**English Language Arts the Kindergarten Way** Molly Cochell, Laura Fullmer, 2017-05-02 Kindergarten teachers know that a child's first taste of school should be engaging, active, social, and fun. Yet teachers are presented with a challenge: How do they nurture the holistic, exploratory nature of early childhood while teaching with the intentionality and rigor required to meet learning goals? Let this resource pave the way. *English Language Arts the Kindergarten Way* contains methods for teaching foundational reading skills, building vocabulary, inspiring and developing writing, and helping children respond to literature and informational text while inherently fulfilling the needs of the whole child. An entire year of activities is included. And all activities are classroom tested and naturally infuse visual art, music, drama, poetry, movement, and puppetry so that kindergartners meet learning goals their way.

**Arts and Creativity in East and Southeast Asian Preschools** Alfredo Bautista, 2025-08-20 This book is based on the theoretical notion of glocalization, which is understood as the hybridization of global and local perspectives. It brings together contributions from Asian preschool stakeholders specializing in arts and creativity who present glocal pedagogical practices in the art forms of visual arts, music, drama, dance, and in multi-modal activities that integrate multiple art forms. The chapters provide Asian preschool teachers with insights on how to design, implement, and/or evaluate high-quality classroom activities. These insights help maximize children's creativity while being realistic and suitable to local preschools as well as aligned with the expectations, values, and norms of traditional Asian societies. The chapters are primarily oriented to practice and also include conceptual and/or theoretical elaborations intended to ground and justify teachers' pedagogical choices. The various chapters also enhance teachers' pedagogical repertoires to benefit children's creative learning experiences in the arts. This edited book serves as a valuable guide for preschool stakeholders in Asia, including teachers and childcare practitioners both pre- and in-service, school leaders, head teachers, area coordinators, vice principals, principals, teacher educators, curriculum designers, consultants, professional development providers, and educational researchers in arts and creativity.
