*American Cinematographer Manual* Michael Goi, American Society of Cinematographers, Martha Winterhalter, 2013-01-01

*The Cinematographer's Voice* Lindsay Coleman, Roberto Schaefer, 2022-06-01 *The Cinematographer's Voice* is a unique exploration of contemporary filmmaking and cinematography. The distillation of more than one hundred interviews with cinematographers from around the world and the product of a decade's worth of scholarship, the book is not only a collection of interviews with some of the world's leading cinematographers but also a panoramic sweep of what image making means in the era of digital cinema. Frequently, cinematography may seem intimidating as a discipline preserved solely of practitioners who have learned through years of exposure to photographic technology both the required jargon and background knowledge to comfortably engage with an often technical field. In our present era of film studies, this is no longer the case. The interviews collected here are informative not only on matters of technique but also on the ways in which practitioners formulate their methodologies, work with directors, and engage with the many logistical hurdles of visual storytelling. The result is an oral history of the past forty years of filmmaking and the cinematography it has produced.
