And Future Internet Policy Peter Decherney:

The Future of Internet Policy Peter Decherney, Victor Pickard, 2017-10-02 All of the short essays in this volume look past the rhetoric of technological determinism and reliance on the natural logic of the market to consider the power of law and policy to steer new media in one direction or another Many of the essays look backwards through history or outwards across national borders They all look forward to how today's policies will shape the future of the internet and society A particular focus of interest for some of the contributors is the revelations that followed Edward Snowden's mass disclosure of classified documents in 2013 which revealed the U S National Security Agency's systematic and longstanding program of monitoring global communications Some chapters consider different countries varying approaches to regulating the proliferation of online communication while others assess the current state of digital technology They all call for policy interventions to solve market failures This book was originally published as a special issue of Critical Studies in Media Communication

The Communication Crisis in America, And How to Fix It Mark Lloyd, Lewis A. Friedland, 2016-10-27 with foreword by Michael X Delli Carpini Annenberg School for Communication University of Pennsylvania USA This book critiques U S public policy about communication and offers guidelines to improve public safety and create strong democratic communities The lack of effective emergency communication basic information about health care education jobs and the economy and civic life is at a crisis state creating problems for the whole community not just a vulnerable few The Communications Crisis in America is not because of changing markets or new technology it is the failure of public policy The authors include economists sociologists journalists lawyers and a diverse group of media and communication scholars all offering an urgent call to action and difficult but achievable steps forward

After Net Neutrality Victor Pickard, David Elliot Berman, 2019-10-29 A provocative analysis of net neutrality and a call to democratize online communication This short book is both a primer that explains the history and politics of net neutrality and an argument for a more equitable framework for regulating access to the internet Pickard and Berman argue that we should not see internet service as a commodity but as a public good necessary for sustaining democratic society in the twenty first century They aim to reframe the threat to net neutrality as more than a conflict between digital leviathans like Google and internet service providers like Comcast but as part of a much wider project to commercialize the public sphere and undermine the free speech essential for democracy Readers will come away with a better understanding of the key concepts underpinning the net neutrality battle and rallying points for future action to democratize online communication

Media, Ideology and Hegemony, 2018-09-11 Media Ideology and Hegemony contains a range of topics that provide readers with opportunities to think critically about the new digital world This includes work on old and new media on the corporate power structure in communication and information technology and on government use of media to control citizens Demonstrating that the new world of media is a hotly contested terrain the book also uncovers the contradictions inherent in the system of

digital power and documents how citizens are using media and information technology to actively resist repressive power This collection of essays is grounded with a critical theoretical foundation and is informed by the importance of undertaking the analysis in historical perspective Contributors are Alfonso M Rodriguez de Austria Gimenez de Aragon Burton Lee Artz Arthur Asa Berger Oliver Boyd Barrett Marco Briziarelli Sava oban Jeffrey Hoffmann Junhao Hong Robert Jensen Douglas Kellner Thomas Klikauer Peter Ludes Tanner Mirrlees Vincent Mosco Victor Pickard Padmaja Shaw Nick Stevenson Gerald Sussman Minghua Xu Fake News Melissa Zimdars, Kembrew Mcleod, 2020-02-18 New perspectives on the misinformation ecosystem that is the production and circulation of fake news What is fake news Is it an item on Breitbart an article in The Onion an outright falsehood disseminated via Russian bot or a catchphrase used by a politician to discredit a story he doesn't like This book examines the real fake news the constant flow of purposefully crafted sensational emotionally charged misleading or totally fabricated information that mimics the form of mainstream news Rather than viewing fake news through a single lens the book maps the various kinds of misinformation through several different disciplinary perspectives taking into account the overlapping contexts of politics technology and journalism The contributors consider topics including fake news as disorganized propaganda folkloric falsehood in the Pizzagate conspiracy native advertising as counterfeit news the limitations of regulatory reform and technological solutionism Reddit's enabling of fake news the psychological mechanisms by which people make sense of information and the evolution of fake news in America A section on media hoaxes and satire features an oral history of and an interview with prankster activists the Yes Men famous for parodies that reveal hidden truths Finally contributors consider possible solutions to the complex problem of fake news ways to mitigate its spread to teach students to find factually accurate information and to go beyond fact checking Contributors Mark Andrejevic Benjamin Burroughs Nicholas Bowman Mark Brewin Elizabeth Cohen Colin Doty Dan Faltesek Johan Farkas Cherian George Tarleton Gillespie Dawn R Gilpin Gina Giotta Theodore Glasser Amanda Ann Klein Paul Levinson Adrienne Massanari Sophia A McClennen Kembrew McLeod Panagiotis Takis Metaxas Paul Mihailidis Benjamin Peters Whitney Phillips Victor Pickard Danielle Polage Stephanie Ricker Schulte Leslie Jean Thornton Anita Varma Claire Wardle Melissa Zimdars Sheng Zou

