Civic Education for SS 1-3 Nigeria. Federal Ministry of Education, 2009 **Civic Education and Youth Political Participation**, 2009-01-01 Why does it appear that many young people are disengaging from democracy and political participation For many governments politicians academics social commentators and researchers this is a serious and challenging problem Consequently widespread interest exists on how to engage young people in politics and democracy Civic education has re emerged as a possible answer to this question though not necessarily in the form in which it may be currently known This book examines research into issues about the engagement of young people in politics and democracy and examines research on civic education applications and programs which may address concerns about youth political participation Murray Print and Henry Milner are professors from the University of Sydney and the Universite de Montreal respectively They have brought together a group of leading researchers exploring the relationship between political participation and civic education to examine this relationship in greater depth **Narrating the Soviet Era in Russian School History Textbooks** Olga Konkka, 2025-09-03 This study focuses on how Russian history textbooks published between 1992 and 2021 dealt with the topic of the Soviet period 1917 1991 Representations of this part of Russia s past in school manuals have provoked vivid debates and bolstered government intervention in the field while a gradual shift towards a less critical narrative of the USSR in more recent textbooks is often presented as directed by Vladimir Putin This study combines research into these texts and inquiry into those who write publish approve or criticize them Bringing together these perspectives provides a more complex view of school textbooks as final products of both top down and bottom up processes This volume is aimed at postgraduates researchers and academics specializing in Soviet history contemporary Russian politics and society and history education and textbooks **Social Studies** Gregory Paul Wegner, Association for Supervision and Curriculum Development, 2000 **Commitment, Character, and Citizenship** Hanan A. Alexander, Ayman K. Agbaria, 2012 As liberal democracies include increasingly diverse and multifaceted populations the longstanding debate about the role of the state in religious education and the place of religion in public life seems imperative now more than ever The maintenance of religious schools and the planning of religious education curricula raise a profound challenge Too much state supervision can be conceived as interference in religious freedom and as a confinement of the right to cultural liberty Too little supervision can be seen as neglecting the development of the liberal values required to live and work in a democratic society and as abandoning those who within their communities wish to attain a more rigorous education for citizenship and democracy This book draws together leading educationalists philosophers theologians and social scientists to explore issues problems and tensions concerning religious education in a variety of international settings The contributors explore the possibilities and limitations of religious education in preparing citizens in multicultural and multi religious democratic societies *The Social Studies Professional*, 2005 *Learning in the Fast Lane* Chester E.
