**American Film History** Cynthia Lucia, Roy Grundmann, Art Simon, 2015-09-08 This authoritative collection of introductory and specialized readings explores the rich and innovative history of this period in American cinema. Spanning an essential range of subjects from the early 1900s Nickelodeon to the decline of the studio system in the 1960s, it combines a broad historical context with careful readings of individual films. Charts the rise of film in early twentieth century America from its origins to 1960, exploring mainstream trends and developments along with topics often relegated to the margins of standard film histories. Covers diverse issues ranging from silent film and its iconic figures such as Charlie Chaplin to the coming of sound and the rise of film genres, studio moguls, and later the Production Code and Cold War Blacklist. Designed with both students and scholars in mind, each section opens with an historical overview and includes chapters that provide close, careful readings of individual films clustered around specific topics. Accessibly structured by historical period, offering valuable cultural, social, and political contexts. Contains careful, close analysis of key filmmakers and films from the era, including D. W. Griffith, Charles Chaplin, Buster Keaton, Erich von Stroheim, Cecil B. DeMille, Don Juan, The Jazz Singer, I Am a Fugitive from a Chain Gang, Scarface, Red Dust, Glorifying the American Girl, Meet Me in St. Louis, Citizen Kane, Bambi, Frank Capra's Why We Fight series, The Strange Love of Martha Ivers, Rebel Without a Cause, Force of Evil, and selected American avant-garde and underground films among many others. Additional online resources such as sample syllabi, which include suggested readings and filmographies for both general and specialized courses, will be available online. May be used alongside American Film History: Selected Readings, 1960 to the Present, to provide an authoritative study of American cinema through the new millennium.

product or service in this case IFE in must be attractive and indifferent elements A representative online survey revealed movies and power to be must be TV and Wi Fi to be attractive and the rest e books music games and duty free onboard to be indifferent elements of IFE The majority of people indicated that they would pay for movies and Wi Fi but not for power supply TV or other content Differently said content wise passengers only insisted in the supply of movies for the rest they expected the airline to provide Internet and power so they themselves could get the content Further sub groups were analysed people within the sample with mutual characteristics like gender travel frequency or ownership of smart devices So was music on a plane a must for women and owners of iPhones were more willing to pay for apps than others Overall country of residence travel purpose leisure or business and flight duration long vs short haul were the greatest dividers re IFE requirements
