Henryk Grossman And The Recovery Of Marxism By Rick Kuhn

Murray Smith

Henryk Grossman And The Recovery Of Marxism By Rick Kuhn:

Henryk Grossman and the Recovery of Marxism Rick Kuhn, 2007 The first comprehensive English language Grossman biography [Henryk Grossman Works, Volume 1](#) Henryk Grossman, 2018-11-26 This collection includes texts by Henryk Grossman that are primarily concerned with economic theory monographs articles essays letters and manuscript material Many have never been published in English before some in any language The first in four volumes of Grossman s works it provides the basis for a deeper understanding of Grossman s contributions to Marxist economic theory and critique of bourgeois economics Rick Kuhn s introduction explains the contexts in which the texts were written and establishes their contemporary relevance [Henryk Grossman Works, Volume 3](#) Henryk Grossman, 2021-11-01 Long awaited the first full translation of Henryk Grossman s *The Law of Accumulation and Breakdown of the Capitalist System Being also a Theory of Crisis* has been published in English It was the most important influential and yet most denounced of Grossman s works and recovers not only Marx s primary explanation of capitalism s economic crises and breakdown tendency but also his method in *Capital* [The Social and Economic Roots of the Scientific Revolution](#) Gideon Freudenthal, Peter McLaughlin, 2009-05-20 The texts of Boris Hessen and Henryk Grossmann assembled in this volume are important contributions to the historiography of the Scientific Revolution and to the methodology of the historiography of science They are of course also historical documents not only testifying to Marxist discourse of the time but also illustrating typical European fates in the first half of the twentieth century Hessen was born a Jewish subject of the Russian Czar in the Ukraine participated in the October Revolution and was executed in the Soviet Union at the beginning of the purges Grossmann was born a Jewish subject of the Austro Hungarian Kaiser in Poland and served as an Austrian officer in the First World War afterwards he was forced to return to Poland and then because of his revolutionary political activities to emigrate to Germany with the rise to power of the Nazis he had to flee to France and then America while his family which remained in Europe perished in Nazi concentration camps Our own acquaintance with the work of these two authors is also indebted to historical context under incomparably more fortunate circumstances the revival of Marxist scholarship in Europe in the wake of the student movement and the professionalization of history of science on the Continent We hope that under the again very different conditions of the early twenty first century these texts will contribute to the further development of a philosophically informed socio historical approach to the study of science [Confronting Reification](#) , 2020-07-27 Georg Lukács 1885 1971 was one of the most original Marxist philosophers and literary critics of the twentieth century His work was a major influence on what we now know as critical theory Almost fifty years after his death Lukács s legacy has come under attack by right wing extremists in his native Hungary Despite efforts to erase his memory Lukács remains a philosophical gadfly In *Confronting Reification* an international team of fourteen scholars explicate reassess and apply one of Lukács s most significant philosophical contributions his theory of reification Based on papers presented at the 2017 Legacy of Georg Lukács conference held in

Budapest the essays in this volume demonstrate the vitality of Lukács's thought and its relevance Contributors include Rüdiger Dannemann Frank Engster Andrew Feenberg Joseph Grim Feinberg Andra Jé Christian Lotz Csaba Olay Tom Rockmore Gregory R Smulewicz Zucker Mariana Teixeira Michael J Thompson Tivadar Vervoort Richard Westerman and Sean Winkler

Polish Marxism after Luxemburg Jan Toporowski,2022-12-09 In Polish Marxism after Luxemburg Jan Toporowski and leading experts offer a unique and insightful overview of Polish political economic ideas since the early 20th century building an introduction to some key themes and figurehead political economists *Against the Crisis* Ståle Holgersen,2024-11-26 If crisis defines our era we need a coherent socialist policy in response Ståle Holgersen delves into today's economic and ecological crises to demonstrate that they are not exceptions to an otherwise functioning system but integral to its operation It is naive to see these upheavals as opportunities for reform or revolution They are the bedrock of the status quo Fortunately the vicious circle sustaining capitalism is not founded on an iron law Our historical mission in the face of the climate crisis is to create a historical exception to the rule It is time for ecosocialism against crisis The Great Recession Michael

Roberts,2009-12-03 The Great Recession of 2008-9 was the worst slump in the world economy since the Great Depression in the 1930s Michael Roberts forecast that it would happen a few years before and in this book he explains why the Great Recession happened relying on Marx's analysis of the laws of motion in a capitalist economy And he makes predictions of whether and when it could happen again **Capitalism in the 21st Century** Guglielmo Carchedi,Michael

