Smithsonian Contributions to Knowledge , 1870 **Managing knowledge** Katrin Lenz, 2002-02-19 Inhaltsangabe Abstract In an economy where the only certainty is uncertainty the sure source of lasting competitive advantage is knowledge Peter Drucker 1953 Companies like Microsoft Netscape Coca Cola and Yahoo can be found under the top U S companies with the highest market values in 1999 The market value represents the measure of value that the investors and markets associate with the company However these companies are not valued for their tangible assets buildings inventory etc they are valued for something which cannot be shown on a balance sheet their intangibles These include brand recognition Patents customer loyalty innovative business ideas past achievements etc These companies are valued for the knowledge they possess However knowledge is of little value if it cannot be found when needed Therefore a successful knowledge management concept is of crucial importance for these companies The knowledge management market is growing rapidly and it will continue to advance over the next years Knowledge management is still a relatively young field with new concepts emerging constantly Most knowledge management initiatives have focused entirely on changes in tools and technologies such as intranets and Lotus Notes But knowledge management is more complex it covers everything the
