Speth,2008-10-01 How serious are the threats to our environment Here is one measure of the problem if we continue to do exactly what we are doing with no growth in the human population or the world economy the world in the latter part of this century will be unfit to live in Of course human activities are not holding at current levels they are accelerating dramatically and so too is the pace of climate disruption biotic impoverishment and toxification In this book Gus Speth author of Red Sky at Morning and a widely respected environmentalist begins with the observation that the environmental community has grown in strength and sophistication but the environment has continued to decline to the point that we are now at the edge of catastrophe Speth contends that this situation is a severe indictment of the economic and political system we call modern capitalism Our vital task is now to change the operating instructions for today's destructive world economy before it is too late The book is about how to do that **Global Shaping and Its Alternatives** William K. Carroll,Yildiz Atasoy,Y?ld?z

Atasoy,2003-01-01 Global Shaping and its Alternatives offers a unique series of reflections on the connections between market capitalism the politics of alternatives and the cultural elaboration of social change It argues that there is a need for an alternative explanatory framework on globalization one that rejects fatalism and highlights the dynamic roles of states NGOs local fractions of capital democratic movements and gendered social relations Without understanding how global shaping is taking place and how it affects human life across the globe there can be no transformational possibility for humanizing our conditions of existence Alternative Capitalisms: Geographies of Emerging Regions Robert Gwynne,Denis Shaw,Thomas Klak,2014-05-12 This book aims to examine the effects of globalization and economic and political transformations in those parts of the world which are now regularly referred to as emerging regions These are Latin America and the Caribbean East Central Europe and the former Soviet Union and East Asia This book breaks new ground in three areas First of all it develops a critique of the use of the term emerging regions for geographers and social scientists and relates this to world systems theory Secondly it explores the development trajectories and challenges of countries in this so called emerging world countries that will be crucial to the evolution of the world economy in the twenty first century Thirdly it compares and contrasts the pathways of both economic and political change in the three world regions under focus This is a unique approach in terms of books published in both geography and the social sciences Within the context of the three

world regions the book combines historical and contemporary analysis of the evolving world system In these regions we are concerned to understand the historical expansion and extension of capitalism and how its contemporary forms of production exchange and regulation are evolving The authors believe that at the present time these processes have produced alternative capitalisms economic and associated developments which while assuredly capitalist differ in various ways from those typical of the capitalist West or core economies of North America and Western Europe **America As Empire** James Garrison, Jim Garrison, 2004-01-09 In this timely and telling book Garrison argues that the preoccupation with military expansion is a fatal mistake citing both FDR and Harry Truman as models for combining military power with institution building **A Game As Old As Empire** Steven Hiatt, 2007-02-28 John Perkins controversial and bestselling expos Confessions of an Economic Hit Man revealed for the first time the secret world of economic hit men EHMs But Perkins Confessions contained only a small piece of this sinister puzzle The full story is far bigger deeper and darker than Perkins personal account revealed Here other EHMs journalists and investigators join Perkins to tell their own stories providing the first probing and expansive look into this pervasive web of systematic corruption With chapters spotlighting how specific countries around the globe have been subverted A Game As Old As Empire uncovers the inner workings of the institutions behind these economic manipulations The contributors detail concrete examples of how the economic hit man game is still being played an officer of an offshore bank hiding hundreds of millions of dollars in stolen money IMF advisers slashing Ghana s education and health programs a mercenary defending a European oil company in Nigeria a consultant rewriting Iraqi oil law and executives financing warlords to secure supplies of coltan ore in Congo Together they show how this system of corruption and plunder operates in real life and reveal the price that the rest of the world must pay as a result Most important A Game As Old As Empire connects the dots showing how the various pieces of this system come together to create the world s first truly global empire
