Approaching The Quran The Early Revelations:

Approaching the Qur'an Michael Sells, 2023-10-05 Approaching the Qur'an presents brilliant translations of the short hymnic chapters or Suras associated with the first revelations to the Prophet Muhammad. These early Suras contain some of the most powerful prophetic and revelatory passages in religious history, offering the vision of a meaningful and just life that anchors the faith of one fifth of the world's inhabitants. In addition to these translations, Michael Sells provides an introduction to the Qur'an, commentaries on the Suras, a glossary of technical terms, and discussions of the auditory nature and gender aspects of the Arabic text. An ideal resource for students and interested lay readers, this third edition also includes a new full Sura and associated commentary, a new preface, and a thoroughly updated bibliography. *Approaching the Qur'an* Michael Anthony Sells, 1999 Approaching the Qur'an captures the complexity, power, and poetry of the early suras or chapters of the Qur'an, the sacred scripture of Islam. Michael Sells presents brilliant translations of the short hymnic suras associated with the first revelations to the Prophet Muhammad. In the second edition, Sells offers a new translation and commentary on the Sura of the Compassionate al-Rahmān, which holds a special place within Islamic devotion and literature. Additionally, a new preface addresses the ongoing controversy over teaching about Islam and the Qur'an in American universities. Publisher: Overcoming Orientalism Tamara Sonn, 2021 Since John Esposito published his first book nearly 40 years ago, he has been guiding readers beyond misleading and dangerous stereotypes of Muslims. The essays in this volume highlight the contributions of scholars from a variety of disciplines who, like Esposito, present Islam as a multifaceted and dynamic tradition embraced by communities in globally interconnected but substantially diverse contexts over the centuries. *Marked Word Order in the Qurān and its English Translations* Dr. Ahmed Saleh Elimam, 2013-10-28 The literature on Balaghah, the art of Arabic eloquence, and commentaries on the Qur'an stress that the style of the Qur'an is beautiful, eloquent, and inimitable. This literature identifies word order as one of the most distinctive aspects of Qur'anic style. One of the main reasons for this is that, compared to English, Arabic has fewer restrictions on word order thanks to its elaborate verb inflection system and case marking. This flexibility allows for the foregrounding of some elements within the sentence, resulting in a marked or non-canonical word order and fulfilling certain discursive functions, including specification, restriction, emphasis, amplification, glorification, and denial. Marked word order is used to highlight or downplay certain elements in speech or writing. It constitutes one way of delivering meanings to the addressee as these meanings are ordered in the mind of the speaker in terms of their importance, making the style a precise reflection of the speaker's mind and feelings. This book is a descriptive study which attempts to examine how translations of the Qur'an have handled *yahs* (verses) of the Qur'an that feature lexical foregrounding, focusing on ten published translations into English carried out by translators from different ideological and linguistic backgrounds. It offers a systematic comparison of the ways in which the selected translators deal with the linguistic feature of word order variation and examines issues relating to the translator's style.

Specifically the book identifies and examines the following instances of marked word order discussed by commentators on the Qur'an and the function served by each case of lexical foregrounding secondly the options and or patterns employed by translators to render the different functions of marked word order thirdly the recurrent options and or patterns for rendering different types of word order variation Finally the book explores the factors which may have influenced the choice of particular strategies by different translators including the translators motivations and the various historical contexts in which the translations were made
