Ulla Kriebner, Roberta Maierhofer, Barbara Ratzenböck, 2014-06-15 The linking of age and ill health is part of a cultural narrative of decline as age is often defined as the absence of good health Research has shown that we are aged by culture but we are also culturally made ill when we age The cultural ambiguity of aging can thus deconstruct negative images of old age as physical decrepitude This volume investigates the topic of health within the matrix of time and experience by addressing issues such as how our understanding of health influences our notion of agency within a subversive deconstruction of normative age concepts and what role the notion of health plays in such an interaction **Affective**
