Objects in Exile Robin Schuldenfrei, 2024-01-23 An essential examination of how emigration and resettlement defined modernism In the fraught years leading up to World War II many modern artists and architects emigrated from continental Europe to the United States and Britain The experience of exile infused their modernist ideas with new urgency and forced them to use certain materials in place of others modify existing works and reconsider their approach to design itself In *Objects in Exile* Robin Schuldenfrei reveals how the process of migration was crucial to the development of modernism

charting how modern art and architecture was shaped by the need to constantly face and transcend the materiality of things Taking readers from the prewar era to the 1960s Schuldenfrei explores the objects these migrants brought with them what they left behind and the new works they completed in exile She argues that modernism could only coalesce with the abandonment of national borders in a process of emigration and resettlement and brings to life the vibrant postwar period when avant garde ideas came together and emerged as mainstream modernism Examining works by Walter Gropius László Moholy Nagy Lucia Moholy Herbert Bayer Anni and Josef Albers and others Schuldenfrei demonstrates the social impact of art objects produced in exile Shedding critical light on how the pressures of dislocation irrevocably altered the course of modernism Objects in Exile shows how artists and designers forced into exile by circumstances beyond their control changed in unexpected ways to meet the needs and contexts of an uncertain world

An Introduction to Design and Culture Penny Sparke, 2025-10-31 An Introduction to Design and Culture provides a comprehensive guide to the changing relationships between design and culture from 1900 to the present day with an emphasis on five main themes Design and consumption Design and technology The design profession Design theory Design and identities This fifth edition extends the traditional definition of design to embrace its more recent manifestations which include service design user interface design co design and sustainable design It also discusses the relationship between design and the new media and the effect of globalisation and transnationalism on design Most importantly it looks at its contents through a new lens which acknowledges the post industrial post colonial post modern and arguably post design climate of the twenty first century and the challenges that it poses Taking a broadly chronological approach Professor Sparke employs historical methods to show how these themes developed through the twentieth century and into the twenty first century and played a role within modernism post modernism and beyond Over a hundred illustrations are used throughout to demonstrate the breadth of design and examples among them design in Modern China the work of Apple Computers Ltd and design thinking are used to elaborate key ideas The new edition remains essential reading for undergraduate and postgraduate students of design studies cultural studies and visual arts

Architecture and Design at the Museum of Modern Art Thomas S. Hines, 2019-01-22 A comprehensive and fascinating look at the history of the Museum of Modern Art's Architecture and Design Department under the leadership of the influential curator Arthur Drexler Arthur Drexler 1921 1987 served as the curator and director of the Architecture and Design Department at the Museum of Modern Art MOMA from 1951 until 1986 the longest curatorship in the museum's history Over four decades he conceived and oversaw trailblazing exhibitions that not only reflected but also anticipated major stylistic developments Although several books cover the roles of MoMA's founding director Alfred Barr and the department's first curator Philip Johnson this is the only in depth study of Drexler who gave the department its overall shape and direction During Drexler's tenure MoMA played a pivotal role in examining the work and confirming the reputations of twentieth century architects among them

Frank Lloyd Wright Le Corbusier Richard Neutra Marcel Breuer and Ludwig Mies van der Rohe Exploring unexpected subjects from the design of automobiles and industrial objects to a reconstruction of a Japanese house and garden Drexler's boundary pushing shows promoted new ideas about architecture and design as modern arts in contemporary society The department's public and educational programs projected a culture of popular accessibility offsetting MoMA's reputation as an elitist institution Drawing on rigorous archival research as well as author Thomas S Hines's firsthand experience working with Drexler Architecture and Design at the Museum of Modern Art analyzes how MoMA became a touchstone for the practice and study of midcentury architecture *Objects of Design from The Museum of Modern Art* Paola Antonelli, 2003