Roberts,2022-12-20 Contemporary capitalism is always evolving From digital technologies to cryptocurrencies current trends in political economy are much discussed but often little understood So where can we turn for clarity As Michael Roberts and Guglielmo Carchedi argue new trends don't necessarily call for new theory In Capitalism in the 21st Century the authors show how Marx's law of value explains numerous issues in our modern world In both advanced economies and the periphery value theory provides a piercing analytical framework through which we can approach topics as varied as labour profitability automation and AI the environment nature and ecology the role of China imperialism and the state This is an ambitious work that will appeal to both heterodox economists and labour movement activists alike as it demonstrates the ongoing

contemporary relevance of Marxist theory to current trends in political economy **Imperialism and Global Political Economy** Alex Callinicos,2013-04-18 In Imperialism and Global Political Economy Alex Callinicos intervenes in one of the main political and intellectual debates of the day The global policies of the United States in the past decade have encouraged the widespread belief that we live in a new era of imperialism But is this belief true and what does imperialism mean Callinicos explores these questions in this wide-ranging book In the first part he critically assesses the classical theories of imperialism developed in the era of the First World War by Marxists such as Lenin Luxemburg and Bukharin and by the Liberal economist J A Hobson He then outlines a theory of the relationship between capitalism as an economic system and the international state system carving out a distinctive position compared to other contemporary theorists of empire and

imperialism such as Antonio Negri David Harvey Giovanni Arrighi and Ellen Wood In the second half of Imperialism and Global Political Economy Callinicos traces the history of capitalist imperialism from the Dutch East India Company to the specific patterns of economic and geopolitical competition in the contemporary era of American decline and Chinese expansion Imperialism he concludes is far from dead **German Scholars in Exile** Axel Fair-Schulz, Mario

Kessler, 2011-05-26 German Scholars in Exile deals with intellectuals who fled Nazi Germany and found refuge in either the United States or in American Services in Great Britain and post WWII Germany The volume focuses on scholars who were outside the commonly known Max Horkheimer Hannah Arendt circles who are less well known but not less important Their experiences ranged from an outstanding career at an Ivy League university to a return to the German Democratic Republic and a position as an economic advisor to East Berlin's party leadership None had actual political power but many asserted some degree of influence Their intellectual legacies can still be seen in today's political culture **Invisible Leviathan**

Murray Smith, 2018-11-05 In this updated and expanded edition of Invisible Leviathan Murray E G Smith critically explores and makes significant contributions to the debate surrounding Karl Marx's capitalist law of value and its corollary the law of the falling rate of profit A powerful case is presented that capitalism has exhausted its potential to contribute to human progress Humanity confronts a fateful choice to allow this obsolescent system which necessarily measures wealth in terms of abstract social labour and money profit to destroy human civilisation or to make the leap toward a global egalitarian socialist society in which the satisfaction of human need is the starting point and the all round development of each and every human individual the goal of the socio economic life process First printed in 1994 as Invisible Leviathan The Marxist Critique of Market Despotism Beyond Postmodernism by University of Toronto Press This second and revised edition includes a new Foreword by Michael Roberts and a Preface to the Second Edition Grand Hotel Abyss Stuart Jeffries, 2017-09-26

Marvelously entertaining exciting and informative Guardian An engaging and accessible history New York Review of Books This group biography is an exhilarating page turner and outstanding critical introduction to the work and legacy of the Frankfurt School and the great 20th century thinkers who created it Washington Post In 1923 a group of young radical German thinkers and intellectuals came together to at Victoria Alle 7 Frankfurt determined to explain the workings of the modern world Among the most prominent members of what became the Frankfurt School were the philosophers Walter Benjamin Theodor Adorno Max Horkheimer and Herbert Marcuse Not only would they change the way we think but also the subjects we deem worthy of intellectual investigation Their lives like their ideas profoundly sometimes tragically reflected and shaped the shattering events of the twentieth century Grand Hotel Abyss combines biography philosophy and storytelling to reveal how the Frankfurt thinkers gathered in hopes of understanding the politics of culture during the rise of fascism Some of them forced to escape the horrors of Nazi Germany later found exile in the United States Benjamin with his last great work the incomplete Arcades Project in his suitcase was arrested in Spain and committed suicide when threatened with

deportation to Nazi occupied France On the other side of the Atlantic Adorno failed in his bid to become a Hollywood screenwriter denounced jazz and even met Charlie Chaplin in Malibu After the war there was a resurgence of interest in the School From the relative comfort of sun drenched California Herbert Marcuse wrote the classic *One Dimensional Man* which influenced the 1960s counterculture and thinkers such as Angela Davis while in a tragic coda Adorno died from a heart attack following confrontations with student radicals in Berlin By taking popular culture seriously as an object of study whether it was film music ideas or consumerism the Frankfurt School elaborated upon the nature and crisis of our mass produced mechanized society *Grand Hotel Abyss* shows how much these ideas still tell us about our age of social media and runaway consumption

The Frankfurt School, Jewish Lives, and Antisemitism Jack Jacobs, Jack Lester Jacobs, 2015 This book explores the ways in which the Jewish backgrounds of leading Frankfurt School Critical Theorists shaped their lives work and ideas

