Exploring New Horizons in Career Counselling Kobus Maree, Annamaria Di Fabio, 2015-11-03 This book brings together eminent global theorists and practitioners to share their views on the evolution of career counselling in recent decades Multiple changes of a fundamental and complex nature as well as related challenges in the world of work have necessitated career counselling to undergo such an evolution The authors examine the future nature and scope of new directions in the field of career counselling psychology and they critically reflect on as well as promote the predominant theoretical and conceptual framework of the field of career counselling The latest models and methods in and for the 21st century are explored and teased out including Mark Savickas proposal to shift the focus in interventions from conceptualising the self as content to seeing the self as a process This approach is in keeping with the notion of career as a story and consistent with leading theories such as Jean Guichard s self construction framework and the life design paradigm The authors deliver an avant garde text that is easy to read and use without diluting the conceptual and terminological complexities of the field The book is an invaluable resource for new emerging and experienced researchers academics scholars researchers psychologists social workers teachers and clients It merges what is known about the field with emerging approaches It gives an overview of theoretical paradigms that can be applied to a changing world of work It makes a critical analysis of germane questions such as What does the future hold for the field of career counselling and how can challenges be turned into opportunities and How can different paradigms approaches and strategies be harnessed to promote clients career life wellbeing and resilience It facilitates an understanding of the skills necessary to deal with career related transitions challenges and barriers to help

people acquire transferable career life skills and career choice readiness It examines the importance of career adaptability and how people can develop this vital 21st century survival competency It challenges career counsellors to grasp and acquire skills to promote and advocate social justice agendas It promotes and demonstrates the exciting and promising notion of dialogue writing to enhance the dialogical work of the career counsellor and client Individually and collectively the authors team up to blend retrospect and prospect and they make a concerted effort to convert 21st century challenges and frontiers in career counselling into opportunities hurt into hope hopelessness into inspiration Career Development and Systems Theory Wendy Patton, Mary McMahon, 2006-01-01 The 3rd edition of this classic book offers practitioners researchers and students a comprehensive introduction to and overview of career theory introduces the Systems Theory Framework of career development and demonstrates its considerable contemporary and innovative application to practice A number of authors have identified the framework as one of a small number of significant innovations in the career development literature The Systems Theory Framework of career development was developed to provide coherence to the career development field by providing a comprehensive conceptualisation of the many existing theories and concepts relevant to understanding career development It is not designed to be a theory of career development rather systems theory is introduced as the basis for an overarching or metatheoretical framework within which all concepts of career development described in the plethora of career theories can be usefully positioned and utilised in both theory and practice It has been applied to the career development of children adolescents and women Since its first publication the Systems Theory Framework has been the basis of numerous publications focusing on theoretical application and integration practice and research with a growing number of these by authors other than the framework developers Its application across cultures also has been emphasised The theoretical and practical unity of the Systems Theory Framework makes this book a worthy addition to the professional libraries of practitioners researchers and students new to or experienced in the field of career development **Handbook of Counselor Preparation** Garrett McAuliffe, Karen Eriksen, 2011 This definitive single volume guide is the first of its kind on teaching and developing counselor educator programs that embrace constructivist and developmental theory Leading scholars and experts offer practical advice on teaching courses in every area of counseling practice As a result the book is ideal for current and future counselor educators and supervisors as well as faculty in other helping professions The authors seek to inspire educators to empower and involve to risk losing control over subject matter to hear student voices to pose dilemmas and to challenge their own assumptions in the presence of their students using constructivist developmental and experiential thinking and strategies **Encyclopedia of Counseling** Frederick T. Leong, 2008-04-25 Selected as an Outstanding Academic Title by Choice Magazine January 2010 From the depressed and lonely college student to the business executive at midlife experiencing decreasing levels of career satisfaction to the couple where one partner has been unfaithful in the relationship counselling is the intervention that numerous individuals turn to each year as the challenges and stress of

daily living exceed their normal coping abilities. Counselling is practised by counsellors, social workers, psychiatric nurses, psychologists, and psychiatrists. Counseling is to be differentiated from psychotherapy in that the latter deals more with mental illnesses and psychological disorders while the former is more concerned with normative stresses, adjustment difficulties, and life transitions e.g. adjusting to unemployment or going through a divorce. The Encyclopedia of Counseling will be the definitive resource for members of the public who are interested in learning about the science and practice of counselling. It will also be a useful resource for undergraduate and graduate students as well as professionals from other specialties. Covering all of the major theories, approaches, and contemporary issues in counselling, the set includes over 600 entries. The Encyclopedia will consist of four volumes: a) changes and challenges facing counseling, b) personal counseling for mental health problems, c) career counseling, and d) cross-cultural counseling. Each volume is organized alphabetically and will contain a comprehensive index and cross-referencing system to entries in other volumes.
