Bibliographies in Music serves as a reference guide to Menotti's career. A brief biographical sketch precedes a chronologically arranged bibliography of general writings by and about Menotti followed by a detailed list of works alphabetically arranged. A bibliography of writings about specific compositions complete with selected contemporary critical reviews includes data on premiers and other significant performances and discographies of recordings. Opera music scholars along with Menotti fans will appreciate this detailed guide to available research materials. Intended as a scholarly resource, this volume also includes two appendices: a chronological list of works and a genre list of works. An author index and a separate performer index are provided.

Fortunato Stephanie Jensen-Moulton, 2013-01-01. Book URL: <https://www.areditions.com/rr/rra/a075.html>. In 1958 American composer Miriam Gideon (1906-1996) completed her only opera *Fortunato* based on the eponymous tragicomic farce by the Spanish playwrights Serafín and Joaquín Álvarez Quintero (1871-1938 and 1873-1944) respectively. Although Gideon's opera has never received a full performance and has only been available until now in a marginally legible autograph copy of the piano vocal score, it may be regarded as a central work within Gideon's style and oeuvre and an important American operatic work of the 1950s. In addition to the fully edited piano vocal score, the edition includes a significant introductory essay that summarizes Gideon's compositional activity during the post-World War II years, her most active period. The essay also provides a context for Gideon's opera by examining attitudes toward women composers in the American 1950s and by placing the opera's main themes into dialogue with recently discovered personal writings by the composer. A supplement to this edition includes Gideon's full orchestration of *Fortunato*'s first scene, recently discovered among the composer's personal papers, which she may have intended as a sample piece to be pitched to television networks.

Arias, Ensembles, & Choruses John Yaffé, David Daniels, 2011-11-17. Conductors John Yaffé and David Daniels have created a one-stop sourcebook for orchestras, opera companies, conductors, and librarians who research and/or prepare programs of vocal excerpts such as solos, ensembles, and choruses for concert performance. In this book, readers will find detailed information on a vast repertoire of vocal pieces commonly extracted from operas, operettas, musicals, and oratorios: more than 1,750 excerpts from 450 parent works. Modeled on Daniels' *Orchestral Music*, *Arias, Ensembles, Choruses* includes basic historical details about each parent work as well as extract titles, subtitles, voice types, keys, durations, locations in the original work, with page numbers in both full scores and piano vocal scores, and exact instrumentation. It also lists the publishers that make available the orchestral materials for just the excerpt being programmed, independent of the full parent work. Until now, conductors and orchestra librarians commonly had to first leaf through full scores searching for one elusive three-minute aria, after another, only to then consult multiple publishers' catalogues to compile crucial information on all the excerpts proposed for a concert or recording. This book constitutes a single source for finding that information. In many cases, the individual entries include valuable insider information on common performance practice, including start and stop points.
