The Gendered Unconscious Louise Gyler, 2010-04-23 Feminist interventions in psychoanalysis have often attempted either to subvert or re frame the masculinist and phallogocentric biases of Freud's psychoanalysis This book investigates the nature of these interventions by comparing the status and treatment of women in two different psychoanalytic models the Kleinian and the feminist models It argues that in fact these interventions have historically tended to reinforce such biases by collapsing the distinction between the gendered minds of individuals and theories of gender This investigation is framed by two steps First in assessing the position of women and the feminine in psychoanalysis The Gendered Unconscious explores not only the ways they are represented in theory but also how these representations function in practice Secondly this book uses a framework of a comparative dialogue to highlight the assumptions and values that underpin the theory and clinical practice in the two psychoanalytic models This comparative critique concludes with the counter intuitive claim that contemporary Kleinian theory may in practice hold more radical possibilities for the interests of women than the practices derived from contemporary psychoanalytic gender theory This book is of significant interest to those studying the psychology of women psychoanalytic studies health psychology sociology gender studies and cultural studies It will also be of interest to clinicians and candidates of professional psychotherapy and psychoanalytic training programmes

Marxism and Human Nature Sean Sayers, **Ordinary People and Extra-ordinary Protections** Judith L. Mitrani, 2009-03-04 Many people come to analysis appearing quite ordinary on the surface However once below that surface we often come into contact with something quite unexpected extra ordinary protections created to keep at bay any awareness of deeply traumatic happenings occurring at some point in life Judith Mitrani investigates the development and the function of these protections allowing the reader to witness the evolution of the process of transformation wherein defensiveness steadily mutates into communication She lucidly and artfully weaves

detailed clinical with a variety of analytic concepts and her original notions including unmentalized experience and its expression in enactments adhesive pseudo object relations and the way in which this contracts and compares with normal and narcissistic object relations provide valuable tools for understanding the infantile transference countertransference and for the refinement of our technique with primitive mental states Ordinary People and Extra Ordinary Protections will prove stimulating and accessible in its style and substance to a broad analytic readership from the serious student of

psychoanalysis to the most seasoned professional **Echoes of the Tambaran** Paul Roscoe, David Lipset, 2011-10-01 In the Sepik Basin of Papua New Guinea ritual culture was dominated by the Tambaran a male tutelary spirit that acted as a social and intellectual guardian or patron to those under its aegis as they made their way through life To Melanesian scholarship the cultural and psychological anthropologist Donald F Tuzin was something of a Tambaran a figure whose brilliant and fine grained ethnographic project in the Arapesh village of Ilahita was immensely influential within and beyond New Guinea anthropology Tuzin died in 2007 at the age of 61 In his memory the editors of this collection commissioned a set of original and thought provoking essays from eminent and accomplished anthropologists who knew and were influenced by his work They are echoes of the Tambaran The anthology begins with a biographical sketch of Tuzin s life and scholarship It is divided into four sections each of which focuses loosely around one of his preoccupations The first concerns warfare history the male cult and changing masculinity all in Melanesia The second addresses the relationship between actor and structure Here the ethnographic focus momentarily shifts to the Caribbean before turning back to Papua new Guinea in essays that examine uncanny phenomena narratives about childhood and messianic promises The third part goes on to offer comparative and psychoanalytic perspectives on the subject in Fiji Bali the Amazon as well as Melanesia Appropriately the last section concludes with essays on Tuzin s fieldwork style and his distinctive authorial voice **Immaterial Facts** Robert

Caper, 2014-03-18 First published in 1999 Shows how Melanie Klein s studies of sexuality aggression unconscious phantasy and identification in children extended and corrected Freud s theories of the development of the superego and early stages of the Oedipus complex *Real People, Real Problems, Real Solutions* Robert Waska, 2013-02-01 Real People Real Problems Real Solutions offers a clear introduction to psychoanalytic practice from a Kleinian perspective and shows how the modern Kleinian works with the most taxing and least conforming of their patients Illustrated by extensive case material this book reviews Freud s original theoretical concepts and examines Klein s contributions to the field of psychoanalysis clarifying and comparing the two approaches in the clinical setting identifies and explores who makes up the psychoanalyst s most challenging case load and demonstrates how the Kleinian psychoanalytic approach is helpful to these individuals discusses the current state of traditional methods of training at psychoanalytic institutes which are shown to be in need of renewal and critical restructuring Real People Real Problems Real Solutions shows how the average psychoanalyst and psychotherapist face many difficult patients in a typical days work Together with its questioning of what really constitutes psychoanalytic

