McAvoy,2024-02-16 Faith is under assault today in the media and on college campuses Numerous recent surveys show that college professors and contemporary scientists have lower religiosity compared to the general population Parents are concerned that their children s faith is not as strong as it should be Unfortunately scientific advances can lead people to think that faith is pass supplanted by science and no longer necessary The average person is in awe of the accomplishments of science but overwhelmed by their complexity The purpose of this book is to demonstrate what one can learn from modern science that leads to the conclusion that God created our universe This book demonstrates how cosmology physics astronomy and evolution do not conflict with faith but actually strongly support faith in God The title of this book God the Geometer describes an image which appeared in a thirteenth

century codex The image conveys the message that God created the universe using geometric and harmonic principles

Light and Sound Richard Walker, 2005-12-15 Explains how colors and rainbows are made why some sounds are quiet and some are loud and how ears work **DNA Witnessed God's Creation** Victor W Chang, Guoping Song, 2020-07-04 Who are we Where are we from These questions have troubled people for centuries Textbooks have long taught us that humans

evolved from apes Today a new science Molecular Anthropology tells us that nearly 7 billion humans in the world share a common grand grand father the Y chromosome Adam And they also share a common grand grand mother the Mitochondrial Eve The difference in DNA coding is only one thousandth between any persons in the world After reading this book you will be convinced that humans could not have been the result of Evolution In 1987 Professor Allan Wilson s research team at UC Berkeley proposed the Mitochondrial Eve Theory by DNA coding that all humans originated from one woman who lived about 200 000 years ago In 1995 Drs Dorit et proposed the Adam Theory by DNA coding of Y Chromosomal that all humans originated from one man There are two kinds of DNA encoding in our body chromosomal DNA and mitochondrial DNA The chromosome consists of three types autosome Y chromosome and X chromosome The Eve Theory is founded on the mitochondrial DNA while the Adam Theory is founded on the Y chromosome So what can we see from the autosome The simple biological fact that there are no differences between the autosomes of male and female tells us a striking truth that is the autosome of all men in the world must come from only one original version and cannot be produced randomly Therefore the authors of this book have established a The only one Adam theory by the consistency of autosomal DNA coding of men and women All human beings on earth came from him and the earliest female ancestor came from this male ancestor In addition we also provide you with an answer which science cannot offer Creationism
