Chadwick,Doris Schroeder,2002 **Ethics and the Autonomy of Philosophy** Bernard James Walker,2014-11-06 In *Ethics and the Autonomy of Philosophy* Bernard Walker sets out with two objectives First Walker argues that ethics is autonomous as a discipline Oftentimes ethics books from a Christian perspective lean toward grounding ethics in theology or in biblical proof texting Walker departs from this tradition Ethics grounded in theology entails a limited scope for those doing ethics in that the Christian God must be assumed for both Christian and non Christian when at the table of ethical dialogue For the non Christian this loads the dice and shuts down ethical consensus and dialogue if not ethical truth With that said this book does not depart from Christian ethical views on such issues as the sanctity of life antiracism the death penalty the objectivity of ethics and the importance of integrating faith into ethics however Walker does so from a common denominator of philosophy rather than theology Second Walker ventures into the streets and engages the man woman on the streets approach to ethics and ethical decision making He points out the shortcomings of the ubiquitous views of the man woman on the streets viz cultural relativism skepticism and the attitude that ethics is merely a matter of personal choice **Land, Value, Community** Wayne Ouderkirk,Jim Hill,2012-02-01 *Land Value Community* provides an in depth critical study of the theories of J Baird Callicott one of the world s foremost environmental philosophers An international group of scholars representing philosophy ecology ecofeminism Native American studies political science and religion studies critically assesses Callicott s contributions to environmental ethics and philosophy and

Richard H Popkin Han van Ruler Theo Verbeek Fred Wilson and Alison Wylie African Personhood and Applied Ethics Motsamai Molefe, 2020-02-03 Recently the salient idea of personhood in the tradition of African philosophy has been objected to on various grounds Two such objections stand out the book deals with a lot more The first criticism is that the idea of personhood is patriarchal insofar as it elevates the status of men and marginalises women in society The second criticism observes that the idea of personhood is characterised by speciesism The essence of these concerns is that personhood fails to embody a robust moral political view African Personhood and Applied Ethics offers a philosophical explication of the ethics of personhood to give reasons why we should take it seriously as an African moral perspective that can contribute to global moral political issues The book points to the two facets that constitute the ethics of personhood an account of 1 moral perfection and 2 dignity It then draws on the under explored view of dignity qua the capacity for sympathy inherent in the moral idea of personhood to offer a unified account of selected themes in applied ethics specifically women animal and development The Oxford Handbook of Psychotherapy Ethics Manuel Trachsel, Nikola Biller-Andorno, Jens Gaab, Şerife Tekin, John Z.
