critically explores the way in which the spiritual dimension of pastoral care has entered into constructive dialogue with other disciplines and ways of thinking      Religion, Modernity, and Politics in Hegel Thomas A. Lewis, 2011-07-28 This study analyzes Hegel's philosophy of religion in relation to ongoing debates about the relation between religion and politics as well as the history of their conceptualization in the modern West Lewis argues that recent non traditional more Kantian interpretations of Hegel's project open up a new understanding of his treatment of religion      *Against the Spiritual Turn* Sean Creaven, 2014-04-08 The argument presented in this book is that the recent spiritual trajectory of Roy Bhaskar's work upon which he first embarked with the publication of his *From East to West* undermines the fundamental achievements of his earlier work The problem with Bhaskar's new philosophical system Transcendental Dialectical Critical Realism or simply Meta Reality from the critical realist Marxist perspective endorsed here is that it marks both a departure from and a negation of the earlier concerns of Bhaskar to develop a realist philosophy of science and under labour for an emancipatory materialist socio historical science The end result is a meta philosophy which is irrealist speculative under theorized internally self contradictory and which cannot provide philosophical guidance to liberatory social practices In opposition to theist ontological logics more generally including the rather more rational theism presented by Margaret Archer Andrew Collier and Doug Porpora the argument of this book is that the earth bound materialist dialectics of the classical Marxist tradition and the naturalistic humanism these dialectics under labour on the terrain of socio historical being offer a much more promising way forward for critical realist theory and for liberatory politics and ethics      *Buddhist Critical Spirituality* Shōhei Ichimura, 2001-01-01 This book comprises fifteen research articles primarily based on the discipline of Indian and Buddhist Studies The collection is designed to propose a Buddhist philosophy of religion that the insight of Prajna and Sunyata initiates a future religion which is freed both from conflict between reasoning and believing and from goal oriented cycles of life It addresses transformation from the conflict ridden quest for a supreme being to the search for a non theistic nature of spirituality that provides a foundation for universal human happiness and salvation For the discipline of Buddhist Studies this collection also demonstrates the productive value of drawing upon cross cultural and cross racial literary sources and traditions      *Religion and Philosophy* Martin Warner, 1992-04-24 In this lively collection ten philosophers tackle the notoriously elusive issues raised by religious discourse in a series of linked debates The debates focus on reason and faith the logic of mysticism the meaning of the word God language Biblical interpretation and worship and religion and ethics Through contemporary philosophical analysis it is possible to shed new light on the status and language of religion and in many ways the contributors to Religion and Philosophy break new ground in this perennially controversial field      Divine Hierarchy Conrad Riker, 101-01-01 Are you tired of the chaos in the modern world Do you feel like society is crumbling under the weight of lies and deception Are you searching for a deeper understanding of your purpose and the divine order of the universe Inside this book Discover the truth about telepathic dreams and how they are messages from God Learn why gender equality

*Spirituality, Education & Society* Njoki N. Wane, Energy L. Manyimo, Eric J. Ritskes, 2011-10-29 Spirituality education and society An integrated approach argues the value of spirituality in education as a way to address the lived experiences and personal knowledge of students with the goal of creating a more holistic transformative educational process This edited volume has a wide array of viewpoints which all point to the importance of spirituality in the authors personal lives their communities and society at large Spirituality is conceptualised as a base from which to challenge dominant forms of knowing while in the process being able to center and engage with an important aspect of the student that has been missing from current evaluations their spiritual selves Within the diversity of this volume it becomes evident that spirituality cannot be confined to a singular definition and that educators must be willing to create spaces to foster spiritual growth and exploration if we are to break away from the commoditized disempowering system that is so dominant today This edited collection is a valuable resource for students practitioners educators and administrators who wish to engage in transformational schooling Its multidisciplinary approach engages ideas around critical pedagogy sociology of education and inclusive schooling There is an increasing need for exploring novel paradigms of studying education in the context of the dynamics that straddle social

economic and technological processes that have come to characterize the world in recent years This book is a timely contribution in this respect as its focus transcends hitherto applied approaches that depend largely on western orientation The book breaks new grounds in studying education and society that find significant relevance in societies that are marginalized by the dominant western understanding The authors draw from the rich heritage of spirituality that is akin to the non western social paradigms to develop a rigorous but creative concept of schooling I am sure practitioners researchers and students of education will find it a valuable source of practical and theoretical information that would widen their horizon of understanding of sociology of education Tom Mongare Ndege PhD Moi University Kenya The editors have compiled a brilliant collection of essays Each piece of scholarly work shows how spirituality is a paramount part of our everyday lives and is connected to teaching learning living and healing This is a timely and most relevant work that is sure to spur critical dialogue and discussion This collection shows that while the spirit may be wounded it can never be broken Erica Neeganagwedgin PhD University of Toronto *Religion, Mysticism, and Transcultural Entanglements in Modern South Asia* Soumen Mukherjee, 2024-04-12 This book explores the location of spirituality and mysticism in modern Indian religious and intellectual life It examines select personalities and their ideas since the early twentieth century their role in the interwoven spheres of socio religious and political thought and in burgeoning spiritual imaginaries often at the intersection of academic and public discourse As part of a global ecumene connected by affective bonds these spiritual cosmopolitans often defied binary frameworks East West imperial core periphery colonizer colonized and in the upshot reappraised and recast the very concept of religion in response to overarching this worldly exigencies Religion in Personality Theory Frederick Walborn, 2013-12-03 Religion in Personality Theory makes clear the link between theory and research and personality and religion Presently most personality texts have a limited discussion of religion and reference few theorists other than Freud and Maslow in relation to the subject This book reviews the theory and the empirical literature on the writings of 14 theorists Every chapter concludes with a summation of the current research on the theorist s proposals Reviews Frederick Walborn has written an excellent text that explores the degree to which classical personality theorists were personally influenced by and focused upon religion in developing their personality theories Each theorist is presented in sufficient detail so that their personal views of religion are seen to influence the theories they developed In addition the current status of the empirical evidence in the psychology of religion is explored in the context of the theorist and theory to which the data is most relevant Current and up to date this text is appropriate for either a course in Personality or as an introduction to the Psychology of Religion The author s own comprehensive theory of religion and spirituality creatively integrates the positive contributions of the classical personality theorist to the contemporary psychology of religion Ralph W Hood Jr Professor of Psychology University of Tennessee at Chattanooga In this interesting and accessible book Frederick Walborn thoughtfully probes the place of religion and spirituality in the writings of a broad range of classical psychological thinkers and offers an insightful

