Prebiotic Chemistry and Life's Origin

Michele Fiore, 2022-06-29 How life originated from the inanimate mixture of organic and inorganic compounds on the primordial earth remains one of the great unknowns in science This origin of life or abiogenesis continues to be examined in the context of the conditions and materials required for natural life to have begun on Earth both theoretically and experimentally This book provides a broad but in depth analysis of the latest discoveries in prebiotic chemistry from the microscopic to the macroscopic scale utilising experimental insight to provide a bottom up approach to plausibly explaining how life arose With contributions from global leaders this book is an ideal reference for postgraduate students and a single source of comprehensive information on the latest technical and theoretical advancements for researchers in a variety of fields from astrochemistry and astrophysics to organic chemistry and evolution

Technology and the Pursuit of Economic Growth

David C. Mowery, Nathan Rosenberg, 1991-07-26 Technology's contribution to economic growth and competitiveness has been the subject of vigorous debate in recent years This book demonstrates the importance of a historical perspective in understanding the role of technological innovation in the economy The authors examine key episodes and institutions in the development of the U S research system and in the development of the research systems of other industrial economies They argue that the large potential contributions of economics to the understanding of technology and economic growth have been constrained by the narrow theoretical framework employed within neoclassical economics A richer framework they believe will support a more fruitful dialogue among economists policymakers and managers on the organization of public and private institutions for innovation David Mowery is Associate Professor of Business and Public Policy at the School of Business Administration University of California Berkeley Nathan S Rosenberg is Fairleigh Dickinson Professor of Economics at Stanford University He is the author of Inside the Black Box Technology and Economics CUP 1983
