Novels by Aliens Kate Marshall, 2023-10-10 A wide ranging account of the twenty first century's fascination with the weird Twenty first century fiction and theory have taken a decidedly weird turn They both show a marked interest in the nonhuman and in the preternatural moods that the nonhuman often evokes Writers of fiction and criticism are avidly experimenting with strange even alien perspectives and protagonists Kate Marshall's *Novels by Aliens* explores this development broadly while focusing on problems of genre fiction She identifies three key generic hybrids that harness a longing for the nonhuman the old weird an alternative tradition within naturalism and modernism for the twenty first century's cowboys and aliens cosmic realism the reach for words legible only from space in otherwise terrestrial narratives and pseudoscience fiction which imagines speculative futures beyond human life on earth Offering sharp and surprising insights about a breathtaking range of authors from Edgar Rice Burroughs to Kazuo Ishiguro Willa Cather to Maggie Nelson *Novels by Aliens* tells the story of how genre became mood in the twenty first century

The Whole Intimate Mess Holly Walker, 2017-06-12 I began to pull the threads of my experience back together Instead of divergent stories about public failure private torment and postnatal distress I started telling myself a united story the truth or as close as I could get to it A Rhodes scholar and former Green MP Holly Walker tells the story of how she became one of New Zealand's youngest parliamentarians how motherhood intervened and how she found solace and solidarity in the writings of women This short book makes a passionate case for the role of literature in political change and personal resilience and for the importance of women's voices in the public sphere

Cartographies of Empire Myka Tucker-Abramson, 2025-03-18 The road novel is often dismissed as a mundane nostalgic genre Jack Sal and other tedious white men on the road trying to recapture an authentic youth and American past that never existed Yet new road novels appear every year tackling unexpected questions and spanning new geographies from Mexico Brazil Bulgaria Palestine Ukraine and former Yugoslavia Why did the road novel emerge and why does it persist What does it do and why has it

traveled so widely Myka Tucker Abramson draws from an archive of more than 140 global road novels from over twenty countries challenging dominant conceptions of the road novel as primarily concerned with American experiences and subjectivities Grounding her analysis in materialist theories of genre world ecology and commodity frontier frameworks and post 45 American literary studies Tucker Abramson persuasively argues that the road novel is a genre specific to coterminous with and revealing of US hegemony s global trajectory Shifting our focus from Americanness to the fraught geopolitics of US Empire from the car to the built environment through which it moves and from passengers to those left behind Tucker Abramson remaps the road novel elucidating the genre s unique ability both to reveal the violent and vertiginous processes of capitalist modernization and to obfuscate these harsh truths through seductive narratives of individual success and failure

Well Beings James Riley,2024-03-28 James Riley author of the cult hit *The Bad Trip* *Dark Omens* *New Worlds* and the *End of the Sixties* returns with another incisive and thought provoking cultural history turning his trenchant eye to the wellness industry that emerged in the 1970s Concepts such as wellness and self care may feel like distinctly twenty first century ideas but they first gained traction as part of the New Age health movements that began to flourish in the wake of the 1960s Riley dives into this strange and hypnotic world of panoramic coastal retreats and darkened floatation tanks blending a page turning narrative with illuminating explorations of the era s music film art and literature *Well Beings* delves deep into the mind of the seventies its popular culture its radical philosophies its approach to health and its sense of social crisis It tells the story of what was sought what was found and how these explorations helped the Me Decade find itself In so doing it questions what good health means today and reveals what the seventies can teach us about the strange art of being well

The Global Novel and Capitalism in Crisis Treasa De Loughry,2020-04-29 This book examines how contemporary global novels by Salman Rushdie David Mitchell Rana Dasgupta and Rachel Kushner have evolved new aesthetics to represent global economic and ecological crises Paying close attention to the interrelations between postcolonial world and global literatures this book argues that postcolonial literary studies cannot account for global crises that exceed the national and anti colonial Advocating an interdisciplinary framework informed by a synthesis of materialist literary theory with world systems theory combining Fredric Jameson and Georg Luk cs with Giovanni Arrighi and Jason W Moore this book examines how global literatures metabolise not only socioeconomic conditions but also transformations in the world ecology and emergent developmental and epochal crises of capitalism

Toska Alina Pleskova,2023-06-13 *Toska* derives its title from the Russian word which denotes a melancholic longing without a singular cause longing for a better world than the late stage capitalist hell we live in *Toska* explores a sense of rootlessness and a sort of anti nationalism how the pervasive sense of being an immigrant or in but not of a place never quite dissipates particularly amid the dissonance and alienation felt within U S culture gunning towards a vision of imperialist capitalist white supremacist hegemony These poems come to the weary conclusion time and time again that sexual liberalism liberation and hedonism are only one sort of revelation that this sort of

openness and exploration isn't enough to save anyone from despair or the existentially weary feeling of Tosca from which the title takes its name. But desire is not just Eros; the poems carry a strong desire for a different world for everyone.

Owens, Laura Scott Rothkopf, 2017-01-01. A richly illustrated, expansive mid-career survey of the stand-out American artist's pioneering and influential work, with each copy featuring a unique silk screen cover printed in Owens's studio. Since the early 1990s, Laura Owens (b. 1970) has challenged traditional assumptions about figuration and abstraction in her pioneering approach to painting. Created in close collaboration with the artist on the occasion of her mid-career survey at the Whitney Museum of American Art, this inventive and comprehensive book features an incisive introduction by Scott Rothkopf, critical essays, literary texts, and short commentaries on a variety of subjects related to Owens's broad interests, which range from folk art and needlework to comics and wallpaper. Reflections by more than twenty of Owens's fellow artists, collaborators, assistants, dealers, family members, and friends offer an array of perspectives on her work at different periods in her life, beginning with her high school years in Ohio and ending with her current exhibition. A rich trove of more than a thousand images drawn from the artist's personal archive and largely unpublished before now includes personal correspondence, journals, academic transcripts, handwritten notes, source material, exhibition announcements, clippings, and installation photographs. Strikingly, each copy also features a unique silk screen cover printed in Owens's studio, giving readers the opportunity to own an original work of art. Together, all of these elements provide a rare and intimate look at how an artist might make her way in the world, as well as how art gets made: movements take hold and relationships evolve over time.