Stuart Hall Lives: Cultural Studies in an Age of Digital Media Peter Decherney, Katherine Sender, 2018-10-18 The work of cultural and political theorist Stuart Hall a pioneer of Cultural Studies who passed away in 2014 remains more relevant than ever In Stuart Hall Lives scholars engage with Hall's most enduring essays including Encoding Decoding and Notes on Deconstructing the Popular bringing them into the context of the 21st century Different chapters consider resistant media consumers online journalism debates around the American Confederate flag and rainbow flags the OscarsSoWhite controversy and contemporary moral panics The book also includes Hall's important essay on French theorist Louis Althusser which is introduced here by Lawrence Grossberg and Jennifer Slack Finally two reminiscences by one of Hall's former colleagues and one of his former students offer wide ranging reflections on his years as director of Centre for Contemporary

Cultural Studies at the University of Birmingham UK and as head of the Department of Sociology at The Open University Together the contributions paint a picture of a brilliant theorist whose work and legacy is as vital as ever This book was originally published as a special issue of Critical Studies in Media Communication **Global Media Giants** Benjamin Birkinbine,Rodrigo Gomez,Janet Wasko,2016-07-01 Global Media Giants takes an in depth look at how media corporate power works globally regionally and nationally investigating the ways in which the largest and most powerful media corporations in the world wield power Case studies examine not only some of the largest media corporations News Corp The Microsoft Corporation in terms of revenues but also media corporations that hold considerable power within national regional or geolinguistic contexts Televisa The Bertelsmann Group Sony Corporation Each chapter approaches a different corporation through the lens of economy politics and culture giving students and scholars a thoughtful and data driven guide with which to interrogate contemporary media industry power **ISIS Beyond the Spectacle** Mehdi Semati,Piotr M. Szpunar,Robert Alan Brookey,2020-04-02 What is ISIS A quasi state A terrorist group A movement An ideology As ISIS has transformed and mutated gained and lost territory horrified the world and been its punch line media have been central to understanding it The changing yet constant relationship between ISIS and the media as well as its adversaries dependency on media to make sense of ISIS is central to this book More than just the images of mutilated bodies that garnered ISIS its initial infamy the book considers an ISIS media world that includes infographics administrative reports and various depictions of a post racial utopia in which justice is swift and candy is bought and sold with its own currency The book reveals that the efforts of ISIS and its adversaries to communicate and make sense of this world share modes of visual aesthetic and journalistic practice and expression The short tumultuous history of ISIS does not allow for a single approach to understanding its relation to media Thus the book s contributions are to be read as contrapuntal analyses that productively connect and disconnect providing a much needed complex account of the ISIS media relationship This book was originally published as a special issue of Critical Studies in Media Communication [Harvard Law Review: Volume 127, Number 3 - January 2014](#) Harvard Law Review,2014-01-15 The January 2014 issue Volume 127 Number 3 includes the following articles and student contributions Article For Profit Public Enforcement by Margaret H Lemos and Max Minzner Book Review Technological Determinism and Its Discontents by Christopher S Yoo Note More than a Formality The Case for Meaningful Substantive Reasonableness Review Note Appointing State Attorneys General Evaluating the Unbundled State Executive Note The Devil Wears Trademark How the Fashion Industry Has Expanded Trademark Doctrine to Its Detriment In addition student case notes explore recent cases on misleading law school employment data the First Amendment religious rights of for profit corporations regulation of nuclear energy forensic search of laptops at the border search of cellphone data incident to arrest obscene or lewd student speech and access to polling places for news gathering purposes Finally the issue includes several summaries of Recent Publications The issue is offered in a quality digital edition featuring active Contents linked

