And Please Stop Helping Us Liberals:

Please Stop Helping Us Jason L. Riley, 2016-01-05 Why is it that so many efforts by liberals to lift the black underclass not only fail but often harm the intended beneficiaries In *Please Stop Helping Us* Jason L Riley examines how well intentioned welfare programs are in fact holding black Americans back Minimum wage laws may lift earnings for people who are already employed but they price a disproportionate number of blacks out of the labor force Affirmative action in higher education is intended to address past discrimination but the result is fewer black college graduates than would otherwise exist And so it goes with everything from soft on crime laws which make black neighborhoods more dangerous to policies that limit school choice out of a mistaken belief that charter schools and voucher programs harm the traditional public schools that most low income students attend In theory these efforts are intended to help the poor and poor minorities in particular In practice they become massive barriers to moving forward *Please Stop Helping Us* lays bare these counterproductive results People of goodwill want to see more black socioeconomic advancement but in too many instances the current methods and approaches aren't working Acknowledging this is an important first step *The Cost of Racial Equality* Major G. Coleman, 2025-10-14 Knowing the cost of products is important If you don't know how much your item costs whatever it may be you are likely to be overcharged or under protected Racial equality is very much like any product Generally you get what you pay for assuming you are buying well made products from reputable and professional sources The more you pay the more you get the less you pay the less you get But everyone knows there are often wild exceptions to the general rule of getting what you pay for Racial equality is no exception Some low cost racial equality programs provide tremendous bang for the buck K 12 school integration affirmative action in higher education funding for anti discrimination enforcement and political equality in voting are just a few examples However by refusing to calculate the costs involved and choosing to pay little or nothing for racial equality the nation is defaulting to the highest cost options This is like trying to save money on transportation by not changing the oil in your car Racial equality cost decisions are particularly problematic as the nation moves to being majority minority by mid century Not knowing the costs for racial equality threatens American democracy **Economic Freedom and Social Justice** Wanjiru Njoya, 2021-11-01 This book analyses the egalitarian foundations of equality law from a classical liberal perspective by asking two central questions does justice ideally demand equality Are differences in abilities among people in some sense unfair The book examines these questions in the context of racial diversity Racial justice as a component of social justice is often considered to be so emotionally and morally compelling that its implications for economic freedom are rarely subjected to critical scrutiny In defending the classical ideal of formal equality in contexts of racial diversity this book questions the ethical status of egalitarian social and moral ideals Economic Freedom and Social Justice argues that egalitarian ideals like all subjective value judgements must be subjected to critical intellectual inquiry rather than treated axiomatically Drawing upon the legal framework in the UK and other common law jurisdictions this book shows

some of the ways in which egalitarian ideals in addition to resting on false premises are costly harmful and ultimately inimical to justice and liberty The book argues that legal entitlements and policy guidelines constructed upon notions of racial equity are wrongly constituted as the main prism through which liberal market democracies govern private relationships including the employment relationship Written in a clear and forthright style this book will be of interest to students and scholars in law economics philosophy and political economy

Policing Strategies for the 21st Century United States. Congress. House. Committee on the Judiciary, 2015

Restoring the Promise Richard K. Vedder, 2019-05-01 Higher education in America is in crisis Costs are too high learning is too little and the payoff to students and society is increasingly problematic In Restoring the Promise Richard Vedder shows how the precarious position of colleges and universities results from a mostly unsuccessful expansion of governmental involvement in the academy especially at the federal level The book examines today's most serious issues in higher education including free speech and academic freedom tuition and other costs culture and curricula governance gender race and diversity due process admissions student loans and much more It diagnoses problems and identifies solutions For example the total cost of college per student in the United States is now higher than in any other country When combining the monetary costs of college with the opportunity costs of losing years of labor to the economy the true cost of higher education to American society well exceeds one trillion dollars annually Yet despite American higher education's immense price tag students are learning less than ever before and continue to be underemployed The book discusses the three I's of university reform information incentives and innovation Without information it is impossible for taxpayers and governing authorities to ensure that public education spending truly furthers the broader interests of society rather than the narrow interests of faculty and administrators Shaping incentives for management would help to reduce costs and improve quality Business practices such as Responsibility Centered Management RCM for example allow profit to motivate efficiency and encourage learning outcomes And expanding the use of innovation in technology and open online courses along with relinquishing old rules such as tenure and three

month summer vacations offer new hope for institutions of higher education The book discusses such additional reforms as the following Ending or revising the federal student financial aid program Giving departments or even professors a share of overall revenue based on student enrollments in their classes Departments or professors would then be required to pay their share of travel building rental maintenance utilities and other such costs from the revenues they receive Providing earnings data on former students by college five ten or fifteen years after matriculation Prospective students and parents as well as lawmakers and oversight officials would be assisted regarding school successes and failures Increasing faculty teaching loads Instituting three year degrees and year round instruction Ending discrimination against for profit schools Ending grade inflation Ending speech codes and other barriers to academic freedom Ending affirmative action and related diversity programs And more

