Creating Loyalty in Youth Travel Stephen Lowy,2025-06-03 By attracting young people travel brands and destinations can create a lifetime of value with young people often staying longer spreading their spend across a destination contributing to the local economy and returning again and again Creating Loyalty in Youth Travel explores the varying and unique needs of young tourists from backpackers to youth mobility workers and the challenges brands and destinations face in attracting and retaining them While travel professionals often target certain sectors such as business or luxury travellers this can be a short sighted strategy Youth travellers can be a more sustainable market as they frequently form an emotional tie to a destination or travel brand driving them to return throughout their lives sharing with family and friends and increasing their spend as they age This book looks at how successful brands and destinations prioritize developing long term relationships with travellers early on so that they can continue to cater to loyal customers throughout their lives with different offerings from within the same brand Some countries and travel brands excel at this building it into the heart of their strategy while others have ignored this key market to their own detriment Through extended interviews from leaders in the sector such as Marriott and Tourism Australia this book helps tourism and hospitality professionals to understand the needs of the youth traveler market and harness the potential of it to build a long term strategy for the tourism industry **The College**

Rubin,2020-08-25 Whenever socialism has been tried it has led to failure and often great human misery Nonetheless many young people prefer socialism to capitalism There are dozens of books and articles explaining the failures of socialism but these do not seem to have an impact on students One reason for this may be that the books are written in abstract terms and do not relate to the lives of the readers This book takes a different approach It asks the question What will my life be like if I live under socialism Professor Paul Rubin a leading expert on socialism and capitalism shows that under socialism People will be poorer There will be less freedom Goods will be of lower quality but more expensive There will be less innovation The environment will be in worse shape He also shows that the U S is the most productive and richest country that has ever existed and that the current level of wealth in the U S is due to capitalism Lastly he demonstrates that many critiques of capitalism such as it leads to excessive inequality are mistaken or ill founded Professor Rubin points out an important paradox The young people who are the sharpest critics of capitalism are themselves highly dependent in their daily lives on the products of capitalism These include computers themselves mobile phones Amazon Facebook Instagram Uber Skype Spotify computer games and almost any other modern product Additionally the creators of these products are among the millionaires and billionaires despised by socialists *FCC Record* United States. Alleman,Cara Cliburn Allen,Sarah Madsen,2025-03-04 How exceptional low income students navigate and pursue opportunity in prestige oriented universities at the personal cost of hunger Beneath the veneer of prestige and promise a hidden issue pervades the campuses of America s selective universities In Starving the Dream Nathan F Alleman Cara Cliburn Allen and Sarah E Madsen reveal the startling contradiction between the celebrated opportunities of these prestige oriented institutions and the food insecurity that exceptional low income students must navigate within environments of plenty Through meticulous case study research the authors leverage student and administrative interviews observations and official and alternative campus tours to uncover how normatively affluent universities are rife with expectations of extensive campus involvement and material displays of wealth However visions of the ideal student experience are only attainable for low income students at the cost of either involvement or consistent food access Critiquing the social and symbolic meaning that food takes on in affluent universities where students are socialized into coveting upper middle class lifestyle markers such as gourmet coffee and branded campus clothing the book argues that administrators must better align services and
