## **Althusser The Detour Of Theory Historical Materialism Series:**

**Althusser** Gregory Elliott, 2006 An expanded and updated version of the fullest account in English of the philosophico political career of Louis Althusser and the fate of his controversial reconstruction of Marxism containing a substantial new postscript and a comprehensive bibliography *Concrete Critical Theory: Althusser's Marxism* William S. Lewis, 2021-12-06 Taking an analytic and historical approach this work develops and defends Althusserian critical theory This theory it is argued produces knowledge of how a particular class of people in a particular time in a particular place is dominated oppressed or exploited Moreover without relying on a general notion of human emancipation concrete critical theory can suggest political means for the alleviation of these conditions Because it puts Althusser's ideas in dialogue with contemporary social science and philosophy the book as a whole makes contributions to Althusser studies to Anglo American political philosophy and to current debates in the philosophy of the social sciences Althusser Gregory Elliott, 2020-05-05 In the international renaissance of Marxist theory during the 1960s and early 1970s few projects generated as much excitement or controversy as Louis Althusser's return to Marx One of the most ambitious enterprises in the post war history of Marxism Althusser's reconstruction of Marx's doctrine was heralded as a new start in some quarters dismissed as a refurbished Stalinism in others Today more than twenty years after the appearance of his major works and amidst the profound contemporary crisis of Marxism Althusser is the victim rather than the beneficiary of philosophical fashion Paradoxically the oblivion into which he has now fallen affords the opportunity for a return to Althusser a reassessment that advances beyond the unconsidered responses that Marxist commentators have often given to his work In this first full scale study in English of Althusser's career Gregory Elliott draws on a wide range of untranslated material surveying the political and intellectual context of Althusser's initiative in *For Marx* and *Reading Capital* He analyses the nature of the Marxism developed in these works and charts their author's subsequent evolution concluding with a balance sheet of the French Marxist's contribution to historical materialism At once sympathetic and critical Althusser *The Detour of Theory* will establish itself as the standard introduction to its subject **The Gramscian Moment** Peter Thomas, 2009-07-31 Winner of the Premio internazionale Giuseppe Sormani 2011 awarded by the Fondazione Istituto Piemontese Antonio Gramsci in Turin for the best book article on Gramsci in the period between 2007-2011 internationally Antonio Gramsci's *Prison Notebooks* are today acknowledged as a classic of the human and social sciences in the twentieth century The influence of his thought in numerous fields of scholarship is only exceeded by the diverse interpretations and readings to which it has been subjected resulting in often contradictory images of Gramsci This book draws on the rich recent season of Gramscian philological studies in order to argue that the true significance of Gramsci's thought consists in its distinctive position in the development of the Marxist tradition Providing a detailed reconsideration of Gramsci's theory of the state and concept of philosophy *The Gramscian moment* argues for the urgent necessity of taking up the challenge of developing a philosophy of praxis as a vital

element in the contemporary revitalisation of Marxism

### **Reading Capital's Materialist Dialectic** Nick

Nesbitt, 2024-05-27 While the explicit Althusserian engagement with Marx's Capital remained largely limited to Reading Capital after 1968 Nick Nesbitt argues this theoretical intervention remained insistent adopting the form of a general theory of materialist dialectic The book thus analyzes the Althusserianist theory of a materialist dialectic across diverse sites including Althusser's unpublished archive Macherey's exposition of Spinoza's Ethics and Badiou's Logics of Worlds while simultaneously bringing this fully developed theory of materialist dialectic to bear anew on the reading of Capital itself to show that Spinoza's influence on Marx is far greater and that of Hegel increasingly diminishing than has been previously thought

**The Dialogue of Negation** Jeremy Lester, 2000-04-20 The dialogue between large elements of the Western and the Soviet Russian left has all too often been one of negation rather than affirmation The Dialogue of Negation pursues this argument and examines the conceptual and strategic richness of hegemony providing an overview of the key debates which have shaped its historical development Jeremy Lester situates the modern evolution of hegemony within an East West dimension and focuses in particular on the deep seated difficulties and incompatibilities of much of this interaction Lester offers a defence of Gramsci's understanding of hegemony as a key element of the revolutionary class struggle He acknowledges Gramsci's own disputes within the Marxist domain and celebrates the theoretical and practical legacy he bequeathed to those who continue the struggle to replace capitalism with socialism Lester provides a critical defence of modernity against the challenge of postmodernity arguing that it is only within the parameters of modernity that a meaningful form of socialism can succeed He seeks to highlight the inconsistencies and illogicalities of those theorists who see the transition to some kind of postmodern condition as offering new possibilities for the transcendence of capitalism

