America League Nations Addresses Woodrow:

Isolationism Charles Kupchan, 2020 This is the first book to examine the full arc of American isolationism from the founding era through the Trump presidency Charles Kupchan tells the fascinating story of why isolationism dominated US statecraft for so long uncovers isolationism's enduring connection to American exceptionalism and explains why an aversion to foreign entanglement is making a comeback This fresh account of American history sheds revealing light on not only the nation's past but also where US grand strategy is headed and how the nation can find the middle ground between isolationism and strategic overreach Catalogue of the Public Documents of the ... Congress and of All Departments of the Government of the United States for the Period from ... to ... , 1917

Catalogue of the Public Documents of the ... Congress and of All Departments of the Government of the United States United States. Superintendent of Documents, 1963 *Catalogue of the Public Documents of the [the Fifty-third] Congress [to the 76th Congress] and of All Departments of the Government of the United States* United States. Superintendent of Documents, 1896

Congressional Record United States. Congress, 1924 **Anglo-American Relations in the 1920s** B. J. C. McKercher, 1991-06-18 This collection examines the complex struggle for supremacy conducted between the United States and Britain in the decade following World War I The aim is to throw light on a crucial period in the history of British and American foreign policy and on 20th century international affairs *Revolutionary Movements in Latin America* Cynthia McClintock, 1998 Why were El Salvador's FMLN and Peru's Shining Path able to mount such serious revolutionary challenges in the 1980s and early 1990s And why were they able to do so despite the fact that their countries elected governments were widely considered democratic These two guerrilla groups were very different but both came close to success To explain why the author examines the complex interplay among political and economic factors the nature of the revolutionary organization and international actors McClintock emphasizes that the end of the Cold War does not mean the end of revolutionary groups and that the United States can play an important role in determining the outcome of future confrontations The book concludes with practical policy options for the U S government as it looks to foster peace and democracy in the western hemisphere

The Monroe Doctrine and United States National Security in the Early Twentieth Century Alex Bryne, 2020-05-19 This book demonstrates that during the early twentieth century the Monroe Doctrine served the role of a national security framework that justified new directions in United States foreign relations when the nation emerged as one of the world's leading imperial powers As the United States overseas empire expanded in the wake of the Spanish American War the nation's decision makers engaged in a protracted debate over the meaning and application of the doctrine aligning it to two antithetical core values simultaneously regional hegemony in the Western Hemisphere on the one hand and Pan Americanism on the other The doctrine's fractured meaning reflected the divisions that existed among domestic perceptions of the nation's new role on the world stage and directed the nation's approach to key historical events such as the acquisition of the

Philippines the Mexican Revolution the construction of the Panama Canal the First World War and the debate over the League of Nations

A Humorous Account of America's Past: 1898 to 1945 Richard T. Stanley, 2010-09-02 In 1898 the United States became an empire by accident due to our splendid little war against Spain At the beginning of the 20th Century the most famous men in America were not athletes or politicians they were inventors and businessmen like Bell Edison Morgan and Rockefeller Teddy Roosevelt built the Panama Canal launched the Great White Fleet and became a Bull Moose Woodrow Wilson was reelected in 1916 because He Kept Us Out of War World War I began as a family feud between three European cousins named Georgie Willie and Nicky The War to end all wars set the stage for World War II Americas first female President was Edith Wilson and our first Black President was possibly Warren Harding Aside from Babe Ruth Charles Lindbergh Al Capone Sigmund Freud Emily Post or Sinclair Lewis novels and Hollywoods movies Calvin Coolidge personified the Roaring Twenties Following the Stock Market Crash FDRs New Deal and his fireside chats helped us survive Hoovervilles but it took World War II to end the Great Depression What happened between Pearl Harbor and the Atomic Bomb Read my book *American Political Thought* Keith E. Whittington, 2016 In *American Political Thought Readings and Materials* Keith E Whittington s historical organization of readings and materials offers a fresh alternative to traditional anthologies contextualizing key pieces in new and unique ways

Radical Betrayal Anders W. Edwardsson, 2023-12-05 In *Radical Betrayal* Anders W Edwardsson delivers a provocative examination of how both liberal and neoconservative forces have undermined American exceptionalism the belief in America s unique character and role in world history Tracing the evolution of American national identity from its founding through the present day Edwardsson argues that the post World War II era has witnessed a gradual erosion of the principles that once defined the American experiment From Woodrow Wilson s progressive idealism to Franklin Roosevelt s New Deal from Lyndon Johnson s Great Society to George W Bush s democratization agenda Edwardsson methodically chronicles how political leaders have dramatically expanded federal power and global interventionism in ways that contradict America s founding vision The author demonstrates how both parties have contributed to what he sees as America s decline liberals through welfare state expansion and neoconservatives through misguided foreign wars Most provocatively Edwardsson argues that Donald Trump s presidency represented a potential return to traditional American principles before being undermined by establishment forces He warns that continued abandonment of American exceptionalism threatens not only the nation s prosperity but its very survival as a unified republic Whether you agree with his analysis or not Edwardsson s sweeping historical narrative challenges readers to reconsider the forces shaping American politics and identity in an increasingly polarized age If you enjoyed *The Case for Nationalism* by Rich Lowry *The Dying Citizen* by Victor Davis Hanson or *America in Retreat* by Bret Stephens you ll love *Radical Betrayal*

