Mario Schmidt-Wendling, 2024-03-01 Long distance triathlons are becoming increasingly popular as thousands of athletes compete in more than 200 races globally each season Every one of these athletes requires quality training information and experienced coaching advice Drawing on his 20 years of coaching experience Mario Schmidt Wendling provides the best training information for ambitious triathletes competing in Olympic to Ironman distance triathlons making Triathlon Success a must have practical guide This book does not offer generally formulated training plans but rather considers an athlete's individual situation such as their performance level which means the athlete is given the most important basics to be able to make the right decisions for his or her own training Trainers will also find the book useful as both their work and the most important aspects of training theory for the long distance triathlon are highlighted and explained In addition to the extensive material on training and competition the triathlete will find relevant information on equipment nutrition and even how to prevent those typical mistakes made during training in all three disciplines All of the training content is enriched by numerous practical examples and the provided test procedures help triathletes diagnose their own progress Useful information on topics such as injuries illness and training and competing in the heat as well as a sample 16 week training plan round out this ultimate training guide **Beginners Guide to Conquering an Ironman Triathlon** Andrew

Crabtree, 2017-08-31 OK so you've decided you are going to undertake an Ironman You have watched a couple a motivational videos on YouTube you have logged onto the site entered your details paid your fee told everybody you know about it on Facebook and Twitter and have undertaken a sponsorship drive for the charity of your choice Life is good and you feel good

about it At some point the enormity of what you have signed up for will hit you It could be when you wake up in the middle of the night for a pee when you start to read an article on the number of hours the Pros put into training on a weekly basis or when you attempt your first swim in the pool and struggle to complete ten lengths Do not panic As daunting as it feels at this moment in time this is an achievable life changing challenge which will push you to your limits If you put the right training and preparation in you will stand or float at the start line knowing that this is going to be one of the most amazing days of your life The following Chapters will take you through planning executing and recovering in the weeks and months up to your Ironman event The Chapters are aimed to be succinct and to the point in topics which are notoriously full of differing opinions and supporting scientific proof The Chapters are based upon my findings during my journey to completing the four Ironman events that I have to date with a lot of reading picking peoples brains and trial and error Completing an Ironman is tough and should be given the respect that it deserves in the training and preparation that is made but caution should be taken in not giving the event too much respect in that it becomes crippling in your pursuit of glory Start to Finish Paul Huddle,Roch Frey,T. Project Ironman Todd Pringle, 2016-01-14 I have written this book over the course of the last 5 years leveraging the contents as I coach and train for Ironman distance races There seemed to be a gap to help assist self coached athletes to pull together the pieces helping them achieve their personal goals in endurance sports Most books I have read are excellent for helping to define training plans use of training technologies sprinkled with a few inspirational stories of how people overcame their challenges to achieve their triathlon goals The challenge for some of us myself included is that technology and the details of the workouts are only a piece of the puzzle that help us to achieve our goals They are the needed evils of training for our sport but what seemed to be missing was a method to pull the information together in a manner that wasn't completely overwhelming My approach was developed to ensure I had triathlon work life balance and not necessarily in that order in an easy to understand methodology Most of us hold down full time jobs and have kids or other family activities at the very least I have a unique background for this journey with you I am veteran of many marathons and all Triathlon length races including multiple Ironman s I am an IRONMAN CERTIFIED Coach I am also a seasoned project manager since the early 90 s and have managed numerous multimillion dollar complex projects The discipline instilled by project management with budget scope schedule and quality constraints naturally lent itself to a logical and ordered approach for tackling the Ironman goals I took my simple approach that I apply to large projects and applied it for endurance sports