**A Philosophy for Communism** Panagiotis Sotiris, 2020-05-18 In A Philosophy for Communism Rethinking Althusser Panagiotis Sotiris attempts a reading of the work of the French philosopher centered upon his deeply political conception of philosophy Althusser's endeavour is presented as a quest for a new practice of philosophy that would enable a new practice of politics for communism in opposition to idealism and teleology The central point is that in his trajectory from the crucial interventions of the 1960s to the texts on aleatory materialism Althusser remained a communist in philosophy This is based upon a reading of the tensions and dynamics running through Althusser's work and his dialogue with other thinkers Particular attention is paid to crucial texts by Althusser that remained unpublished until relatively recently Shortlisted for the Deutscher Memorial Prize 2021

*Politics and Philosophy* Mikko Lahtinen, 2009 Louis Althusser's interpretation of Niccol Machiavelli has never really been studied in any detail as an analysis of political action and intervention The same is also true for Althusser's notion of aleatory materialism Instead these have conventionally been studied from the viewpoint of a philosophical perspective in which politics is excluded The objective of the present book thus runs against many of the prevailing views on Althusser Here the emphasis is placed on Althusser's advancement of a theory of materialist politics The

main argument put forward is that for Althusser it was essential to reflect on how the conjunctural understanding of history and reality could offer a theoretical starting point for a subversive political strategy

**Theory in Social and Cultural Anthropology** R. Jon McGee, Richard L. Warms, 2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all Students in particular are likely to turn to the web to find quick background information on theorists and theories However most web based information is inaccurate and or lacks depth Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics the who what where how and why if you will In response SAGE Reference plans to publish the two volume Theory in Social and Cultural Anthropology An Encyclopedia Features Benefits Two volumes containing approximately 335 signed entries provide users with the most authoritative and thorough reference resource available on anthropology theory both in terms of breadth and depth of coverage To ease navigation between and among related entries a Reader's Guide groups entries thematically and each entry is followed by Cross References In the electronic version the Reader's Guide combines with the Cross References and a detailed Index to provide robust search and browse capabilities An appendix with a Chronology of Anthropology Theory allows students to easily chart directions and trends in thought and theory from early times to the present Suggestions for Further Reading at the end of each entry and a Master Bibliography at the end guide readers to sources for more detailed research and discussion

**Criticism of Religion** Roland Boer, 2009-06-24 Criticism of Religion offers a spirited critical commentary on the engagements with religion and theology by a range of leading Marxist philosophers and critics Lucien Goldmann Fredric Jameson Rosa Luxemburg Karl Kautsky Julia Kristeva Alain Badiou Giorgio Agamben Georg Lukacs and Raymond Williams Apart from offering sustained critique the aim is to gather key insights from these critics in order to develop a comprehensive theory of religion The book follows on the heels of the acclaimed Criticism of Heaven being the second volume of a five volume series called Criticism of Heaven and Earth

**Following Marx** Michael Lebowitz, 2009-01-15 What does it mean to follow Marx In this examination of Marx's methodology combined with specific applications on topics in political economy such as neo Ricardian theory analytical Marxism the falling rate of profit crisis theory monopoly capital Paul Sweezy advertising and the capitalist state this volume argues that the failure to understand or explicit rejection of Marx's method has led astray many who consider themselves Marxists By focusing particularly upon the concept of a totality and the necessary form of appearance of capital as many capitals in competition Following Marx both demonstrates why Marx insisted that in competition everything is reversed and provides a guide for following Marx

**Postcolonial Studies** Benita Parry, 2004-07-31 A powerful selection of essays by one of the most important critics in

postcolonial studies arguing for practices of reading and criticism fully attentive to historical circumstances and socio material conditions

**Marxism, Modernity and Postcolonial Studies** Crystal Bartolovich, Neil Lazarus, 2002-07-11 At a time when even much of the political left seems to believe that transnational capitalism is here to stay Marxism Modernity and Postcolonial Studies refuses to accept the inevitability of the so called New World Order By giving substantial attention to topics such as globalisation racism and modernity it provides a

specifically Marxist intervention into postcolonial and cultural studies An international team of contributors locate a common ground of issues engaging Marxist and postcolonial critics alike Arguing that Marxism is not the inflexible monolithic irrelevance some critics assume it to be this collection aims to open avenues of debate especially on the crucial concept of modernity which have been closed off by the widespread neglect of Marxist analysis in postcolonial studies Politically focused at times polemical and always provocative this book is a major contribution to contemporary debates on literary theory cultural studies and the definition of postcolonial studies **Contemporary Arab Thought** Ibrahim M.

