- The rib cage is located in the upper part of the torso.
- The rib cage is located in the upper part of the torso.

You may have noticed that the right ventricle is larger than the left ventricle. This is because the right ventricle has to pump blood to the lungs, which is a longer distance than the left ventricle has to pump blood to the rest of the body.

Other

In addition to the major organs, there are many smaller organs in the body. Some of these are open to the outside, while others are not.