notes active URLs in notes and proper ebook formatting The contents of Number 3 include scholarly essays by leading academic figures as well as substantial student research The Review is a student run organization whose primary purpose is to publish a journal of legal scholarship The organization is formally independent of the Harvard Law School student editors make all editorial and organizational decisions

Race(ing) Intercultural Communication Dreama Moon,Michelle Holling,2017-10-02 Race ing Intercultural Communication signals a crucial intervention in the field as well as in wider society where social and political events are calling for new ways of making sense of race in the 21st century Contributors to this book work at multiple intersections theoretically and methodologically in order to highlight relational im possibilities for intercultural communication Chapters underscore the continuing importance of studying race and the diverse mechanisms that maintain racial logics both in the U S and globally In the so called post racial era in which we live not only are disrupting notions of colour blindness crucially important but so too are imagining new ways of thinking through racial matters Ranging from discussions of new media popular culture and political discourse to resistance literature gay culture and academia contributors produce incisive analyses of the operations of race and white domination including the myriad ways in which these discourses are reproduced and disrupted This book was originally published as a special issue of the Journal of International and Intercultural Communication

۰۰ ۰۰ ۰۰۰۰,2021-06-30 21 infrastructure Spotify Teardown Maria Eriksson,Rasmus Fleischer,Anna Johansson,Pelle Snickars,Patrick Vonderau,2019-02-19 An innovative investigation of the inner workings of Spotify that traces the transformation of audio files into streamed experience Spotify provides a streaming service that has been welcomed as disrupting the world of music Yet such disruption always comes at a price Spotify Teardown contests the tired claim that digital culture thrives on disruption Borrowing the notion of teardown from reverse engineering processes in this book a team of five researchers have playfully disassembled Spotify s product and the way it is commonly understood Spotify has been hailed as the solution to illicit downloading but it began as a partly illicit enterprise that grew out of the Swedish file sharing community Spotify was originally praised as an innovative digital platform but increasingly resembles a media company in need of regulation raising questions about the ways in which such cultural content as songs books and films are now typically made available online Spotify Teardown combines interviews participant observations and other analyses of Spotify s front end with experimental covert investigations of its back end The authors engaged in a series of interventions which include establishing a record label for research purposes intercepting network traffic with packet sniffers and web scraping corporate materials The authors innovative digital methods earned them a stern letter from Spotify accusing them of violating its terms of use the company later threatened their research funding Thus the book itself became an intervention into the ethics and legal frameworks of corporate behavior The New Enlightenment and the Fight to Free Knowledge Peter B. Kaufman,2021-02-23 How do we create a universe of truthful and verifiable information available to everyone In The New Enlightenment and the Fight to Free Knowledge MIT Open Learning s Peter B Kaufman describes the powerful forces that have purposely crippled our efforts to share knowledge widely and freely Popes and their inquisitors emperors and their hangmen commissars and their secret police throughout history all have sought to stanch the free flow of information Kaufman writes of times when the Bible could not be translated you d be burned for trying when dictionaries and encyclopedias were forbidden when literature and science and history books were trashed and pulped sometimes along with their authors and when efforts to develop public television and radio networks were quashed by private industry In the 21st century the enemies of free thought have taken on new and different guises giant corporate behemoths sprawling national security agencies gutted regulatory commissions Bereft of any real moral compass or sense of social responsibility their work to surveil and control us are no less nefarious than their 16th and 18th and 20th century predecessors They are all part of what Kaufman calls the Monsterverse The New Enlightenment and the Fight to Free Knowledge maps out the opportunities to mobilize for the fight ahead of us With the Internet and other means of media production and distribution video especially at hand knowledge institutions like universities libraries museums and archives have a special responsibility now to counter misinformation disinformation and fake news and especially efforts to control the free flow of information A film and video