critique of current empirical research on the complex relation of religion and spirituality to individual well being Michele Dillon Ph D Professor and Chair Department of Sociology University of New Hampshire Durham New Hampshire Identifies what major personality theorists say about religion Investigates whether evidence supports or refutes predictions made by different theories Concludes with a comprehensive integrative theory on religion and spirituality Oxford Textbook of Spirituality in Healthcare Mark Cobb, Christina M Puchalski, Bruce Rumbold, 2012-08-09 Spirituality and healthcare is an emerging field of research practice and policy Healthcare organisations and practitioners are therefore challenged to understand and address spirituality to develop their knowledge and implement effective policy This is the first reference text on the subject providing a comprehensive overview of key topics *Critical Terms for Religious Studies* Mark C. Taylor, 2013-07-09 A century that began with modernism sweeping across Europe is ending with a remarkable resurgence of religious beliefs and practices throughout the world Wherever one looks today from headlines about political turmoil in the Middle East to pop music and videos one cannot escape the pivotal role of religious beliefs and practices in shaping selves societies and cultures Following in the very successful tradition of *Critical Terms for Literary Studies* and *Critical Terms for Art History* this book attempts to provide a revitalized self aware vocabulary with which this bewildering religious diversity can be accurately described and responsibly discussed Leading scholars working in a variety of traditions demonstrate through their incisive discussions that even our most basic terms for understanding religion are not neutral but carry specific historical and conceptual freight These essays adopt the approach that has won this book's predecessors such widespread acclaim each provides a concise history of a critical term explores the issues raised by the term and puts the term to use in an analysis of a religious work practice or event Moving across Judaism Christianity Hinduism Buddhism Islam and Native American and Mayan religions contributors explore terms ranging from experience territory and image to God sacrifice and transgression The result is an essential reference that will reshape the field of religious studies and transform the way in which religion is understood by scholars from all disciplines including anthropology sociology psychology cultural studies gender studies and literary studies *Postcolonial Philosophy of Religion* Purushottama Bilimoria, Andrew B. Irvine, 2009-09-30 The present collection of writings on postcolonial philosophy of religion takes its origins from a Philosophy of Religion session during the 1996 Annual Meeting of the American Academy of Religion held in New Orleans Three presentations by Purushottama Bilimoria Andrew B Irvine and Bhubuti Yadav were to be offered at the session with Thomas Dean presiding and Kenneth Surin responding Yadav unfortunately could not be present because of illness This was the first AAR session ever to examine issues in the study of religion under the rubric of the postcolonial turn in academia Interest at the session was intense For instance Richard King then at work on the manuscript of the landmark *Orientalism and Religion* was present so too was Paul J Griffiths whose subsequent work on interreligious engagement has been so noteworthy In response to numerous audience appeals revised versions of the presentations eventually were published as a Dedicated

Symposium on Subalternity in volume 39 no 1 2000 of Sophia the international journal for philosophy of religion metaphysical theology and ethics Since that time the importance of the nexus of religion and the postcolonial has become increasingly patent not only to philosophers of religion but to students of religion across the range of disciplines and methodologies The increased internationalization of the program of the American Academy of Religion especially in more recent years is a significant outgrowth of this transformation in consciousness among students of religion     *Global Dialogues in the Philosophy of Religion* Yujin Nagasawa, Mohammad Saleh Zarepour, 2024 Leading scholars representing the world's five great religious traditions Buddhism Hinduism Judaism Christianity and Islam discuss fundamental philosophical questions on revelation and religious experience analysis of faith science and religion the foundation of morality and life and the afterlife     *The Nature and Rationale of Zen/Chan and Enlightenment* Ming Dong Gu, 2023-07-14 This book initiates a paradigm shift away from Zen/Chan as quintessentially Buddhist and examines what makes Chan thought and practice unique and original through an interdisciplinary investigation of the nature and rationale of Chan and its enlightenment Exploring how enlightenment is achieved through Chan practice and how this differs from other forms of Buddhism the book offers an entirely new view of Chan that embraces historical scholarship philosophical inquiry textual analysis psychological studies Chan practice and neuroscientific research and locates the core of Chan in its founder Huineng's theory of no thinking which creatively integrates the Taoist ideas of zuowang forgetting in seated meditation and xinzhai fast of heart/mind with his personal experiences of enlightenment It concludes that Chan is the crystallization of an innovative synthesis of Buddhism Daoism and Confucianism as well as other resources of somatic and spiritual cultivation and that enlightenment is a momentary return to the mental state of a baby before birth This book will appeal to students and scholars of religion philosophy and neuroscience It will also offer new insights to thinkers writers artists therapists and neuroscientists as well as those practicing Zen Mindfulness and psychotherapy