Liberalism Or How to Turn Good Men Into Whiners, Weenies and Wimps Burgess Owens, 2016-07-19

As seen on Tucker Carlson Tonight and The Ingraham Angle on Fox News As heard on Mark Levin and Glenn Beck radio The Black middle class saviors of the American way Liberalism or How to Turn Good Men into Whiners Weenies and Wimps documents the role of the 21 white self avowed socialist atheist and Marxist founders of the NAACP and their impact on the Black community s present status at the top of our nations misery index It highlights the decades of anti Black legislation supported by liberal black leaders who prioritized class over race in their zeal for the promises of socialism Their anti Black legislation dating back with the 1932 Davis Bacon Act continues today to suppress inter community Black capitalism federal construction related Black employment work and job experience for Black teenagers quality education access for urban black children and the role of black men as leaders within the family unit Liberalism or How to Turn Good Men into Whiners Weenies and Wimps highlights the strategy used in 1910 to inject the atheist ideology of socialism into a once enterprising self sufficient competitive and proud Christian black community A portion of that community the conservative Black middle class is positioned to pull our nation back from this abyss Americans can ensure that the century long sacrifice of lost hopes dreams and lives made by the proud courageous patriotic capitalist Christianbased self sufficient education seeking Black community of the early 1900s was not in vain but only if we choose to learn lessons from those past Black generations

the 1980s and how solutions then can be used now along with new ideas that build off of what worked for The Gipper Along the way the reader will see how a private citizen that can be considered as Gen Z found his way into politics after not really being interested in it in the first 25 years of his life demonstrating how if you do not do the research on your own you can fall victim to what the mainstream pundits are sharing '[Black Lives Matter](#)' Lucia Abbamonte,2018-11-12 This volume focuses on the ongoing protest in the US against racial discrimination and racial profiling which often result in the loss of black lives at the hands of police agents a phenomenon that has recently attracted unprecedented media attention The topics dealt with here such as the relevance of the Black Lives Matter movement are currently included in a variety of education curricula in the US and in like manner this book can be used in first and second level degrees in linguistic and cultural studies communication media studies and political sciences It contains well developed methodological sections with tables figures graphs and notes where the tenets of critical discourse analysis are concisely illustrated from its Foucauldian roots up to the more recent developments of multimodal critical discourse analysis and positive discourse analysis as well as the contribution of the Sidney School with their emphasis on mapping culture through narrative genres and the wealth of resources for discourse analysis provided by the appraisal framework *Summary of Jason L. Riley's Maverick* Milkyway Media,2021-07-13 Buy now to get the main key ideas from Jason L Riley s Maverick Throughout history the world has witnessed discriminations hostilities and injustices It seems that no matter how much human beings evolve racism will always be manifested in societies and the fight against it is far deeper and more complicated than what activists movements and organizations like to acknowledge In *Maverick A Biography of Thomas Sowell* 2021 Jason L Riley details the views and theories of Thomas Sowell one of America s leading conservative economists Riley presents a thorough and meticulous account of Sowell s skepticism about some widespread perceptions regarding blacks such as the need for racial preferences Sowell believes that these perceptions have harmed the black community more than they have helped it His work also points out flaws in black leadership and movements Riley offers a deep look into the character of Sowell and his extremely controversial views on social issues and economic activity **Tyrants in Black Robes** Boydq Hartman,2015-04-10 The Constitution denies to Congress the right to create titles of nobility or to allow any citizen the right to a foreign title of nobility Yet perhaps to gain the respect due their calling judges unlike any other office holders are permitted to adorn themselves with black robes and conduct their trials in court houses of stately grandeur These judges are indeed of a different pattern then other public servants These judges are looked upon in virtual reverence and their judgments are added to those great volumes of decisions that make up our legal if not moral heritage But what would be the consequences to our ordered society if judges found not the constraints of an ordered rule of law but found instead that they had instead the ability to and passion to formulate the law without reference to peoples will Such jurists could with such power become tyrants of an entirely different order **What Do White Americans Owe Black People?** Jason D. Hill,2021-10-12 In this

provocative and highly original work philosophy professor Jason D Hill explores multiple dimensions of race in America today but most importantly a black white divide which has grown exponentially over the past decade Central to his thesis Hill calls on black American leaders and their white liberal sponsors to escape from the cycle of blame and finger pointing which seeks to identify black failures with white hatred and indifference This overblown narrative is promulgated by a phalanx of black nihilists who advocate the destruction of America and her institutions in the name of ending whiteness Much of the black intelligentsia consists of these false prophets and it is their poisonous ideology which is taught uncontradicted to students of all races It is they who are responsible for the cultural depression blacks are suffering in today s society Ultimately the answer to what do White Americans owe is not about the morality or practicality of reparations affirmative action or other redistributionist schemes Hill rejects the collectivist premise behind the argument instead couching notions of culpability justice and fairness as responsibilities of individuals not arbitrary racial or ethnic groupings