Abu-Rabi,2003-11-20 Contemporary Arab Thought is a multifaceted book encompassing a constellation of social political religious and ideological ideas that have evolved over the past two hundred years ideas that represent the leading positions of the social classes in modern and contemporary Arab societies Distinguished Islamic scholar Ibrahim Abu Rabi addresses such questions as the Shari ah human rights civil society secularism and globalisation This is complimented by a focused discussion on the writings of key Arab thinkers who represent established trends of thought in the Arab world including Muhammad Abid al Jabiri Adallah Laroui Muhammad al Ghazali Rashid al Ghannoushi Qutatnine Zurayk Mahdi Amil and many others Before 1967 some Arab countries launched hopeful programmes of modernisation After the 1967 defeat with Israel many of these hopes were dashed This book retraces the Arab world s aborted modernity of recent decades Abu Rabi explores the development of contemporary Arab thought against the historical background of the rise of modern Islamism and the impact of the West on the modern Arab world Modern Critical Thought Drew Milne,2008-04-15 This anthology presents a series of texts in which major twentieth century thinkers engage in dialogue with their predecessors Presents a series of texts in which major twentieth century thinkers engage in dialogue with their predecessors Offers an innovative way into understanding modern critical thought Spans the period from Marx to the present day A conversation of ideas emerges between one generation and the next Editorial material defines key terms and maps out contested terrain Each piece is prefaced by contextualising notes and suggestions for further reading **Biography of a Blunder** Dileep Edara,2016-02-29

Engaging with a critical analysis of the base and superstructure thesis regarding which a surprising number of reputed Marxist thinkers betray a perpetual ambivalence by frequently deploying it in a variety of contexts but simultaneously airing various reservations about it this book proposes a radical departure from the presently predominant understanding of it The popular view of the base as comprising economics and superstructure as encompassing almost all other spheres of social life is criticised as panoramic or panoptic or the extended version to which Marx s rigorously defined base of production relations and superstructure of politico legal spheres is juxtaposed Revisiting Marx s formulations in his famous 1859 Preface described here as his purloined letters the study rehabilitates his restricted version and upholds its conceptual superiority over its extended avatar that is currently ubiquitous The substitution of Marx s restricted version with the widely believed extended version of the thesis is characterised here as a blunder and this book traces the biography of this blunder through

the intricate and tortuous theoretical developments that traverse a transnational and multidisciplinary territory constituting the history of Marxism The last chapter argues for a paradigm shift in favour of the mode of production thesis in order to redeem the holistic vision of Marx This shift is necessitated by the extenuation of the status of the base and superstructure thesis that results from the restoration of Marx's restricted version This chapter grapples with the issues involved in preparing the ground for that shift It also contends that although these theoretical shifts are never formulated in a conscious and conclusive manner as is done here the best practices in Marxist analyses are always inspired by the methodological implications of the mode of production thesis and for this reason the thesis is claimed to be the conceptual unconscious of Marxism

The New Materialism Geoff Pfeifer, 2015-02-11 Alain Badiou and Slavoj Žižek have become two of the dominant voices in contemporary philosophy and critical theory In this book Geoff Pfeifer offers an in depth look at their respective views Using Louis Althusser's materialism as a starting point which as Pfeifer shows was built partially as a response to the Marxism of the Parti Communiste Français and partially in dialogue with other philosophical movements and intellectual currents of its times the book looks at the differing ways in which both Badiou's and Žižek's work attempt to respond to issues that arise within the Althusserian edifice Pfeifer argues here that ultimately Žižek's materialism succeeds in responding to these issues in ways that Badiou's does not In building this argument Pfeifer engages not only with the work of Althusser Badiou and Žižek and their intellectual backgrounds but also with much of the contemporary scholarship surrounding these thinkers As such Pfeifer's book is an important addition to the ongoing debates within contemporary critical theory
