as examples of the increasing ambivalence of the technological sublime in the postwar world The festivities surrounding the rededication of the Statue of Liberty in 1986 become a touchstone reflecting the transformation of the American experience of the sublime over two centuries Nye concludes with a vision of the modern day consumer sublime as manifested in the fantasy world of Las Vegas

**Christian Imperial Feminism** Gale L. Kenny, 2024-02-06 Illuminates how white American Protestant women embraced a racially specific version of social inclusiveness that centered themselves as the norm Amidst the global instability of the early twentieth century white Christian American women embraced the idea of an empire of Christ that was racially diverse but which they believed they were uniquely qualified to manage America's burgeoning power combined with women's rising roles within the church led to white Protestant women adopting a feminism rooted in religion and imperialism Gale L Kenny examines this Christian imperial feminism from the women's missionary movement to create a Christian world order She shows that this Christian imperial feminism marked a break from an earlier Protestant world view that focused on moral and racial purity and in which interactions among races were inconceivable This new approach actually prioritized issues like civil rights and racial integration as well as the uplift of women though the racially diverse world Christianity it aspired to was still to be rigidly hierarchically ordered with white women retaining a privileged place as guardians In exposing these dynamics this book departs from recent scholarship on white evangelical nationalism to focus on the racial politics of white religious liberalism
