A Window To Heaven When Children See Life In Death:

A Window to Heaven Diane M. Komp, 1992 As seen on ABC's 20/20 and featured in the March 1992 issue of Life Magazine this sensitive book tells of a doctor who finds faith through the dying children she treats Any believer who has asked questions about the innocent suffering of a child will relate to the author's honest quest for faith **Window to Heaven** Diane M. Komp, 1997-02-01 **The New Children and Near-Death Experiences** P. M. H. Atwater, 2003-11-06 Presents an in depth look at children who have experienced the near death phenomenon and the heightened abilities that these children exhibit Provides compelling evidence for the existence of a generation of children who represent the spiritual evolution of the human race Includes firsthand testimonies of children who have returned from near death The New Children and Near Death Experiences is the first book to provide from the view of the child an in depth study of children who have experienced the near death phenomenon and its aftereffects Atwater notes that the child who returns from a near death experience is not the same child as before but is a remodeled rewired reconfigured refined version of the original Presenting data to support her contention that these children have experienced structural chemical and functional changes in the brain she also shows how their greater empathic abilities as well as dramatically higher intelligence are qualities that are also present in children born since 1982 enhanced abilities that cannot be tied to simple genetics Atwater shows that understanding the near death experiences of children can help us prepare for a quantum leap in the evolution of humanity The Near-Death Experience Lee W. Womack, 2002-02-04 Much has been said and written about faith in recent times but do people of this generation really know what faith is Why has raw faith through the centuries chosen Christianity in preference to other global religions when the freedom of choice was allowed In *Untaught and Unlearned Knowledge* author Dr Fred G Womack provides information and insight into the functioning of faith which has been neglected by Biblical scholarship for several years What is faith How is faith When is faith Why is faith Womack explores these questions and more and addresses what can be done to increase and strengthen faith He discusses that an ancient paradigm ensures that authentic Christianity will prevail through faith and it guarantees the ultimate triumph of truth in religion In *Untaught and Unlearned Knowledge* Womack casts light into the shadows where little or none has been directed with regard to faith a theme central to all religions and one that enables Christianity to stand apart from the rest *Oxford Textbook of Spirituality in Healthcare* Mark Cobb, Christina

Puchalski, Bruce Rumbold, 2012-08-09 The relationship between spirituality and healthcare is historical intellectual and practical and it has now emerged as a significant field in health research healthcare policy and clinical practice and training Understanding health and wellbeing requires addressing spiritual and existential issues and healthcare is therefore challenged to respond to the ways spirituality is experienced and expressed in illness suffering healing and loss If healthcare has compassionate regard for the humanity of those it serves it is faced with questions about how it understands and interprets spirituality what resources it should make available and how these are organised and the ways in which spirituality shapes and informs the purpose and practice of healthcare These questions are the basis for this resource which presents a coherent field of enquiry discussion and debate that is interdisciplinary international and vibrant There is a growing corpus of articles in medical and healthcare journals on spirituality in addition to a wide range of literature but there has been no

attempt so far to publish a standard text on this subject Spirituality in Healthcare is an authoritative reference on the subject providing unequalled coverage critical depth and an integrated source of key topics Divided into six sections including practice research policy and training the project brings together international contributions from scholars in the field to provide a unique and stimulating resource David C. Geis,2010 In My Ever After is not a mass media style general readership book on immortality rather it is an argument against a current school neurophilosophy s virtual equation of consciousness and the world Without exposing the equation s weaknesses the question of immortality Geis argues is moot Part I identifies many epistemic and scientific grounds for a real world outside consciousness and self refutational flaws in quantum physics It employs the phenomenological method to situate consciousness and other in their relations Part II sets forth why consciousness cannot be electrical in origin and then how partibility and subjectivity in tandem with the power of conceptualization evince reasons for accepting immortal consciousness as a condition of all human awareness A discussion of why pharmacologic explanations for the OBE and NDE are wanting plus neurologic arguments for memory s non localizability and how animal sentience adds to philosophic conviction coordinate with Scripture on animal existence beyond the grave concludes the argument My Journey of Hope Sarah Jean Kovar,1993 An eleven year old cancer patient describes her illness treatment fears coping strategies and faith in God
