Pendleton, 2014-07 NARCO BREAKDOWN The drug syndicate running the heroin pipeline from the Golden Crescent of Afghanistan Iran and Pakistan crosses a line when it begins hijacking the narco traffic markets controlled by Asia's Triads When the ensuing turf war claims lives on America's streets Mack Bolan prepares to do battle without official sanction The Executioner is willing to do or die to prevent a bloodbath on U.S. soil In a retaliatory strike Bolan hits New York's Chinatown where a scorched earth message ignites fear and uncertainty Exactly as planned Now all he has to do is follow the panicked trail to the big predators across the ocean in France and Hong Kong As his relentless pursuit puts a savage enemy on the defensive the Executioner homes in for the kill To cripple both factions he must successfully play the rivals off each other Victory means both cartels go down in flames **Cumulated Index Medicus**, 1987 **National Library of Medicine**

Current Catalog National Library of Medicine (U.S.), 1992 **The People's Doctors** John S. Haller, 2000 Samuel Thomson born in New Hampshire in 1769 to an illiterate farming family had no formal education but he learned the elements of botanical medicine from a root doctor who he met in his youth Thomson sought to release patients from the harsh bleeding or purging regimens of regular physicians by offering inexpensive and gentle medicines from their own fields and gardens He melded his followers into a militant corps of dedicated believers using them to successfully lobby state legislatures to pass medical acts favorable to their cause John S. Haller Jr points out that Thomson began his studies by ministering to his own family He started his professional career as an itinerant healer traveling a circuit among the small towns and villages of Maine New Hampshire and Massachusetts Eventually he transformed his medical practice into a successful business

enterprise with agents selling several hundred thousand rights or franchises to his system His popular New Guide to Health 1822 went through thirteen editions including one in German and countless thousands were reprinted without permission Told here for the first time Haller s history of Thomsonism recounts the division within this American medical sect in the last century While many Thomsonians displayed a powerful vested interest in anti intellectualism a growing number found respectability through the establishment of medical colleges and a certified profession of botanical doctors The People s Doctors covers seventy years from 1790 when Thomson began his practice on his own family until 1860 when much of Thomson s medical domain had been captured by the more liberal Eclectics Eighteen halftones illustrate this volume **The U.S. Army Combat Historian and Combat History Operations** Kathryn Roe Coker,Jason Wetzel,2023-09-14 How is history useful for an operational commander or to soldiers in general What role does history have for doctrine and training to the U S Army as an institution These are questions this book answers as the authors narrate the development combat historian and the evolving role of combat historians as they develop history into a useful tool for informing training operations and doctrine development New York Journal of Books In World War I Major General Pershing proposed the idea of establishing a historical office within the AEF headquarters The War Department reorganized the General Staff to include a Historical Branch Evidence shows that soldiers acting as historians went down range albeit not into combat By World War II the situation had changed whether S L A Marshall s popping out of a billet in Sibret as a shells exploded on the road Forrest Pogue s typing on a little camp desk under an apple tree Chester Starr s terrain reconnaissance in the Mediterranean theater or Ken Hechler s command of a four man historical team interviewing soldiers at the Remagen Bridge and searching through secret documents the World War II combat historians were there behind and on the front lines with a notebook in one hand and their carbine in the other hand ever ready to collect battlefield information Eight historical service detachments were deployed to Korea The youngest commander 1st Lieutenant Bevin Alexander noted We were on the front lines the whole time We would interview the people afterwards and create a battle study After the Korean War the duties of the combat historian further evolved as what became the Center of Military History published doctrine about military history detachments MHDs As America s immersion in Vietnam escalated there was concern regarding historical coverage Chief of Military History Brigadier General Hal Pattison established a network of historical teams to collect information on the U S Army in the war A major development in the history program and in deploying MHDs came with the establishment of Headquarters U S Army Vietnam USARV under General William C Westmoreland s command In 1965 the history office was organized at Headquarters U S Army Vietnam USARV MHDs were deployed across Vietnam conducting combat after action interviews and collecting documents This study focuses on U S Army historical programs during combat operations from World War I to the Vietnam War with particular attention on the combat historians those individuals deployed to a theater of war with the mission of documenting the actions of that theater for current and future historical use Communication, Translation, and

