The Columbia Companion to Modern East Asian Literature Joshua S. Mostow, 2003 This extraordinary one volume guide to the modern literatures of China Japan and Korea is the definitive reference work on the subject in the English language With more than one hundred articles that show how a host of authors and literary movements have contributed to the general literary development of their respective countries this companion is an essential starting point for the study of East Asian literatures Comprehensive thematic essays introduce each geographical section with historical overviews and surveys of persistent themes in the literature examined including

nationalism gender family relations and sexuality Following the thematic essays are the individual entries over forty for China over fifty for Japan and almost thirty for Korea featuring everything from detailed analyses of the works of Tanizaki Jun ichiro and Murakami Haruki to far ranging explorations of avant garde fiction in China and postwar novels in Korea Arrayed chronologically each entry is self contained though extensive cross referencing affords readers the opportunity to gain a more synoptic view of the work author or movement The unrivaled opportunities for comparative analysis alone make this unique companion an indispensable reference for anyone interested in the burgeoning field of Asian literature Although the literatures of China Japan and Korea are each allotted separate sections the editors constantly kept an eye open to those writers works and movements that transcend national boundaries This includes for example Chinese authors who lived and wrote in Japan Japanese authors who wrote in classical Chinese and Korean authors who write in Japanese whether under the colonial occupation or because they are resident in Japan The waves of modernization can be seen as reaching each of these countries in a staggered fashion with eddies and back flows between them then complicating the picture further This volume provides a vivid sense of this dynamic interplay

Learn Japanese John Young, Kimiko Nakajima-Okano, 1985-08-01 After fifteen printings the Learn Japanese College Text series has been substantially revised The incorporated revisions grew out of the authors decade and more of classroom experience Revisions were also made in accordance with recommendations proposed by instructors who have used the Learn Japanese series The new edition which reflects recent trends in language teaching continues to emphasize an integrated approach in which speaking hearing reading and writing Japanese all contribute to the language learning process The most significant improvement is the addition of Culture Notes to help clarify the sociolinguistic context in which the language is used Since Japanese modes of communication are highly situational the student of Japanese needs to be made aware of the different contexts in which speakers interact Culture Notes used in conjunction with Grammar Notes Dialogs and Useful Expressions show how an understanding of cultural values and human relationships can enhance the student s mastery of language skills A new approach to language learning is used throughout the revised edition The new sociolinguistic approach which encourages the generation of discourse is integrated with the original pattern approach which encourages the generation of sentences Many components of the first edition such as Sentence Patterns Grammar Notes and Reviews have been revised and or rearranged The result is a clearer more natural and more functional presentation of the Japanese language The four volumes of Learn Japanese New College Text were prepared by the Asian Division of the University of Maryland University College and are published by the University of Hawaii Press
