The Routledge Companion to Digital Journalism Studies Scott A. Eldridge II, David Cheruiyot, Sandra Banjac, Joëlle Swart, 2024-12-16 This second edition of The Routledge Companion to Digital Journalism Studies offers a truly global and groundbreaking collection of essays addressing the key issues and debates shaping the field of digital journalism studies today. Journalism has arguably faced unprecedented disruption and reconceptualization since the first edition of this Companion was published. Questions over what role journalism and journalists play in society are pervasive and changes to platforms, products, practices and audiences are among the forces driving a new research agenda in the field. This newly reorganized second edition addresses developments in technologies, data infrastructures, algorithms and the businesses behind these technologies as well as the impact of such developments on the practice of digital journalism. Debates concerning the decline of public trust in journalism and the blurred distinctions between journalism and other forms of media and communication are also considered. The chapters outline the need for digital competence and literacy within journalism and introduce new methodological approaches including experimental and arts based methods, computational methods and collaborative work. Comprising 54 original essays from distinguished academics across the globe, this book showcases the rich diversity of work that continues to define the field of digital journalism studies and is an essential point of reference for students and researchers alike.

The Oxford Handbook of Mental Health and Contemporary Western Aesthetics, 2025-01-02 Human flourishing depends upon the mental health of the individuals. Throughout history various cultural traditions have established and practiced diverse strategies to maintain their community members' mental health, treat their mental illness and enhance their well-being. They range from spiritual disciplines, religious rituals and philosophical training to communal activities, educational instructions and community support. It is noteworthy that aesthetic objects and activities are frequently integrated into these strategies. They include visual arts, music, dance, story telling, theatre and occasions and events made special by certain foods, drinks, decorations, clothes and fragrance. This long held and widely practiced integration of aesthetics into promotion of mental health testifies to the power of the aesthetic to affect the well-being of humans and their communities. The world's major philosophies and religious traditions have recognized this power.
