Administration's Final Exam Michael M. Harmon,2006-11-12 Examines why public administration s literature has failed to justify the profession s legitimacy as an instrument of governance Michael Harmon employs the literary conceit of a Final Exam first written in the early 1930s in a critique of the field s answers to the legitimacy question Because the assumptions that underwrite the question preclude the possibility of a coherent answer the exam should be canceled and its question rewritten Envisaging a public administration no longer hostage to the legitimacy question Harmon explains how the study and practice of public administration might proceed from adolescence to maturity Drawing chiefly from pragmatist philosophy he argues that despite the universal rejection of the politics administration dichotomy on factual grounds the pseudo problem of legitimacy nonetheless persists in the guise of four related conceptual dualisms 1 values and facts 2 thinking and doing 3 ends and means and 4 theory and practice Collectively these dualisms demand an impossible answer to the practical question of how we might live and govern together in a world of radical uncertainty and interdependence Only

by dissolving them can the legitimacy question Woodrow Wilson's ghost finally be banished clearing away the theoretical debris that obscures a more vital and useful conception of governance **Cracking the AP World History Exam**