therapy this is a refreshing read for all practising and training psychoanalysts and psychotherapists *Race, Colour and the Processes of Racialization* Farhad Dalal, 2013-05-13 Is racial conflict determined by biology or society So many conflicts appear to be caused by racial and ethnic differences for example the cities of Britain and America are regularly affected by race riots It is argued by socio biologists and some schools of psychoanalysis that our instincts are programmed to hate those different to us by evolutionary and developmental mechanisms This book argues against this line proposing an alternative drawing on insights from diverse disciplines including anthropology social psychology and linguistics to give power relations a critical explanatory role in the generation of hatreds Farhad Dalal argues that people differentiate between races in order to make a distinction between the haves and must not haves and that this process is cognitive emotional and political rather than biological Examining the subject over the past thousand years *Race Colour and the Processes of Racialisation* covers psychoanalytic and other theories of racism a new theorisation of racism based on group analytic theory a general theory of difference based on the works of Fanon Elias Matte Blanco and Foulkes application of this theory to race and racism Farhad Dalal concludes that the structures of society are reflected in the structures of the psyche and both of these are colour coded This book will be invaluable to students academics and practitioners in the areas of psychoanalysis group analysis

psychotherapy and counselling *Transpersonal Psychology in Psychoanalytic Perspective* Michael Washburn, 1994-07-01 In this book Michael Washburn provides a psychoanalytic foundation for transpersonal psychology Using psychoanalytic theory Washburn explains how ego development both prepares for and creates obstacles to ego transcendence Spiritual development he proposes can be properly understood only in terms of the ego development that precedes it For example many difficulties encountered in spiritual development can be traced to repressive underpinnings of ego development and significant gender differences in spiritual development can be traced to corresponding gender differences that emerge during ego development Washburn draws on a wide range of psychoanalytic perspectives in discussing ego development and uses both Eastern and Western sources in discussing spiritual development In rethinking transpersonal psychology in psychoanalytic terms he explains how essential elements of Jungian thought can be grounded in psychoanalytic theory

The Collapse of the Self and Its Therapeutic Restoration Rochelle G. K. Kainer, 2013-06-17 *The Collapse of the Self and Its Therapeutic Restoration* is a rich and clinically detailed account of the therapeutic restoration of the self and speaks to the healing process for analysts themselves that follows from Rochelle Kainer's sensitive integration of heretofore dissociated realms of psychoanalytic theory In describing how the reworking of pathological internal object relationships occurs in conjunction with the transformation of selfobject failures Kainer brings new insight to bear on the healing of the self at the same time as she contributes to healing the historic split in psychoanalysis between Kleinian theory and self psychology Extensive case illustrations refracted through the lens of her uniquely integrative perspective bring refreshing clarity to elusive theoretical concepts Of special note is Kainer's distinction between normal and pathological identifications

Equally valuable is her introduction of the term imaginative empathy to characterize the kind of attunement that is integral to analytic healing her nuanced description of the relation between imaginative empathy and projective identification bridges the worlds of Kleinian theory and self psychology in an original and compelling way She ends by spelling out how her theoretical viewpoint leads to a more comprehensive understanding of various clinical phenomena The Collapse of the Self and Its Therapeutic Restoration is a sophisticated yet accessible work gracefully written that elaborates a relational theory of thinking of creativity of identification and of the formation and healing of psychic structure Kainer s ability to bring the often dissonant voices of different psychoanalytic schools into theoretical harmony as she develops her viewpoint conveys both the breadth of intellectual engagement with colleagues and the depth of clinical engagement with patients that inform her project from beginning to end

Trauma and Forgiveness C. Fred Alford, 2014-01-09 Contrary to the view of trauma popularized by literary theorists Trauma and Forgiveness argues that the traumatized are capable of representing their

experience and that we should therefore listen more and theorize less Using stories and case studies including testimonies from Holocaust survivors as well as the victims of ordinary trauma C Fred Alford shows that while the traumatized are generally capable of representing their experience this does little to heal them He draws on the British Object Relations tradition in psychoanalysis to argue that forgiveness which might be expected to help heal the traumatized is generally an attempt to avoid the hard work of mourning losses that can never be made whole Forgiveness is better seen as a virtue in the classical sense a recognition of human vulnerability The book concludes with an extended case study of the essayist Jean Amry and his refusal to forgive
