Mike Connolly and the Manly Art of Hollywood Gossip Val Holley, 2010-06-28 In 1954 Mike Connolly the gay gossip columnist for the Hollywood Reporter from 1951 to 1966 was described by Newsweek as probably the most influential columnist inside the movie colony the one writer who gets the pick of trade items the industry rumors the policy and casting switches He was indeed one of the most talented and influential members of the Hollywood press of his time and his column for those who could read between the lines was a daily chronicle of gay goings on Fifty years later his cumulative output is a virtually untapped lode of gay Hollywood history Mike Connolly's life and work are the focus of this book It considers his formative years his pre World War II life at the University of Illinois and in Chicago and the ways in which the homosexual community in Hollywood lived lives both secretive and open in the forties fifties and sixties It also examines the

literary merit power and newsworthiness of Connolly's Rambling Reporter column in the Hollywood Reporter and its significance as a chronicle of gay Hollywood life the previously unexplored role of Connolly's column in the Hollywood blacklist and how his anti Communist crusade was rooted in his earlier campaign to close down the brothels in his college town and how his life informed his column and his column shaped his life

Monty Python's Flying Circus Marcia Landy, 2005-03-29 A comprehensive study examining the history content and context of the legendary comedy series Monty Python's Flying Circus One of the most innovative comedic programs to air on television Monty Python's Flying Circus was a mix of the carnivalesque and the critical The show has become famous for eschewing many of the conventions of situation comedy the fully formed and coherent script narrative closure predictable characters and the decorum associated with presentation Its curious transatlantic popularity defied the assumption that comedy is regional and exclusive and the show's cult status still lives on in the United States and United Kingdom through reruns videos DVDs and continual reappearances by the show's now iconic stars Most written accounts of Monty Python's Flying Circus focus solely on members of the Pythons histories of the sketches or the development of other Monty Python projects leaving a dearth of scholarly and contextual analysis on the television show itself Marcia Landy's book is one of the rare studies available examining the Flying Circus within the context of its time analyzing the show's influence on 1960s and 1970s British television as well as British cultural influence on the show's legendary material Landy explores not only why the series complex form of comedy was important but also why it was so well received citing the Pythons amalgam of comedic material the unruly treatment of sexuality the mockery of religion and class and the critique of the medium of television The Flying Circus parodied both the lowbrow and the highbrow throwing many previously untouchable topics into the ring and here Landy deconstructs the impact of the show's risks and reception As informative as it is engaging and entertaining this book will appeal to film and media scholars popular culture enthusiasts and Monty Python fans alike

What Really Happened in the Garden of Eden? Ziony Zevit, 2013-11-26 A provocative new interpretation of the Adam and Eve story from an expert in Biblical literature The Garden of Eden story one of the most famous narratives in Western history is typically read as an ancient account of original sin and humanity's fall from divine grace In this highly innovative study Ziony Zevit argues that this is not how ancient Israelites understood the early biblical text Drawing on such diverse disciplines as biblical studies geography archaeology mythology anthropology biology poetics law linguistics and literary theory he clarifies the worldview of the ancient Israelite readers during the First Temple period and elucidates what the story likely meant in its original context Most provocatively he contends that our ideas about original sin are based upon misconceptions originating in the Second Temple period under the influence of Hellenism He shows how for ancient Israelites the story was really about how humans achieved ethical discernment He argues further that Adam was not made from dust and that Eve was not made from Adam's rib His study unsettles much of what has been taken for granted about the story for more than two millennia and has far

reaching implications for both literary and theological interpreters Classical Hebrew in the hands of Ziony Zevit is like a cello in the hands of a master cellist He knows all the hidden subtleties of the instrument and he makes you hear them in this rendition of the profoundly simple story of Adam Eve the Serpent and their Creator in the Garden of Eden Zevit brings a great deal of other biblical learning to bear in a surprisingly light hearted book Jack Miles author of God A Biography

Complete Critical Assembly David Langford, 2002-10-01 This new collection of essays commissioned from a range of

scholars across the world takes as its theme the reception of Rome's greatest poet in a time of profound cultural change. Amid the rise of Christianity the changing status of the city of Rome and the emergence of new governing classes Vergil remained a bedrock of Roman education and identity. This volume considers the different ways in which Vergil was read, understood and appropriated by poets, commentators, Church fathers, orators and historians. The introduction outlines the cultural and historical contexts. Twelve chapters dedicated to individual writers or genres and the contributors make use of a wide range of approaches from contemporary reception theory. An epilogue concludes the volume. *In Memory Data Management and Analysis* Arun Jagatheesan, Justin Levandoski, Thomas Neumann, Andrew Pavlo, 2015-01-13 This book constitutes the thoroughly refereed post conference proceedings of the First and Second International Workshops on In Memory Data Management and Analysis held in Riva del Garda Italy August 2013 and Hangzhou China in September 2014. Multicultural Comics Frederick Luis Aldama, 2010-09-15 Multicultural Comics From Zap to Blue Beetle is the first comprehensive look at comic books by and about race and ethnicity. The thirteen essays tease out for the general reader the nuances of how such multicultural comics skillfully combine visual and verbal elements to tell richly compelling stories that gravitate around issues of race, ethnicity, gender and sexuality within and outside the U.S. comic book industry. Among the explorations of mainstream and independent comic books are discussions of the work of Adrian Tomine, Grant Morrison and Jessica Abel as well as Marv Wolfman and Gene Colan's The Tomb of Dracula. Native American Anishinaabe related comics, mixed media forms such as Kerry James Marshall's comic book community performance DJ Spooky's visual remix of classic film, the role of comics in India and race in the early Underground Comix movement. The collection includes a one stop shop for multicultural comic book resources such as archives, websites and scholarly books. Each of the essays shows in a systematic, clear and precise way how multicultural comic books work in and of themselves and also how they are interconnected with a worldwide tradition of comic book storytelling.

Class, Self, Culture Beverley Skeggs, 2013-11-05 Class Self Culture puts class back on the map in a novel way by taking a new look at how class is made and given value through culture. It shows how different classes become attributed with value, enabling culture to be deployed as a resource and as a form of property which has both use value to the person and exchange value in systems of symbolic and economic exchange. The book shows how class has not disappeared but is known and spoken in a myriad of different ways, always working through other categorisations of nation.

race gender and sexuality and across different sites through popular culture political rhetoric and academic theory In particular attention is given to how new forms of personhood are being generated through mechanisms of giving value to culture and how what we come to know and assume to be a self is always a classed formation Analysing four processes of inscription institutionalisation perspective taking and exchange relationships it challenges recent debates on reflexivity risk rational action theory individualisation and mobility by showing how these are all reliant on fixing some people in place so that others can move

Fair Use and Free Inquiry John Shelton Lawrence,Bernard Timberg,1989 This volume provides thorough coverage of some troublesome and seldom clarified issues that affect scholars who deal with nonprint media When is it legitimate in teaching or publishing to quote a visual image from television film or printed graphics To quote the lines from a musical lyric Why has the long tradition of fair use for printed material which sanctions quoting without permission been so slow in its extension to other media How can scholars and publishers prudently behave in an area where media corporations are uncooperative or belligerent in dealing with requests to document arguments through the inclusion of copyrighted materials This book offers a forum where scholars lawyers archivists and federal administrators of copyright law express informed viewpoints about these issues
