis 15 marks

Level 5 (13-15):

The student has an excellent knowledge and appreciation of the demands of their chosen activity. He/she is fully conversant with the specific movements and terminology used when referring to the activity. The student fully appreciates their own strengths and weaknesses. They are able to provide a clear, detailed and in- depth self-analysis for both strengths and weaknesses. All of the strengths and weaknesses are fully justified with detailed reference to appropriate competitive/performance situations. The student's chosen fitness strengths and weaknesses are fully relevant to the activity (and positional role) and he/she is able to provide strong justification of how they have impacted upon their performance(s).

Analysis 10 marks

Level 4 (10-12 marks)

The student has good knowledge and appreciation of the demands of their chosen activity. He/she is fully conversant with most, though not all, of the specific movements and terminology used when referring to the activity. The student appreciates their own strengths and weaknesses. They are able to provide detailed in-depth self- analysis for most of their strengths and weaknesses, although some are clearer than others. All of the strengths and weaknesses are justified with reference to appropriate competitive/performance situations. Most are detailed. The student's chosen fitness strength and weakness are fully relevant to the activity and he/she is able to justify how they have impacted upon their performance(s).

Analysis 4 marks

Level 2 (4-6 marks)

The student shows some knowledge and appreciation of the demands of their chosen activity but frequently lacks depth in their explanation. He/she is conversant with some of the specific movements and terminology used when referring to the activity, but they often lack precision and clarity and have confused some terms. The student appreciates some of their own strengths and weaknesses. They have provided a self-analysis for most of their strengths and weaknesses, but there are obvious inconsistencies in the clarity of their responses. Only some of the strengths and weaknesses are justified (generally not with detail) with some reference to appropriate competitive/performance situations.
