S Ashworth

Aaron Webster's Timeline History 1979 2001:

Pagodas in Play Adrienne Ward, 2010 Pagodas in Play analyzes the treatment of China in the imaginative and spectacular world of eighteenth century Italian opera. It shows how Italians used perceptions of Chinese culture to address local and transnational developments particularly Enlightenment and secular reform initiatives. Its focus on the texts and performance practices of opera, an entertainment form accessible to a wide public, reveals cultural operations and identities harder to detect in non-fictional reformist writings. The texts traditionally privileged to explain Italian mediations of Enlightenment ideas. In its close reading of nine libretti of the most salient Settecento operas treating China, *opere serie* and *opere buffe* by authors including Metastasio, Zeno, Goldoni, and Lorenzi, Pagodas in Play differentiates Italian iterations of Chinese culture from French and English counterparts. It further challenges certain tenets of orientalism, showing how it operates when nationalist and/or colonialist projects are absent and how orientalist practices in eighteenth century Italy exhibit early on the complexity some scholars locate only in the twentieth century. Adrienne Ward teaches Italian literature and culture at the University of Virginia.

, 2009 **Inexperience: Webster's Timeline History 31 BC - 2007**, **Truant** Philip M. Parker, 2010 Webster's bibliographic and event based timelines are comprehensive in scope, covering virtually all topics, geographic locations, and people. They do so from a linguistic point of view, and in the case of this book, the focus is on the word *truant*, including when used in literature. e.g. all authors that might have *Truant* in their name or books that have *truant* in their title. As such, this book represents the largest compilation of timeline events associated with the word *truant*. Webster's timelines cover bibliographic citations, patented inventions, as well as non-conventional and alternative meanings which capture ambiguities in usage. These furthermore cover all parts of speech, possessive institutional usage, geographic usage, and contexts including pop culture, the arts, social sciences, linguistics, history, geography, economics, sociology, political science, business, computer science, literature, law, medicine, psychology, mathematics, chemistry, physics, biology, and other physical sciences. This data dump results in a comprehensive set of entries for a bibliographic and/or event based timeline on the word *truant*, since editorial decisions to include or exclude events is purely a linguistic process. The resulting entries are used under license or with permission, used under fair use conditions, used in agreement with the original authors, or are in the public domain. Pref
