Weaving Words into Worlds Caroline Durand-Rous, Margot Lauwers, 2023-10-10 Weaving Words into Worlds comes as the third spinoff of the international ecopoetics conference organized in Perpignan in 2016 Reflecting upon how the many stories we tell directly influence the world we live in each of the contributions in this international volume directs our attention to the constant ecopoetic weaving of word to the world at work via the many entanglements between mind matter and meaning whether on a local or a global scale It encapsulates how the words stories and concepts we humans articulate as we try to make sense of the world we inhabit give part of its shape to the web of ecological relations that we depend on for survival It seeks to cast light on the disenchanting and reenchanting powers of stories and poesis in general as stories retain the power to make us either become oblivious to and destroy or to feel and honor the many complex ties between the multitudinous nature cultures intertwined within the fabric of a multispecies world always in the making This book offers a total of fourteen articles written by international scholars in ecocriticism and ecopoetics who by their analyses of literature and or films and the political subtext they thus render visible aim at showing how the study of environmentally minded media may renew our attention to the entangled agencies of the human and the more than human realm Thus this work offers to counter a reproach ecocriticism has often been met with namely the over presence of US scholars and the lack of diversity in subjects in the field since the articles presented provide a wide variety of approaches and topics with examples of UK and Native American literature Polynesian myth graphic novels or haiku In doing so the book expands on the fields of ecocriticism and ecopoetics adding to this branch of study and enriching it with high quality academic studies

positive role models for Native students while providing non Native students with a view of Indigenous people today **The Spaces In Between** Tim Schouls,2023-11-30 The Spaces In Between examines prospects for the enhanced practice of Indigenous political sovereignty within the Canadian state As Indigenous rights include the right to self determination the book contends that restored practices of Indigenous sovereignty constitute important steps forward in securing better relationships between Indigenous peoples and the Canadian state While the Canadian state maintains its position of dominance with respect to the exercise of state sovereignty Tim Schouls reveals how Indigenous nations are nevertheless carving out and reclaiming areas of significant political power as their own By means of strategically acquired legal concessions through hard fought political negotiations and sometimes through simple declarations of intent Indigenous nations have repeatedly compelled the Canadian state to roll back its jurisdiction over them In doing so they have enhanced their prospects for political sovereignty within Canada As such they now increasingly occupy what Schouls refers to metaphorically as the spaces in between The book asserts that occupation of these jurisdictional spaces in between not only goes some distance in meeting the requirements of Indigenous rights but also contributes to Indigenous community autonomy and well being enhancing prospects for reconciliation between Indigenous peoples and the Canadian state

Winds of Change ,2010 **The Fictional North** John Butler,Sue Matheson,2012-03-15 Western culture may have enshrined North as a touchstone by which all other directions are defined but the North is not one but a number of Netherlands like all frontiers the North is in its essence imaginative magicked out of ice and snow muskeg and tundra Storytelling is its generative principle the activity through which the North and Northerners call themselves into being In essays on topics ranging from the Aboriginal justice system in Canada to the search for the Northwest Passage to the cultural paradigms of medieval Iceland The Fictional North examines stereotypes and iconic images of the North the relationship of North to South and ethnographic and fictional models of Northernness This diversity of subjects and methodologies not only introduces readers to the diversity found above the 53rd Parallel but also reflects the catholicity of the North itself Interdisciplinary and timely The Fictional North offers insights into the North s past as well as its present to those interested in circumpolar issues and the areas of culture literature history film sociology and education Prizing Literature Gillian Roberts,2011-10-29 When Canadian authors win prestigious literary prizes from the Governor General s Literary Award to the Man Booker Prize they are celebrated not only for their achievements but also for contributing to this country s cultural capital Discussions about culture national identity and citizenship are particularly complicated when the honorees are immigrants like Michael Ondaatje Carol Shields or Rohinton Mistry Then there is the case of Yann Martel who is identified both as Canadian and as rootlessly cosmopolitan How have these writers identities been recalibrated in order to claim them as representative Canadians Prizing Literature is the first extended study of contemporary award winning Canadian literature and the ways in which we celebrate its authors Gillian Roberts uses theories of hospitality to examine how prize

Ries, 2022-06-21 Even though the literary trope of the fl neur has been proclaimed dead on several occasions it still proves particularly lively in contemporary Anglophone fiction This study investigates how fl nerie takes a belated ethical turn in its more recent manifestations by negotiating models of ethical subjectivity Drawing on Michel Foucault s writings on the aesthetics of existence as well as Judith Butler s notion of precariousness as *conditio humana* it establishes a link between post sovereign models of subject formation and a paradoxical constellation of fl nerie which surfaces most prominently in the work of Walter Benjamin By means of detailed readings of Ian McEwan s *Saturday* Siri Hustvedt s *The Blindfold* Teju Cole s *Open City* Dionne Brand s *What We All Long For* and Robin Robertson s *The Long Take Or a Way to Lose More Slowly* this book traces how the ambivalence of fl nerie and its textual representation produces ethical norms while at the same time propagating the value of difference by means of disrupting societal norms of sameness *Precarious Fl nerie and the Ethics of the Self in Contemporary Anglophone Fiction* thus shows that the fl nerie text becomes a medium of ethical critique in post postmodern times

Fashioning Character Lauren S. Cardon, 2021-04-07 It s often said that we are what we wear Tracing an American trajectory in fashion Lauren Cardon shows how we become what we wear Over the twentieth century the American fashion industry diverged from its roots in Paris expanding and attempting to reach as many consumers as possible Fashion became a tool for social mobility During the late twentieth century the fashion industry offered something even more valuable to its consumers the opportunity to explore and perform The works Cardon examines by Sylvia Plath Jack Kerouac Toni Morrison Sherman Alexie and Aleshia Brevard among others illustrate how American fashion with its array of possibilities has offered a vehicle for curating public personas Characters explore a host of identities as fashion allows them to deepen their relationships with ethnic or cultural identity to reject the social codes associated with economic privilege or to forge connections with family and community These temporary transformations or performances show that identity is a process constantly negotiated and questioned never completely fixed

1924 George Mallory is arguably the last great British explorer having twice tried and failed to conquer Mount Everest. The mountain has haunted him but his attempts have captivated the hearts of a nation desperate to restore its former glory after World War I. Yet George has sworn to his wife Ruth that he will not mount a third attempt. He will remain with her and their three children instead of again challenging the unreachable peak. Then one afternoon Ruth reads a telegram addressed to George: "Glad to have you aboard again." And with this one sentence the lives of the Mallorys and the face of the nation are irrevocably changed. A beautifully rendered story about the need for redemption and the quest for glory, *Above All Things* is a captivating blend of historical fact and imaginative fiction. It is a heartbreaking tale of obsession, sacrifice, and what we do for love and honor.
