**America** Donald L. Gilleland, 2014 It is not unusual to hear someone yearn for the good old days For senior citizens that usually means the 1950s or 1960s Others almost certainly have a different perspective America A Cultural Enigma suggests that the good old days may not have been as good as the reader remembers them or has been told about them From the vantage point of a retired military officer and corporate executive the author offers individual observations of seismic changes to our culture that have dramatically divided our nation over the last fifty years Whether the reader is a senior citizen looking back at life through a rear view mirror a young adult contemplating an incomprehensible future or a teenager studying history this book will appeal to each from a different perspective Wherever the reader fits into these categories a 50 year mosaic of changes over this period highlights profound generational differences It has become increasingly difficult for seniors to identify with the mores customs values traditions and habits of the younger generations and for younger citizens to relate to family members who may be facing life in an assisted living facility or nursing home America A Cultural Enigma highlights some of the things that account for those differences It is not a historical document It is the author's personal observation of huge cultural shifts that have taken place among diverse segments of our society over the last fifty years It may help the reader put those events into a more personal perspective

American Dreams, American Nightmares Daniel Horowitz, 2022-11-22 Two decades punctuated by the financial crisis of the Great Recession and the public health crisis of COVID 19 have powerfully reshaped housing in America By integrating social economic intellectual and cultural histories this illuminating work shows how powerful forces have both reflected and catalyzed shifts in the way Americans conceptualize what a house is for in an era that has laid bare the larger structures and inequities of the economy Daniel Horowitz casts an expansive net over a wide range of materials and sources He shows how journalists and anthropologists have explored the impact of global economic forces on housing while filmmakers have depicted the home as a theater where danger lurks as elites gamble with the fates of the less fortunate Real estate

workshops and popular TV networks like HGTV teach home buyers how to flip or flop while online platforms like Airbnb make it possible to play house in someone else's home. And as the COVID pandemic took hold, many who had never imagined living out every moment at home found themselves cocooned there thanks to corporations like Amazon, Zoom, and Netflix.
