The Last Grain Race Eric Newby, 1957 *Last Grain Race* Eric Newby, 1996-01 **MotorBoating** , 1969-03 **The Barque of Saviors** Russell Drumm, 2001-11-16

The remarkable story of a tall ship's history in WWII and beyond and the sailors who have inhabited it both German and American Booklist Hamburg 1936 A splendid three masted sailing ship is christened Horst Wessel in the presence of Adolf Hitler and thousands of cheering Nazis It would become a training vessel for naval officers during World War II but after Germany's defeat the US Coast Guard found its young crew terrified and half starved The Coast Guardsmen brought the Germans so recently their mortal enemies back to life the Germans in return taught them the ways of the beautiful square rigged ship rechristened Eagle In time Eagle would become the Coast Guard's elite school ship the barque of saviors Uncannily linking Eagle's malign past and its American present is a coast guardsman named Karl Dillmann who believes the spirit of a young German sailor drowned in a U boat explosion inhabits his soul The voices of Dillmann and other crew members are heard throughout the book as are the voices of young sailors on the Horst Wessel Russell Drumm has obtained never before published logbooks from its war years affording fascinating new insights into both the ship's everyday life and its moments of high drama This unique piece of maritime history captures the feeling of life at sea and shows how the courage and sacrifice of the greatest generation are alive and well today in the dedicated members of the US Coast Guard Tall ships cast spells and Drumm catches the witchery of the Eagle's overpowering presence Kirkus Reviews The reader becomes familiar with the cadets of various eras The book also offers a rare look at postwar military cooperation and at the integration of female cadets beginning in the 1970s Publishers Weekly

A Traveller's Life Eric Newby, 2010 A chronicle of travels some homely some exotic from the man who can make a schoolboy holiday in Swanage as colourful as a walk in the Hindu Kush Eric Newby's life of travel began in 1919 on pram ride adventures with his mother into the dark streets of Barnes and the chaotic jungles of Harrods and progressed to solo school bound adventures around the slums of darkest Hammersmith His interest piqued Newby's wanderlust snowballed and his adventures multiplied as he navigated the London sewer system bicycled to Italy and meandered the wilds of New York's Broadway Whether travelling abroad as a high fashion buyer for a British department store or for pure adventure as a travel writer even when reluctantly participating in a tiger shoot in India Newby chronicles his adventures with verve humour and infectious enthusiasm After nine years as the travel editor for the Observer Newby reluctantly gave up the post eschewing the new form of human as freight travel However this change was certainly no pity for his readers as the latter day Newby continued on his unwavering quest for fascinating detail and adventure wherever he roamed whether on two feet or two wheels *A Traveller's Life* chronicles the incredible adventures of one of the best loved tour guides in the history of travel writing *A History of the World in Sixteen Shipwrecks* Stewart Gordon, 2015-04-22 Roman triremes of the Mediterranean The treasure fleet of the Spanish Main Great ocean liners of the Atlantic Stories of disasters at sea fire the imagination as little else can

whether the subject is a historical wreck the Titanic or the Bismark or the recent capsizing of a Mediterranean cruise ship Shipwrecks also make for a new and very different understanding of world history A History of the World in Sixteen Shipwrecks explores the ages long immensely hazardous persistently romantic and still ongoing process of moving people and goods across far flung maritime worlds Telling the stories of ships and the people who made and sailed them from the earliest ancient Nile craft to the Exxon Valdez A History of the World in Sixteen Shipwrecks argues that the gradual integration of localized and separate maritime regions into fewer larger and more interdependent regions offers a unique window on world history Stewart Gordon draws a number of provocative conclusions from his study among them that the European Age of Exploration as a singular event is simply a myth many cultures east and west explored far flung maritime worlds over the millennia and that technologies of shipbuilding and navigation have been among the main drivers of science and technology throughout history Finally A History of the World in Sixteen Shipwrecks shows in a series of compelling narratives that the development of institutions and technologies that made terrifying oceans familiar and turned unknown seas into sea lanes profoundly matters in our modern world
