

**You attach implements
in seconds . . .
just back, click, and go!**

All you do is back up to the Fast-Hitch implement you need . . . the implement arm enters the Fast-Hitch socket . . . the automatic latch clicks into place. The implement is now hitched and ready to go to work. It's even easier than lifting a hand tool off the shed wall. This speed and convenience help you make best use of your time—and the Cub, too.

You can Fast-Hitch almost any type of field implement—plow, middlebuster, harrow, or tool bar. Every Fast-Hitch implement is raised and lowered hydraulically with Touch-Control. All necessary attaching and major adjusting parts are included in Fast-Hitch, eliminating them from the individual implements. You buy them only once, when you purchase Fast-Hitch.

CLICK AND GO FARMING is made possible by the simple, rugged latch in the socket. It drops into place instantly when the Fast-Hitch coupling beam enters the socket. This positively locks the beam in position. A tug on the latch releases the beam.
