While the ACFT is backed by thorough scientific research and has undergone several revisions, there are still details that have not been finalized. The ACFT requires a testing site with a two-mile run course and a flat field space approximately 40 x 40 meters. The field space should be grass, well-maintained, and cut, or artificial turf that is generally flat and free of debris. While maintaining testing standards and requirements, commanders will make adjustments.

initial goal of countering international terrorism into the realms of counter insurgency counter narcotics protection of human rights and state building The Committee recommends that the lead international role on counter narcotics should be transferred away from the UK The Committee recognises that the security situation in Afghanistan will remain precarious for some time to come but there can be no question of the international community abandoning Afghanistan The issue at stake must be how best the UK and its allies can allocate responsibilities and share burdens so as to ensure that the country does not once again fall into the hands of those who seek to threaten the security of the UK and the West The Committee says that a negotiated Afghan led political settlement with broad popular support represents the only realistic option for long term security and stability in Afghanistan There can be no serious prospect of meaningful discussions until Coalition Forces and the Afghan national security forces gain and retain the upper hand on security across the country including in Helmand and are then able to negotiate from a position of strength The international effort by the UN EU and individual countries in Afghanistan since 2001 has delivered much less than it promised and its impact has been significantly diluted by the absence of a unified vision and strategy grounded in the realities of Afghanistan s history culture and politics
