Acrostic Poem Example Ecosystem:

E.E. Cummings: Poetry and Ecology Etienne Terblanche,2012-01-01 By employing the modernist devices of fragmentation recombination and accentuated blank space E E Cummings engages singularly with being on earth This ecological achievement was largely ignored by the New Critics and the subsequent semiotic spirit which has been holding that the sign hardly has to do with concrete existence on earth ironically perpetuated the neglect In this book Etienne Terblanche shows that Cummings s ecology relocates his oeuvre and status in contemporary discourse For the poet follows mimes and connects with the unfolding changes of earthly existence and growth what he views as the Tao of being in his lyricism sex poems satire and visual verbal poems This is true especially of the elusive manner or how of his poetry overall Careful ecocritical reading of this active culture nature integrity in his poetry brings about an imperative new understanding and placement of his project It further serves to show that in their different ways T S Eliot and Ezra Pound engage with nature in a similar way thus again accentuating the importance of Cummings s poetic project to the neglected and vital ecocritical perception of modernism in poetry

Geopoetry Dale Enggass,2025-06-17 At its core geopoetics proposes that a connection between language and geology has become a significant development in post World War II poetics In Geopoetry Dale Enggass argues that certain literary works enact geologic processes such as erosion and deposition and thereby suggest that language itself is a geologic and not a solely human based process Elements of language extend past human control and open onto an inhuman dimension which raises the question of how literary works approach the representation of nonhuman realms Enggass examines the work of Clark Coolidge Robert Smithson Ed Dorn Maggie O Sullivan Jeremy Prynne Jen Bervin Christian B k and Steve McCaffery and he finds that while many of these authors are not traditionally connected to ecocritical writing their innovations are central to ecocritical concerns In treating

language as a geological material these authors interrogate the boundary between human and nonhuman realms and offer a model for a complex literary engagement with the Anthropocene