British and American Anti-communism Before the Cold War Markku Ruotsila, 2023-05-09 This work examines in a comparative historical way the socialist liberal and conservative strands of Anglo American anticommunist thought before

the Cold War In so doing this book provides us with an intellectual pre history of Cold War attitudes and policy positions

The Presidents and the People Corey Brettschneider, 2024-07-02 Winner of the American Bar Association's 2025 Silver Gavel Award American presidents have often pushed the boundaries established for them by the Constitution this is the inspirational history of the people who pushed back Imagine an American president who imprisoned critics spread a culture of white supremacy and tried to upend the law so that he could commit crimes with impunity In this propulsive and eminently readable history constitutional law and political science professor Corey Brettschneider provides a thoroughly researched account of assaults on democracy by not one such president but five John Adams waged war on the national press of the early republic overseeing numerous prosecutions of his critics In the lead up to the Civil War James Buchanan colluded with the Supreme Court to deny constitutional personhood to African Americans A decade later Andrew Johnson urged violence against his political opponents as he sought to guarantee a white supremacist republic after the Civil War In the 1910s Woodrow Wilson modernized popularized and nationalized Jim Crow laws In the 1970s Richard Nixon committed criminal acts that flowed from his corrupt ideas about presidential power Through their actions these presidents illuminated the trip wires that can damage or even destroy our democracy Corey Brettschneider shows that these presidents didn't have the last word citizen movements brought the United States back from the precipice by appealing to a democratic understanding of the Constitution and pressuring subsequent reform minded presidents to realize the promise of We the People This is a book about citizens Frederick Douglass Ida B Wells Daniel Ellsberg and more who fought back against presidential abuses of power Their examples give us hope about the possibilities of restoring a fragile democracy **The Reference Shelf**, 1924

Tomorrow, the World Stephen Wertheim, 2020-10-27 A Foreign Affairs Best Book of the Year Even in these dismal times genuinely important books do occasionally make their appearance You really ought to read it A tour de force While Wertheim is not the first to expose isolationism as a carefully constructed myth he does so with devastating effect Andrew J Bacevich The Nation For most of its history the United States avoided making political and military commitments that would entangle it in power politics Then suddenly it conceived a new role for itself as an armed superpower and never looked back In Tomorrow the World Stephen Wertheim traces America's transformation to World War II right before the attack on Pearl Harbor As late as 1940 the small coterie formulating U S foreign policy wanted British preeminence to continue Axis conquests swept away their assumptions leading them to conclude that America should extend its form of law and order across the globe and back it at gunpoint No one really favored isolationism a term introduced by advocates of armed supremacy to burnish their cause We live Wertheim warns in the world these men created A sophisticated and impassioned account that questions the wisdom of U S supremacy Tomorrow the World reveals the intellectual path that brought us to today's endless wars Its implications are invigorating Wertheim opens space for Americans to reexamine their own history and ask themselves whether primacy has ever really met their interests New Republic For almost 80 years now historians

and diplomats have sought not only to describe America's swift advance to global primacy but also to explain it. Any writer wanting to make a novel contribution either has to have evidence for a new interpretation or at least be making an older argument in some improved and eye-catching way. Tomorrow the World does both. Paul Kennedy. Wall Street Journal

Catalogue of Publications Issued by the Government of the United States United States. The Mediatization of War and Peace Christoph Cornelissen, Marco Mondini, 2021-02-08 During the First World War mass media achieved an enormous and continuously growing importance in all belligerent countries. Newspaper, illustrated magazines, comics, pamphlets and instant books, fictional works, photography and the new-born theater of imagery, the cinema were crucial in order to create a heroic vision of the events to mobilize and maintain the consensus on the war. But their role was pivotal also in creating the image of the war's end and finally together with a widespread new literary genre, the war memoirs, to shape the collective memory of the conflict for the next generations. Even before November 1918 the media raised high expectations for a multifaceted peace, a new global order, the beginning of a peaceful era, the occasion for a regenerating apocalypse. Likewise in the following decades, particularly war literature and cinema were pivotal to reverse the icon of the Great War as an epic crusade and a glorious chapter of the national history and to create the hegemonic image of a senseless carnage. The Mediatization of War and Peace focalizes on the central role played by mass media in the tortuous transition to the post-war period as well as on the profound disenchantment generated by their prophecies.

American Political Thought Morton J. Frisch, Richard G. Stevens, The Second World War was a crisis not just for America but for the whole of Western Civilization and in the wake of that war a new crisis arose which came to be called the Cold War. Just when that gave the appearance of being resolved the world reached a new juncture, a new crisis which Samuel P. Huntington dubbed the clash of civilizations. The statesmen having political responsibility in confronting the first three crises in America's history came as close to philosophic grasp of the problems of liberal democracy as one could demand from those embroiled in the active resolution of events. Their reflection of political philosophy in the full sense informed their actions.