Integrating Theology, Church, and Ministry in a Chinese Seminary Peter L. H. Tie, Kevin Chen, 2024-10-21 A perennial challenge for theological education is the integration of what is learned in the classroom with students church life and ministry Is there a connection How can greater connection be fostered Many seminaries earnestly wrestle with these questions Whereas some of the underlying issues are common to all seminaries others are influenced by the cultural context in which theological education church life and ministry take place In addition to cultural factors the history lifestage and current state of the church and of theological education are different in each context The integration of theology church and ministry is crucial to the effectiveness of a Chinese seminary The great need for theological education for Chinese Christian leaders has rightly been sounded and should continue to be but simultaneously seminaries must think seriously about how to promote quality theological education Beginning with a programmatic article by Dr David Dockery a leading proponent for effective integration this book represents the efforts and reflection of experienced scholar practitioners who work out a vision for integration in the context of a diaspora Chinese seminary in San Jose California

Backyard Politics Craig Wiener, 2024-12-03 A fresh understanding of today s political divide Dr Craig Wiener a clinical psychologist for over forty years approaches the current political divide from a desire to understand the differences between opposing political ideologies and to create space for multiple points of view in highly charged political discussions Utilizing an innovative way to conceptualize the two main viewpoints driving American politics Dr Wiener discusses how the people holding these perspectives may view respond to and interact with highly contentious political issues such as poverty racism the patriarchy and family life In assessing these issues he proposes solutions for managing the interpersonal conflicts that occur within our tense political atmosphere Backyard Politics is a must read analysis of today s political landscape and a proposed way to overcome our intense differences

God's Return on Investment Mark Ervin, 2023-02-23 God s Return On Investment is based on the perception that God is constantly involved in our lives and is training us to understand what He and Jesus did

for us and do for us In order to gain insight into the spiritual realm where God wants us to have a relationship with Him He utilizes what we understand through physical properties In other words what we are familiar with that occurs in our day to day lives is actually just examples of what God wants us to understand spiritually This book takes us through the journey of our lives from birth to death by utilizing the aspect of returns that occur in each phase of our life God put this property of returns into His plan before Adam and Eve sinned in the Garden of Eden Before the sin was committed He established the way for revitalizing the originally intended relationship between Him and us through His son Jesus Now He wants us to see through physical returns what has been done for us by way of His investment The things that went wrong in the Garden of Eden are counteracted by our human representative in the Garden of Gethsemane Why has He done all of this Because He has always loved us and wants us to love Him as was originally intended before sin entered the world

On Being Human Jerome Kagan,2016-03-28 In this thought provoking book psychologist Jerome Kagan urges readers to sally forth from their usual comfort zones He ponders a series of important nodes of debate while challenging us to examine what we know and why we know it Most critically he presents an elegant argument for functions of mind that cannot be replaced with sentences about brains while acknowledging that mind emerges from brain activity Kagan relies on the evidence to argue that thoughts and emotions are distinct from their biological and genetic bases In separate chapters he deals with the meaning of words kinds of knowing the powerful influence of social class the functions of education emotion morality and other issues And without fail he sheds light on these ideas while remaining honest to their complexity Thoughtful and eloquent Kagan s On Being Human places him firmly in the tradition of Renaissance essayist Michel de Montaigne whose appealing blend of intellectual insight personal storytelling and careful judgment has attracted readers for centuries

The State of the Black Family Robert Cherry,2023-03-07 Too many Black Americans live in neighborhoods that are filled with gun violence dysfunctional and abusive families and children with deficient academic and behavioral skills Instead of engaging in an open minded search for solutions too many pundits and politicians are content to point their fingers at systemic racism while dismissing individual

effort and traditional measures of merit as part and parcel of a system that is irredeemably broken In *The State of the Black Family* the economist Robert Cherry presents a blueprint for a robust set of policies that can break the cycle of intergenerational poverty and move these families forward by providing direct family support practical educational approaches housing policies to reinvigorate neighborhoods and on ramps to higher paying jobs an approach that enjoyed a broad consensus before leftwing social justice themes hijacked the conversation *Cold Civil War* Jim Belcher, 2022-03-22
