Body And Soul Notebooks Of An Apprentice Boxer:

Body & Soul Loïc J. D. Wacquant, 2004 When French sociologist Loïc Wacquant signed up at a boxing gym in a black neighborhood of Chicago's South Side he had never contemplated getting close to a ring let alone climbing into it Yet for three years he immersed himself among local fighters amateur and professional He learned the Sweet science of bruising participating in all phases of the pugilist's strenuous preparation from shadow boxing drills to sparring to fighting in the Golden Gloves tournament In this experimental ethnography of incandescent intensity the scholar turned boxer supplies a model for a carnal sociology capable of capturing the taste and ache of action Body and Soul marries the analytic rigor of the sociologist with the stylistic grace of the novelist to offer a compelling portrait of a bodily craft and of life and labor in the black American ghetto but also a fascinating tale of personal transformation and social transcendence

Body & Soul Loïc Wacquant, 2003-12-11 When French sociologist Loïc Wacquant signed up at a boxing gym in a black neighborhood of Chicago's South Side he had never contemplated getting close to a ring let alone climbing into it Yet for three years he immersed himself among local fighters amateur and professional He learned the Sweet science of bruising participating in all phases of the pugilist's strenuous preparation from shadow boxing drills to sparring to fighting in the Golden Gloves tournament In this experimental ethnography of incandescent intensity the scholar turned boxer fleshes out Pierre Bourdieu's signal concept of habitus deepening our theoretical grasp of human practice And he supplies a model for a carnal sociology capable of capturing the taste and ache of action Body Soul marries the analytic rigor of the sociologist with the stylistic grace of the novelist to offer a compelling portrait of a bodily craft and of life and labor in the black American ghetto at century's end

Symposium on Loïc Wacquant's Body and Soul Javier Auyero, 2005 *Encounters of Body and Soul in Contemporary Religious Practices* Anna Fedele, Ruy Llera Blanes, 2011-09-01 Social scientists and philosophers confronted with religious phenomena have always been challenged to find a proper way to describe the spiritual experiences of the social group they were studying The influence of the Cartesian dualism of body and mind or soul led to a distinction between non material spiritual experiences i.e. related to the soul and physical mechanical experiences i.e. related to the body However recent developments in medical science on the one hand and challenges to universalist conceptions of belief and spirituality on the other have resulted in body and soul losing the reassuring solid contours they had in the past Yet in Western culture the body soul duality is alive not least in academic and media discourses This volume pursues the ongoing debates and discusses the importance of the body and how it is perceived in contemporary religious faith what happens when body and soul are unseparated entities Is it possible even for anthropologists and ethnographers to escape from natural dualism The contributors here present research in novel empirical contexts the benefits and limits of the old dichotomy are discussed and new theoretical strategies proposed

What Happens When We Practice Religion? Robert Wuthnow, 2020-05-19 He favors the use of a broad range of analytic tools drawn from multiple disciplines and approaches to the study of religion The five

chapters of this book describe the central concepts and arguments now advancing the study of religious practice Chapter 1 entitled Theories discusses the theoretical contributions associated with the aforementioned shift in religious studies to the investigation of religious practice Chapter 2 Situations discusses how religious activities and experiences are shaped by the physical and temporal spaces in which social action occurs Chapter 3 Intentions takes on an important topic that has proven difficult to study from a social science perspective Feelings are the focus of Chapter 4 and the role of Bodies is addressed in Chapter 5

Fighting Scholars Raúl Sánchez García, Dale C. Spencer, 2013-09-01 Fighting Scholars offers the first book length overview of the ethnographic study of martial arts and combat sports The book s main claim is that such activities represent privileged grounds to access different social dimensions such as emotion violence pain gender ethnicity and religion In order to explore these dimensions the concept of habitus is presented prominently as an epistemic remedy for the academic distant gaze of the effaced academic body The book s most innovative features are its empirical focus and theoretical orientation While ethnographic research is a widespread and popular approach within the social sciences combat sports and martial arts have yet to be sufficiently interrogated from an ethnographic standpoint The different contributions of this volume are aligned within the same project that began to crystallize in Lo c Wacquant s Body and Soul the construction of a carnal sociology that constitutes an exploration of the social world from the body