Community in the Middle Ages and Early Modern Period Albrecht Classen, 2022-08-22 Literature serves many purposes and one of them certainly proves to be to convey messages wisdom and instruction and this across languages religions and cultures Beyond that as the contributors to this volume underscore people have always endeavored to reach out to their community members that is to build community to learn from each other and to teach Hence this volume explores the meaning of communication translation and community building based on the medium of language While all these aspects have already been discussed in many different venues the contributors endeavor to explore a host of heretofore less considered historical religious literary political and linguistic sources While the dominant focus tends to rest on conflicts hostility and animosity in the pre modern age here the emphasis rests on communication with its myriad of challenges and potentials for establishing a community As the various studies illustrate a close reading of communicative issues opens profound perspectives regarding human relationships and hence the social context This understanding invites intensive collaboration between medical historians literary scholars translation experts and specialists on religious conflicts and discourses We also learn how much language carries tremendous cultural and social meaning and determines in a most sensitive manner the interactions among people in a communicative and community based fashion The Gilded Cage Ya-Wen Lei, 2023-11-21 How China's economic development combines a veneer of unprecedented progress with the increasingly despotic rule of surveillance over all aspects of life Since the mid 2000s the Chinese state has increasingly shifted away from labor intensive export oriented manufacturing to a process of socioeconomic development centered on science and technology Ya Wen Lei traces the contours of this techno developmental regime and its resulting form of techno state capitalism telling the stories of those whose lives have been transformed for better and worse by China's rapid rise to economic and technological dominance Drawing on groundbreaking fieldwork and a wealth of in depth interviews with managers business owners workers software engineers and local government officials Lei describes the vastly unequal values assigned to economic sectors deemed high end versus low end and the massive expansion of technical and legal instruments used to measure and control workers and capital She shows how China's rise has been uniquely shaped by its time compressed development the complex relationship between the nation's authoritarian state and its increasingly powerful but unruly tech companies and an ideology that fuses nationalism with high modernism technological fetishism and meritocracy Some have compared China's extraordinary transformation to America's Gilded Age This provocative book reveals how it is more like a gilded cage one in which the Chinese state and tech capital are producing rising inequality and new forms of social exclusion The Craft of Research, Third Edition Wayne C. Booth, Gregory G. Colomb, Joseph M. Williams, 2009-05-15 With more than 400 000 copies now in print The Craft of Research is the unrivaled resource for researchers at every level from first year undergraduates to research reporters at corporations and government offices Seasoned researchers and educators Gregory G Colomb and Joseph M Williams present an updated third edition of their classic handbook whose first

and second editions were written in collaboration with the late Wayne C Booth The Craft of Research explains how to build an argument that motivates readers to accept a claim how to anticipate the reservations of readers and to respond to them appropriately and how to create introductions and conclusions that answer that most demanding question So what The third edition includes an expanded discussion of the essential early stages of a research task planning and drafting a paper The authors have revised and fully updated their section on electronic research emphasizing the need to distinguish between trustworthy sources such as those found in libraries and less reliable sources found with a quick Web search A chapter on warrants has also been thoroughly reviewed to make this difficult subject easier for researchers Throughout the authors have preserved the amiable tone the reliable voice and the sense of directness that have made this book indispensable for anyone undertaking a research project

Joudrey, Arlene G. Taylor, David P. Miller, 2015-09-29 A new edition of this best selling textbook reintroduces the topic of library cataloging from a fresh modern perspective Not many books merit an eleventh edition but this popular text does Newly updated Introduction to Cataloging

and Classification provides an introduction to descriptive cataloging based on contemporary standards explaining the basic tenets to readers without previous experience as well as to those who merely want a better understanding of the process as it exists today The text opens with the foundations of cataloging then moves to specific details and subject matter such as Functional Requirements for Bibliographic Records FRBR Functional Requirements for Authority Data FRAD the International Cataloging Principles ICP and RDA Unlike other texts the book doesn't presume a close familiarity with the MARC bibliographic or authorities formats ALA's Anglo American Cataloging Rules 2nd Edition revised AACR2R or the International Standard Bibliographic Description ISBD Subject access to library materials is covered in sufficient depth to make the reader comfortable with the principles and practices of subject cataloging and classification In addition the book introduces MARC BIBFRAME and other approaches used to communicate and display bibliographic data Discussions of formatting presentation and administrative issues complete the book questions useful for review and study appear at the end of each chapter

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1971 Critical Issues in Healthcare Policy and Politics in the Gulf Cooperation Council States Ravinder Mamtani, Albert B.

Lowenfels, 2018-01-02 This is the first book to examine challenges in the healthcare sector in the six Gulf Cooperation Council GCC countries Saudi Arabia Oman the United Arab Emirates Qatar Kuwait and Bahrain These countries experienced remarkably swift transformations from small fishing and pearling communities at the beginning of the twentieth century to wealthy petro states today Their healthcare systems however are only now beginning to catch up Rapid changes to the population and lifestyles of the GCC states have completely changed and challenged the region's health profile and infrastructure While major successes in combatting infectious diseases and improving standards of primary healthcare are reflected in key health indicators new trends have developed increasingly lifestyle or wealthy country diseases such as diabetes heart disease and cancer have replaced the old maladies To meet these emerging healthcare needs GCC states require highly trained and skilled healthcare workers an environment that supports local training state of the art diagnostic laboratories and hospitals research production and dissemination and knowledge acquisition They face shortages in most if not all of these areas This book provides a comprehensive study of the rapidly changing health profile of the region the existing conditions of healthcare systems and the challenges posed to healthcare management across the six states of the GCC