Writing Against Hitler Daniel Siemens, 2025 In *Writing Against Hitler* Daniel Siemens reconstructs the history of the struggles of socialist intellectuals in Germany from the 1920s through the post World War II era by focusing on the life of one influential member of that group Hermann Budzislowski 1901-78 In the 1930s Budzislowski served as the editor in chief of the prominent antifascist journal *Die neue Weltbühne* After the German occupation of France he worked in exile in the United States until 1948 when he moved to East Germany He became influential in training a new generation of journalists and worked as a politician Through the twin stories of a highly ambitious figure and the legendary publication he headed Siemens charts the course of the intellectual Left's rise and decline in power during the decades that shaped the political divides of the mid twentieth century Crucially his account challenges the widely held belief that post 1989 German unification has represented a victory over the traumas of the past Instead Siemens shows the complexity of different strains of socialist thought and activity and reveals the contested place of Nazi Germany's exiles at the center of Cold War Germany's cultural history

Karl Polanyi Gareth Dale, 2013-04-24 Karl Polanyi's *The Great Transformation* is generally acclaimed as being among the most influential works of economic history in the twentieth century and remains as vital in the current historical conjuncture as it was in his own In its critique of nineteenth century market fundamentalism it reads as a warning to our own neoliberal age and is widely touted as a prophetic guidebook for those who aspire to understand the causes and dynamics of global economic turbulence at the end of the 2000s Karl Polanyi's *The Limits of the Market* is the first comprehensive introduction to Polanyi's ideas and legacy It assesses not only the texts for which he is famous prepared during his spells in American academia but also his journalistic articles written in his first exile in Vienna and lectures and pamphlets from his second exile in Britain It provides a detailed critical analysis of *The Great Transformation* but also surveys Polanyi's seminal writings in economic anthropology the economic history of ancient and archaic societies and political and economic theory Its primary source base includes interviews with Polanyi's daughter Kari Polanyi Levitt as well as the entire compass of his own published and unpublished writings in English and German This

engaging and accessible introduction to Polanyi's thinking will appeal to students and scholars across the social sciences providing a refreshing perspective on the roots of our current economic crisis

Diaspora Nationalism and Jewish Identity in Habsburg Galicia Joshua Shanes, 2012-08-06 Explains the construction of the Jewish nation in Galicia the process by which traditional Jews modernized and the variety of identities they adopted

Marxism and Ethics Paul Blackledge, 2012-02-14 Marxism and Ethics is a comprehensive and highly readable introduction to the rich and complex history of Marxist ethical theory as it has evolved over the last century and a half Paul Blackledge argues that Marx's ethics of freedom underpin his revolutionary critique of capitalism Marx's conception of agency he argues is best understood through the lens of Hegel's synthesis of Kantian and Aristotelian ethical concepts Marx's rejection of moralism is not as suggested in crude materialist readings of his work a dismissal of the free purposive subjective dimension of action Freedom for Marx is both the essence and the goal of the socialist movement against alienation and freedom's concrete modern form is the movement for real democracy against the capitalist separation of economics and politics At the same time Marxism and Ethics is also a distinctive contribution to and critique of contemporary political philosophy one that fashions a powerful synthesis of the strongest elements of the Marxist tradition Drawing on Alasdair MacIntyre's early contributions to British New Left debates on socialist humanism Blackledge develops an alternative ethical theory for the Marxist tradition one that avoids the inadequacies of approaches framed by Kant on the one hand and utilitarianism on the other

Theory as Critique: Essays on Capital Paul Mattick, 2018-06-12 Theory as Critique while discussing many central issues of Marxian theory has two main emphases First as the title suggests it takes seriously Capital's claim to be a critique of economic theory rather than a contribution to political economy Understanding what this means it shows goes far to unravelling many difficulties traditionally found in Marx's book from the nature of his theory of class to the transformation problem Secondly Mattick's volume carefully explores how to bridge the gap between the extreme abstraction of Marx's ideas and the complex reality that they are intended to help us understand

Dialectic of Solidarity Mark Worrell, 2008-07-31 During World War II it appeared that American workers in uniform had all that was required to defend democracy on the battlefields yet on the domestic front the working class as it turned out was ideologically inconsistent when it came to democracy Could battles against tyranny be won abroad only to lose the war back home This was the question the Institute of Social Research the famous Frankfurt School asked in 1944 when it embarked upon an important study of the American working class Dialectic of Solidarity draws upon unpublished research reports of the Frankfurt School and represents a unique and multidimensional view of the political imagination of the wartime American worker and the role of antisemitism as the spearhead of fascism

Thank you for downloading **Henryk Grossman And The Recovery Of Marxism By Rick Kuhn**. As you may know, people have look numerous times for their favorite novels like this Henryk Grossman And The Recovery Of Marxism By Rick Kuhn, but end up in harmful downloads.
