**The future of Inflight Entertainment in Europe, according to passenger expectations: Why Airlines should embrace Consumer Technology** Jasmin Schawalder, 2014-04-01 Consumerization passengers toting their tablets laptops smartphones and e readers on planes has forced airlines to re think Should they continue to invest heavily into Inflight Entertainment IFE systems or just concentrate on offering Wi Fi and power in the cabin The goal of this research was to define the IFE offer of the future Four barriers that split the world into the three regions Europe Asia and USA in terms of IFE development were identified the cultural the commercial the technological and the legal barrier This book focuses on Europe which lags mostly behind with IFE out of these three regions For example as opposed to the US no major European airline offers inflight Wi Fi widely on its network and in contrast to leading Middle Eastern airlines none offers inflight live TV or the usage of mobile phones without restriction like on the ground The target was to define IFE from a consumer perspective To capture the latter the author evaluated consumer satisfaction methodologies and decided to go with the Kano approach which categorizes alternatives of a product or service in this case IFE in must be attractive and indifferent elements A representative online survey revealed movies and power to be must be TV and Wi Fi to be attractive and the rest e books music games and duty free onboard to be indifferent elements of IFE The majority of people indicated that they would pay for movies and Wi Fi but not for power supply TV or other content Differently said content wise passengers only insisted in the supply of movies for the rest they expected the airline to provide

Internet and power so they themselves could get the content Further sub groups were analysed people within the sample with mutual characteristics like gender travel frequency or ownership of smart devices So was music on a plane a must for women and owners of iPhones were more willing to pay for apps than others Overall country of residence travel purpose leisure or business and flight duration long vs short haul were the greatest dividers re IFE requirements

*Flying Across America* Daniel L. Rust,2012-11-20 Americans who now endure the inconveniences of crowded airports packed airplanes and missed connections might not realize that flying was once an elegant exhilarating adventure In this colorful history Daniel L Rust traces the evolution of commercial air travel from the first transcontinental expeditions of the 1920s through the luxurious

airline environments of the 1960s to the more hectic fatiguing experiences of flying in the post 9 11 era In the beginning flying coast to coast was an exciting yet uncomfortable journey of nearly forty eight hours that required numerous stops and overnight travel by train With time and technical innovation passengers became increasingly removed both physically and psychologically from the raw experience of flying Faster planes pressurized cabins onboard amenities and stronger safety precautions made flying more convenient and predictable but also less evocative and sensational Prior to the 1980s Americans dressed for air travel in their formal best and enjoyed such luxurious onboard amenities as delicious meals and ample cabin space What made air travel glamorous however also made it more expensive With deregulation in 1978 cost reductions reduced flying to a more tedious and after 9 11 more regimented experience Rust s narrative brims with firsthand accounts from such celebrities as Will Rogers and from ordinary Americans Enlivened by more than 100 illustrations including vintage brochures posters and photographs Flying Across America reminds today s airline passengers of what they have gained and what they have lost in the transcontinental flying experience

Steven Archille, 2012-03-23 Flying has been my dream since before I can remember literally My Aunt Odette tells me that when I was three years old she took me with her to the Port au Prince International Airport to pick someone up and when I saw an airliner up close for the first time I excitedly yelled out I want to drive that I don't recall that event but it serves as evidence that my fascination with flying began at a remarkably young age My first memory of wanting to fly came a few years later at the age of seven I was on my very first flight from Port au Prince to New York City where I was going to start a new life in a new country I remember looking at all the people boarding the airplane and wondering how that big silver bird was going to get us into the air that silver bird was an American Airlines Boeing 727 To this day the whole experience is vivid in my mind being greeted with a smile by the captain at the aircraft entry door the funny feeling in my stomach as the plane accelerated down the runway leaping into the air and my utter disbelief that we didn't drop out of the sky I was mesmerized by it all and by the time the plane came to a stop at our gate my dream had been born I wanted to become an airline pilot I have been blessed to be living that dream

since 1999 It s a dream from which I hope never to awaken This is the story of the lifelong journey I have taken in realizing that dream I invite you to come along with me as we go from my birth in Haiti to the present day as I live my dream every day You will come with me as I move to America at the age of seven a country I knew nothing about and whose language I didn t speak a land that would truly prove to be the land of opportunity You will feel my sense of wonder and bewilderment growing up in New York City trying to understand my new world You will face my struggles to fit in with the kids in the housing project where my family lived for a decade as Mom and Dad saved money to buy a house You will meet my parents who encouraged my dream of flying and my fifth grade teacher who helped me to see that it was possible not only to dream it but also to achieve it It s a story of potential fulfilled and my family s sacrifices to get me through college and flight school You will fly with me from my first lesson to my first airline job as a copilot to the day I earned my four stripes and first heard someone call me Captain You will sit with me in the captain s seat as I fly an airline jet over Haiti for the first time looking down from thirty eight thousand feet onto the land of my birth where my dream had been born You will soar with me over the majestic Amazon jungle in Brazil over the desert flanked Nile River in Egypt and the sparkling Mediterranean Sea You will fly with me through New York City blizzards Indian monsoons and Arabian sandstorms You will travel with me on adventures to Europe South America the Middle East South Asia the Caribbean and other parts of the world I used to dream of going to as a child places that have affected me profoundly and where I left a little part of myself I have seen all these things through the eyes of the seven year old boy from Haiti that I was and in many ways still am the little boy who had a sense of just how incredible the world and life are who dreamt of a life of worldwide adventure and was blessed to have his dream come true That is the reason for the title of this book The Seven Year Old Pilot because even after years of flying around the world in many ways I still feel like that little boy and I always try to approach my travels and my life with his sense of gratitude amazement and awe I truly believe that every one of us has life experiences and lessons worth sharing that can inspire enlighten teach and benefit others because we have all liv