Global Perspectives on Women in Combat Sports Christopher R. Matthews, Alex Channon, 2016-04-29 This volume offers a wide reaching overview of current academic research on women s participation in combat sports within a range of different national and trans national contexts detailing many of the struggles and

opportunities experienced by women at various levels of engagement within sports such as boxing wrestling and mixed martial arts *Ultimate Fighting and Embodiment* Dale C. Spencer, 2013-06-19 Mixed martial arts MMA is an emergent sport where competitors in a ring or cage utilize strikes punches kicks elbows and knees as well as submission techniques to defeat opponents This book explores the carnal experience of fighting through a sensory ethnography of MMA and how it transgresses the cultural scripts of masculinity in popular culture Based on four years of participant observation in a local MMA club and in depth interviews with amateur and professional MMA fighters Spencer documents fighters training regimes and the meanings they attach to participation in the sport Drawing from the philosophical phenomenology of Martin Heidegger Maurice Merleau Ponty and Jean Luc Nancy this book develops bodies centered ontological and epistemological grounding for this study Guided by such a position it places bodies at the center of analysis of MMA and elucidates the embodied experience of pain and injury and the sense and rhythms of fighting *Invisible Migrant Nightworkers in 24/7 London* Julius-Cezar MacQuarie, 2023-08-30 This book captures the hidden labour of migrant nightworkers in 24 7 London It argues that late capitalism normalises nightwork yet refuses to recognise the associated problems from lack of decent working conditions to the seizure of the workers private time for self development family and social life The book shows how the articulation of nightworkers subjectivities and socialities happens at the intersection between migration precarity and nightwork and traces how each of these dimensions magnifies the lived experience of the others It further reveals that any possibilities for cooperation or solidarity in the workplace between migrant nightworkers become fragile and secondary to their survival of the nightshift It also elucidates the mechanisms that hinder cohesion between vulnerable groups placed temporally and socially on a different par to the mainstream societies As such this book is an excellent resource for labour regulators experts and student researchers in migration work and gender The book offers a deeply empathic and engaging portrayal of the production of disciplined and exploitable manual labor in permanent nightshift cities It cogently unpacks the experiences of embodied precarity through the largely unseen micro practices of workplaces that entrap migrant laborers The nightnographic component adds an original dimension to the inquiry Violetta Zentai Central European University

Criminalization Antony Duff, Lindsay Farmer, Sandra E. Marshall, Massimo Renzo, Victor Tadros, 2014 The Criminalization

series arose from an interdisciplinary investigation into criminalization focusing on the principles that might guide decisions about what kinds of conduct should be criminalized and the forms that criminalization should take. Developing a normative theory of criminalization the series tackles the key questions at the heart of the issue: what principles and goals should guide legislators in deciding what to criminalize? How should criminal wrongs be classified and differentiated? How should law enforcement officials apply the law's specifications of offences? The fourth book in the series examines the political morality of the criminal law, exploring general principles and theories of criminalization. Chapters provide accounts of the criminal law in the light of ambitious theories about moral and political philosophy: republicanism and contractarianism, or reflect upon on the success of important theories of criminalization by viewing them in a novel light. Ideas that are fundamental to any complete theory of the criminal law: liberty, harm, and the effect on victims are investigated in depth. Sociological investigation of the criminal law grounds a critical investigation into the principles of criminalization both as a legislative matter and with respect to criminalization practices in contemporary and historical contexts. The volume broadens our conceptions of the theory of criminalization and clarifies the role of the series in the development of this theory. It is essential reading for all interested in legal, political, and social theories of criminalization.

The Urban Geography of Boxing Benita Heiskanen, 2012 This book is an interdisciplinary cultural examination of twenty first century boxing as a professional sport, a bodily labor, a lucrative business, a popular entertainment and an instrument of ideology. Based on ethnographic fieldwork and interviews conducted with Latino boxers, women boxers and boxing insiders in Texas, it discusses boxing from the vantage point of the sundry players who are involved with it: the labor force, promoters, handlers, ringside officials, medical professionals, media and the audiences. The various parties have multiple stakes in the sport. For some, boxing is about physical empowerment; others are in it for the money; some deploy it for ideological purposes; yet others use it to claim their 15 minutes of fame, and frequently the various interests overlap. In this book, Benita Heiskanen makes a broader connection between boxing and the spatial organization of racialized, class based and gendered bodies within particular urban geographies. Journeying actual sites where the sport is organized, such as the barrio boxing gym and competition venues, she maps the ways in which boxing insiders negotiate a variety of conflicting agendas at local, regional and national scales. Beyond the United States, the worker athletes conduct their labor within global socioeconomic conditions, business networks and legal principles. Through this sporting context, Heiskanen's discussion discloses some complex socio-historical, cultural

and political power relations between urban margins and centers with ramifications far beyond boxing This book will be of interest to readers in Sport Studies Cultural Studies Cultural Geography Gender Studies Critical Race Theory Labor Studies and American Studies
