The Problem of College Readiness William G. Tierney, Julia C. Duncheon, 2015-03-30 Examines how states schools and postsecondary institutions might best help improve college readiness and completion Though more students are entering college many drop out especially those who are low income and or of color To address this problem educational stakeholders have focused on the concept of college readiness or the preparation a student needs to succeed in college However what it means to be college ready and how to help more students become ready are questions without clear answers By way of historical and contemporary analyses this book uses California as a case study to demonstrate how the state has endeavored to make postsecondary opportunity accessible for all students The contributors also explore the challenges that remain and address what states and schools can do to improve college readiness and completion This book adds important information to the debates and discussions around this critical topic Caroline Sotello Viernes Turner coeditor of Understanding Minority Serving Institutions

Getting Ready for College, Careers, and the Common Core David T. Conley, 2013-10-07 Create programs that prepare students for college careers and the new and challenging assessments of the Common Core State Standards Written for all educators but with an emphasis on those at the secondary level this important resource shows how to develop programs that truly prepare students for both the Common Core assessments and for college and career readiness Based on multiple research studies conducted by Conley as well as experience he has gained from working with dozens of high schools that succeed with a wide range of students the book provides specific strategies for teaching the CCSS in ways that improve readiness for college and careers for the full range of students Draws from research based models for creating programs for high school students that will ensure readiness for tests and for college and beyond Includes strategies and practices for teachers to help students develop postsecondary preparedness Is the third in a series of books on readiness written by David Conley including College Knowledge and College and Career Ready Teachers can use this valuable resource to understand the big picture behind the Common Core State Standards how to teach to them in ways that prepare students for new challenging assessments being implemented over the next few years and more importantly how to help all students be ready for learning beyond high school