producer and former book publisher Kaufman begins to draft a new social contract for our networked video age He draws his inspiration from those who fought tooth and nail against earlier incarnations of the Monsterverse including William Tyndale in the 16th century Denis Diderot in the 18th untold numbers of Soviet and Central and East European dissidents in the 20th many of whom paid the ultimate price Their successors Advocates of free knowledge like Aaron Swartz of free software like Richard Stallman of an enlightened public television and radio network like James Killian of a freer Internet like Tim Berners Lee of fuller rights and freedoms like Edward Snowden All have been striving to secure for us a better world marked by the right balance between state society and private gain The concluding section of the book its largest piece builds on their work drawing up a progressive agenda for how today's free thinkers can band together now to fight and win With everything shut and everyone going online *The New Enlightenment and the Fight to Free Knowledge* is a rousing call to action that expands the definition of what it means to be a citizen in the 21st century

Reconceptualising Film Policies Nolwenn Mingant, Cecilia Tirtaine, 2017-11-22 This volume explores and interrogates the shifts and changes in both government and industry based screen policies over the past 30 years It covers a diverse range of film industries from different parts of the world along with the interrelationship between different localities policy regimes and technologies media Featuring in depth case studies and interviews with practitioners and policy makers this book provides a timely overview of government and industry's responses to the changing landscape of the production distribution and consumption of screen media

The Routledge Handbook of Global Cultural Policy Victoria Durrer, Toby Miller, Dave O'Brien, 2017-09-22 Cultural policy intersects with political economic and socio cultural dynamics at all levels of society placing high and often contradictory expectations on the capabilities and capacities of the media the fine performing and folk arts and cultural heritage These expectations are articulated mobilised and contested at and across a global scale As a result the study of cultural policy has firmly established itself as a field that cuts across a range of academic disciplines including sociology cultural and media studies economics anthropology area studies languages geography and law This Routledge Handbook of Global Cultural Policy sets out to broaden the field's consideration to recognise the necessity for international and global perspectives The book explores how cultural policy has become a global phenomenon It brings together a diverse range of researchers whose work reveals how cultural policy expresses and realises common global concerns dominant narratives and geopolitical economic and social inequalities The sections of the book address cultural policy's relation to core academic disciplines and core questions of regulations rights development practice and global issues With a cross section of country by country case studies this comprehensive volume is a map for academics and students seeking to become more globally orientated cultural policy scholars

Hollywood's Copyright Wars Peter Decherney, 2013-09-01 Beginning with Thomas Edison's aggressive copyright disputes and concluding with recent lawsuits against YouTube Hollywood's Copyright Wars follows the struggle of the film television and digital media industries to influence and adapt to copyright law Though much of Hollywood's

engagement with the law occurs offstage in the larger theater of copyright many of Hollywood's most valued treasures from *Modern Times* 1936 to *Star Wars* 1977 cannot be fully understood without appreciating their legal controversies Peter Decherney shows that the history of intellectual property in Hollywood has not always mirrored the evolution of the law and recounts these extralegal solutions and their impact on American media and culture

Broadcasting Hollywood Jennifer Porst, 2021-09-17 *Broadcasting Hollywood* uses extensive archival research to analyze the tensions and synergies between the film and television industries in the early years of television It draws parallels to today and the introduction of digital media to highlight how history can play a key role in helping media industry scholars and practitioners understand and navigate contemporary industrial phenomena
